The book explains elaborately the basic concept of Yoga, its origin, philosophy and aim, and also the relevance of Yoga in the present world. In fact, Yoga has an answer for every possible ailment/disease that affects the human race, including some of the deadly ones too, such as Cancer, AIDS, etc. Initially, the Yogic saints developed the Yogasanas by referring to animals, birds, trees and other creatures in order to stretch or relax. There are innumerable Yogasanas discussed in the book. Some of the well-known among them are: Surya Namaskar and its different poses, Uttana Padasana (Stretched leg Pose), Pawana Muktasana (Wind Release Pose), Naukasana (Boat Pose), Chakrasana (Wheel Pose), Padmasana (Lotus Pose), Halasana (Plough Pose), etc. Another salient feature of the book is that there are different sections, such as: Management of Common Diseases through Yoga, Pranayama & Yogic Diet, Yoga for Seniors, Yoga for Women, Yoga for Children & Students, Yoga for Managing Stress, etc. However, it is recommended that Yoga should always be practised under the guidance of a trained Yoga Teacher/Practitioner. #v&spublishers **Food For Good Health** Diamond Pocket Books (P) Ltd.

This collection focuses on the work of the major pioneers working in the 1920s and 1930s whose research and writings laid the methodological foundations for post-World War II British approaches to English as a foreign language teaching (ELT). These early pioneers included Harold E. Palmer (in Japan), Michael West (in India), and Laurence Faucett (in China). Separately and jointly (at the 1934-5 'Carnegie Conference'), they succeeded in establishing a principled basis for the teaching of English to speakers of other languages, different in significant respects from teaching English as a 'first language' in Britain and the Empire.

Introduction to Bengali V&S Publishers Essay from the year 2012 in the subject English Language and Literature Studies - Linguistics, grade: A, , course: LING551, language: English, abstract: Teaching English is a global phenomenon. It is a multi-billion dollar industry. People from different countries, age, culture, backgrounds and gender are taking up teaching English as their profession to teach the language to Non-Native English Speakers (NNES). Initially, Native English Speakers taught English to NNES by using methods and techniques that they had employed in teaching English in their countries or new techniques they had developed, which they thought were more effective (Brown, 2007). At different times different teachers used different methods and approaches, which they preferred. But now all agree that no single approach suits all learners. An approach needs to be authentic for a particular group of learners and it is now acknowledged that one group of learner is different from another group in more than one way. Thus, English teaching approaches, besides taking into account only the educational background or age of a group, should consider learners' cultural background, the environment in which they will use English and above all, their first language. To make teaching of English most effective, EFL/ESL teachers should take into account how a particular language relates with English and how difficult or easy it is to teach L2 learners because of the differences or similarities of L2 with English. This essay looks at the teaching of English to Native Bengali Speakers (NBS) from Bangladesh. It does not include the Bengali speakers of West Bengal in India because the Bengali language spoken there, including phonology and cultural

background of learners, is different.

Many people, who have good command over the language and are well aware of its grammar and composition, can't speak the language fluently. Why? The answer is simple. While speaking they try to construct a sentence in their mother language and do the mental translation before uttering a single line. This creates not only confusion but utter chaos in their mind. As a result they feel great hesitation to speak simple sentences. In some cases, however, the problem is more complex, as they lack the basic knowledge of the English language. Rapidex English Speaking Course takes care of both the cases. So, what are you waiting for? Go ahead and discover the secret of fluency in English speaking. Explore and develop your hidden potential and face the world with a new-found confidence and smartness. Only the sky should be your limit. In today's competitive world, Spoken English is considered as a passport for success in life. The craze for learning spoken English has led to the growth of coaching institutes all over the country. Much as they may profess and advertise, it is not really possible to learn any language in 30 days. A person who genuinely wants to learn the language needs to spend two to three hours every day for at least five or six months before he or she would feel confident to communicate in English. The prime objective of this book is to

encourage students to learn English as a tool of communication and to enable them to understand the language thoroughly. The book basically takes off from the learner's point of view and guides them through cooperative learning methods in order to help master the effective communication skills in English. The book has been divided into four convenient units of Grammar, Pronunciation, Conversation and Vocabulary. Each chapter covers one main area of learning English - explained with examples. Carefully selected and graded exercises have also been included throughout the book to give readers ample practice and a complete understanding of the subject. In short, the book follows the modern functional approach to the study of English. So readers, it is definitely a one-stop solution for speaking English!
