Winnie Finn, Worm Farmer Simon and Schuster

Worm is all about having fun, respecting the earth, and never taking baths. Many children will relate to this funny character! In *Diary of a Worm: Teacher's Pet*, Worm makes a surprising discovery—teachers have birthdays. That means Worm and his friends have to find the perfect present for their teacher, Mrs. Mulch. *Diary of a Worm: Teacher's Pet* is a Level One I Can Read book, which means it is perfect for kids learning to sound out words and sentences.

The World According to Garp HarperCollins

In *The Earth Moved*, Amy Stewart takes us on a journey through the underground world and introduces us to one of its most amazing denizens. The earthworm may be small, spineless, and blind, but its impact on the ecosystem is profound. It ploughs the soil, fights plant diseases, cleans up pollution, and turns ordinary dirt into fertile land. Who knew? In her witty, offbeat style, Stewart shows that much depends on the actions of the lowly worm. Charles Darwin devoted his last years to the meticulous study of these creatures, praising their remarkable abilities. With the august scientist as her inspiration, Stewart investigates the worm's subterranean realm, talks to oligochaetologists—the unsung heroes of earthworm science—who have devoted their lives to unearthing the complex life beneath our feet, and observes the thousands of worms in her own garden. From the legendary giant Australian worm that stretches to ten feet in length to the modest nightcrawler that wormed its way into the heart of Darwin's last book to the energetic red wigglers in Stewart's compost bin, *The Earth Moved* gives worms their due and exposes their hidden and extraordinary universe. This book is for all of us who appreciate Mother Nature's creatures, no matter how humble.

A decade in the future, humanity thrives in the absence of sickness and disease. We owe our good health to a humble parasite -- a genetically engineered tapeworm developed by the pioneering SymboGen Corporation. When implanted, the Intestinal Bodyguard worm protects us from illness, boosts our immune system -- even secretes designer drugs. It's been successful beyond the scientists' wildest dreams. Now, years on, almost every human being has a SymboGen tapeworm living within them. But these parasites are getting restless. They want their own lives . . . and will do

anything to get them. A year ago, Cal Thompson was a college freshman more interested in meeting girls and partying than in attending biology class. Now, after a fateful encounter with a mysterious woman named Morgan, biology has become, literally, Cal's life. Cal was infected by a parasite that has a truly horrifying effect on its host. Cal himself is a carrier, unchanged by the parasite, but he's infected the girlfriends he's had since Morgan. All three have turned into the ravaging ghouls Cal calls Peeps. The

rest of us know them as vampires. It's Cal's job to hunt them down before they can create more of their kind. . . . Bursting with the sharp intelligence and sly humor that are fast becoming his trademark, Scott Westerfeld's novel is an utterly original take on an archetype of horror.

Alexander and the Terrible, Horrible, No Good, Very Bad Day Candlewick Press
Crawling through the dirt, worms are hard at work, helping plants to grow. Worms help the fruit and vegetables we eat by loosening the soil and feeding the plants. Read and find out about these wiggling wonders!

Parasite Abrams

It's a cool, damp night, and a wriggling worm searches for food in a garden. Before the sun rises, it returns to its home in the soil. Tiny hairs on the worm's skin grab the dirt to help the crawler move forward. As the worm squirms underground, its long body breaks up the soil and creates tunnels. Welcome to the worm's hole! Clear text, colorful photos, and diagrams will engage young readers as they explore the habitat, physical characteristics, diet, and behavior of these curious creatures. Age-appropriate activities and critical-thinking questions give readers an opportunity to make observations and gain valuable insights.

[A Trip to the Bottom of the World with Mouse](#) Little, Brown

Now available as an ebook for the first time ever in America, the bestselling coming-of-age classic novel by John Irving—the 40th anniversary edition with a new introduction by the author. “He is more than popular. He is a Populist, determined to keep alive the Dickensian tradition that revels in colorful set pieces...and teaches moral lessons.”—The New York Times The opening sentence of John Irving’s breakout novel *The World According to Garp* signals the start of sexual violence, which becomes increasingly political. “Garp’s mother, Jenny Fields, was arrested in Boston in 1942 for wounding a man in a movie theater.” Jenny is an unmarried nurse; she becomes a single mom and a feminist leader, beloved but polarizing. Her son, Garp, is less beloved, but no less polarizing. From the tragicomic tone of its first sentence to its mordantly funny last line—“we are all terminal cases”—*The World According to Garp* maintains a breakneck pace. The subject of sexual hatred—of intolerance of sexual minorities and differences—runs the gamut of “lunacy and sorrow.” Winner of the National Book Award, *Garp* is a comedy with forebodings of doom. In more than thirty languages, in more than forty countries—with more than ten million copies in print—*Garp* is the precursor of John Irving’s later protest novels.

“A wonderful nightmare of a book: tender and frightening, disturbing but compassionate. *Fever Dream* is a triumph of Schweblin’s outlandish imagination.” –Juan Gabriel Vasquez, author of *The Sound of Things Falling* and *Reputations* A young woman named Amanda lies dying in a rural hospital clinic. A boy named David sits beside her. She’s not his mother. He’s not her child. Together, they tell a haunting story of broken souls, toxins, and the power and desperation of family. *Fever Dream* is a nightmare come to life, a ghost story for the real world, a love story and a cautionary tale. One of the freshest new voices to come out of the Spanish language and translated into English for the first time, Samanta Schweblin creates an aura of strange psychological menace and otherworldly reality in this absorbing, unsettling, taut novel.

So when Shiloh runs away from Judd to Marty, Marty just has to hide him and protect him from Judd. But Marty's secret becomes too big for him to keep to himself, and it exposes his entire family to Judd's anger. How far will Marty have to go to make Shiloh his?

I Have No Mouth & I Must Scream Carson-Dellosa Publishing

In this contemporary novel, Newbery Medalist Linda Sue Park delivers a funny, lively story that illuminates both the process of writing a novel and the meaning of growing up American. "A rich work that treats serious issues with warmth, respect, and a good deal of humor" (Kirkus starred review). Perfect for both independent reading and classroom sharing. Julia Song and her friend Patrick would love to win a blue ribbon, maybe even two, at the state fair. They've always done projects together, and they work well as a team. This time, though, they're having trouble coming up with just the right project. Then Julia's mother offers a suggestion: They can raise silkworms, as she did when she was a girl in Korea. Patrick thinks it's a great idea. Of course there are obstacles—for example, where will they get mulberry leaves, the only thing silkworms eat?—but nothing they can't handle. Julia isn't so sure. The club where kids do their projects is all about traditional American stuff, and raising silkworms just doesn't fit in. Moreover, the author, Ms. Park, seems determined to make Julia's life as complicated as possible, no matter how hard Julia tries to talk her out of it.
