National data and anecdotal reports from teachers, counsellors, and administrators show that substantial numbers of students in primary and secondary schools have been identified as having mental health needs. The School Counselor's Mental Health Sourcebook provide school counsellors with: (a) information about the range of mental health disorders seen in

schools, including prevalence and typical symptoms; (b) a set of practical strategies and intervention ideas that can be used in classrooms, group counselling settings, and individual counselling sessions; and (c) suggestions and guidelines for communicating effectively with teachers and families regarding mental health issues. The ASCA National Model, which serves as the blueprint for practice, requires that counsellors switch their focus from service-centred for some students to programme-centred for every student. So, counsellors are not only interested in working with students with a range of mental health needs, they are also being called upon to do so. For many students, schools represent the only source of

treatment, and this book addresses the great need for practical, ready-to-use strategies and guidelines that counsellors can use to help these students succeed.

Effective clinical practice requires a thorough understanding of how turning points surface in the play therapy process.

These moments can indicate a change in a child's thought or behaviour. The play therapist is the facilitator of these moments and this book will provide guidance on how they can promote these moments. This edited collection demonstrates successful implementation of the author's proven Play Therapy Dimensions Model. Each chapter uses this framework, as well as other theories, to discuss the markers that can reflect shifts and growth in a child's development. Full of applied guidance, this book will prove to be invaluable for practitioners, instructors and students.

The 1970s and 1980s saw the awakening of social awareness and political activism in Mexican-American communities. In San Diego, a group of Chicana women participated in a political theatre group whose plays addressed social, gender, and political issues of the working class and the Chicano Movement. In this collective memoir, seventeen women who were a part of Teatro de las Chicanas (later known as Teatro Laboral and Teatro Raíces) come together to share why they joined the

theatre and how it transformed their lives. Teatro Chicana tells the story of this troupe through chapters featuring the history and present-day story of each of the main actors and writers, as well as excerpts from the group's materials and seven of their original short scripts.

CSCL has in the past 15 years (and often in conjunction with Springer) grown into a thriving and active community. Yet, lacking is a comprehensive CSCL handbook that displays the range of research being done in this area. This handbook will provide an overview of the diverse aspects of the field, allowing newcomers to develop a sense of the entirety of CSCL research and for existing community members to become more deeply aware of work outside their direct area. The handbook will also serve as a ready reference for foundational concepts, methods, and approaches in the field. The chapters are written in such a way that each of them can be used in a stand-alone fashion while also serving as introductory readings in relevant study courses or in teacher education. While some CSCL-

relevant topics are addressed in the International Handbook of the Learning Sciences and the International Handbook of Collaborative Learning, these books do not aim to present an integrated and comprehensive view of CSCL. The International Handbook of Computer-Supported Collaborative Learning covers all relevant topics in CSCL, particularly recent developments in the field, such as the rise of computational approaches and learning analytics.

Teaching Social and Emotional Learning in Physical Education is the ideal resource for understanding and integrating social and emotional learning (SEL) competencies into the structure of a physical education program, alongside physical activity and skill development goals. This text should be incorporated as a key resource to guide physical education teacher education

courses specifically focused on social and emotional learning while also providing supplemental readings for courses related to physical education curriculum, instruction, assessment, and/or models-based practice. Similarly, practicing physical education teachers who are interested in developing a stronger focus on SEL in their teaching will find that the book provides a comprehensive resource to guide their professional learning and practice.

Participatory video is a growing area of research and an increasingly popular tool among practitioners, researchers, and NGOs working with communities around the world. The Handbook of Participatory Video advances the field, engaging critically with it as a research methodology and method and interrogating assumptions about its emancipatory nature and potential for social change. In twenty-eight chapters, contributors examine historical, ethical, methodological, and technical aspects of participatory video and discuss power, ownership, and knowledge production. The Handbook is organized into six parts:

Locating Participatory Video, Participatory Video as a Critical Research Methodology, Working with Visual Data, Power and Ethics in Participatory Video, Dissemination and Reaching New Audiences, and Communities and Technologies. This benchmark work takes an interdisciplinary and global approach and will be invaluable to researchers, practitioners, and students.

Starratt's highly original book offers fresh insights into the nature of teaching, learning, schooling as a multi-cultural, social enterprise, and the importance of vision for that leadership—by using the analogy of drama. Schooling is a preparation to participate in the social drama, both as an individual and as a community. Beyond participation, schooling can enable youngsters to maintain and restore the human purposes of the social drama. This unique book accommodates present critics of schools from both the left and the right, but goes beyond them to offer a script for restoring the schools to their human and social purposes.

Samuel Beckett, one of the great avant-garde Irish dramatists and writers of the

second half of the twentieth century, was born on 13 April 1906. His centenary will be celebrated throughout 2006 with performances of his major plays, including *Waiting for Godot*. Here are the two most famous plays for solo voice. Krapp's Last Tape finds an old man, with his tape recorder, musing over the past and future. *Not I* is a remarkable tour de force for a single actress, as a woman emits memories and fears. Also included are two other singular short dramas for single voice, *That Time* read by John Moffatt and *A Piece of Monologue* read by Peter Marinker.

Internationally recognized for his writing on educational leadership, and the ethics of educational leadership, Robert J. Starratt brings together a thoughtfully

crafted selection of his writing, representing key aspects of his life and work, leading to his current thinking on the convergence of school leadership, the professional ethics of educators, and the integrity of the teaching-learning process. This retrospective reveals Starratt's enduring work as probing the foundational intelligibility of the teaching-learning process and its connection to human development of both students and teachers. It exhibits his efforts to focus the leadership of the teaching-learning process on a combination of cognitive insight into the intelligibility of the world, affective dwelling in the particulars of that intelligibility, and the responsibilities one's relationships with the particular might suggest. A new introduction contextualises Starratt's work against key developments in the field. The unique collection of chapters develop various themes, from human resource development to the complexity of curriculum change and from ethical analysis of school organizational structures to the complex dramas in students' personal lives and in the classroom. The book chronicles Starratt's contributions to the field and his role as a

leading scholar, who has played a key part in the development of leadership and ethics in education over the course of his career. Leading Learning/Learning Leading will be of global interest to education leaders and researchers engaged in the field of educational leadership and ethical education.

The use of training techniques originally developed for theatre and improvisation within the workplace has increased enormously in recent years, and the

proven effectiveness of this approach has found many enthusiastic followers. Sometimes, actors are brought into an organization to act as catalysts within a training/role-play setting, but, increasingly, trainers themselves are using the techniques. Written by an expert in the field, drawing on her substantial experience in business, training and acting, this practical guide shows clearly how anyone can make use of these techniques easily and effectively. With information on the theories and principles behind using drama in training, this book also includes the details of 50 activities and shows how to use a diverse range of techniques to improve creativity, leadership, teamwork and personal development. Training Using Drama covers the key issues, including: storytelling; role-plays; coaching; non-verbal communication; spontaneity; trust and awareness.
