*Novel Translations* Boston : Houghton Mifflin

Many early novels were cosmopolitan books, read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and other European languages. In *Novel Translations*, Bethany Wiggin charts just one of the paths by which newness—in its avatars as fashion, novelties, and the novel—entered the European world in the decades around 1700. As readers across Europe snapped up novels, they domesticated the genre. Across borders, the novel lent readers everywhere a suggestion of sophistication, a familiarity with circumstances beyond their local ken. Into the eighteenth century, the modern German novel was not German at all; rather, it was French, as suggested by Germans' usage of the French word *Roman* to describe a wide variety of genres: pastoral romances, war and travel chronicles, heroic narratives, and courtly fictions. Carried in large part on the coattails of the Huguenot diaspora, these romans, nouvelles, amours secrets, histoires galantes, and histories scandaleuses shaped German literary culture to a previously unrecognized extent. Wiggin contends that this French chapter in the German novel's history began to draw to a close only in the 1720s, more than sixty years after the word first migrated into German. Only gradually did the *Roman* go native; it remained laden with the baggage from its "French" origins even into the nineteenth century.

This acclaimed autobiography by one of the twentieth century's greatest satirical artists is as much a graphic portrait of Germany in chaos after the Treaty of Versailles as it is a memoir of a

remarkable artist's development. Grosz's account of a world gone mad is as acute and provocative as the art that depicts it, and this translation of a work long out of print restores the spontaneity, humor, and energy of the author's German text. It also includes a chapter on Grosz's experience in the Soviet Union—omitted from the original English-language edition—as well as more writings about his twenty-year self-imposed exile in America, and a fable written in English.
