SAUL KRUEGER

A Reference Grammar of Dutch Psychology Press
Provides a unique, up-to-date survey of twelve Germanic languages from English and German to Faroese and Yiddish.
Hindi: An Essential Grammar Routledge
Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative 'practice to theory' approach, with a 'back-to-front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include tasks with commentaries, a glossary of key terms, and an annotated further reading section. Vocabulary is the foundation of language and language learning and as such, knowledge of how to facilitate learners' vocabulary growth is an indispensable teaching skill and curricular component. Exploring Vocabulary is designed to raise teachers' and students' awareness of the interplay between the linguistic, psychological, and instructional aspects of vocabulary acquisition. It focuses on meeting the specific vocabulary needs of English language learners in whatever instructional contexts they may be in, with a special emphasis on addressing the high-stakes needs of learners in academic settings and the workplace. Dee Gardner also introduces a new Common Core Vocabulary, constructed from two of the most well-known and contemporary corpora of English—the British National Corpus and the Corpus of Contemporary American English. Exploring Vocabulary is an essential book for undergraduate and postgraduate students studying vocabulary within Applied Linguistics, TESOL, or Teacher Education, as well as any teacher working with English language learners.

A New Reference Grammar of Modern Spanish Routledge
The second edition of *Modern Brazilian Portuguese Grammar Workbook* is an innovative book of exercises and language tasks for all learners of Brazilian Portuguese. The book is divided into two sections: • Part A provides exercises based on essential grammatical structures • Part B practises everyday functions (e.g. making social contact, asking questions and expressing needs). A comprehensive answer key at the back of the book enables you to check on your progress. The *Modern Brazilian Portuguese Grammar Workbook* is ideal for all learners who have a basic knowledge of Brazilian Portuguese, including undergraduates taking Brazilian Portuguese as a major or minor part of their studies, as well as intermediate and advanced school, adult education and self-study students. While primarily

intended for use in conjunction with *Modern Brazilian Portuguese Grammar: A Practical Guide*, it can also serve as an independent resource.

Dutch Routledge

This logical, developmental presentation of the major aspects of modern Greek grammar includes all the necessary tools for speech and comprehension. Designed for adults with limited learning time who wish to acquire the basics of everyday modern Greek, this grammar features numerous shortcuts and timesavers. Ideal as an introduction, supplement, or refresher.

Dawn Routledge

Modern German Grammar: A Practical Guide, Third Edition is an innovative reference guide to German, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers grammatical categories such as word order, nouns, verbs and adjectives. Part B is organised according to language functions and notions such as: making introductions asking for something to be done delivering a speech possibility satisfaction. The book addresses learners' practical needs and presents grammar in both a traditional and a communicative setting. New to this edition, and building on feedback from the previous edition: The rules of the latest (and so far final) spelling reform have been implemented throughout. Examples of usage have been updated and consideration given to Swiss and Austrian variants. The chapter on register has been expanded and now includes youth language and frequently used Anglicisms in German. The Index now has even more key words; it has also been redesigned to differentiate between German words, grammar terms, and functions, thus making it more user-friendly. The Grammar assumes no previous grammatical training and is intended for all those who have a basic knowledge of German, from intermediate learners in schools and adult education to undergraduates taking German as a major or minor part of their studies. The Grammar is accompanied by a third edition of *Modern German Grammar Workbook* (ISBN 978-0-415-56725-1) which features exercises and activities directly linked to the Grammar. Ruth Whittle is Lecturer, John Klapper is Professor of Foreign Language Pedagogy, Katharina Glöckel is the Austrian Lektorin and Bill Dodd is Professor of Modern German Studies – all at the University of Birmingham. Christine Eckhard-Black is Tutor and Advisor in German at the Oxford University Language Centre.

A New Reference Grammar of Modern Spanish Routledge

Developed with the beginner in mind, this Grammar uses abundant examples and extensive cross-referencing to present the language in an engaging and accessible manner. Features include: core vocabulary for each unit a Dutch-English glossary three short stories further reading and resources. This is an ideal companion to a classroom-based course, helping to further explain and reinforce the grammar content of any chosen textbook. It is also an invaluable tool for independent learners.

Modern Mandarin Chinese Grammar Workbook Taylor &

Francis

(abridged and revised) This reference grammar offers intermediate and advanced students a reasonably comprehensive guide to the morphology and syntax of educated speech and plain prose in Spain and Latin America at the end of the twentieth century. Spanish is the main, usually the sole official language of twenty-one countries, and it is set fair to overtake English by the year 2000 in numbers of native speakers. This vast geographical and political diversity ensures that Spanish is a good deal less unified than French, German or even English, the latter more or less internationally standardized according to either American or British norms. Until the 1960s, the criteria of internationally correct Spanish were dictated by the Real Academia Espanola, but the prestige of this institution has now sunk so low that its most solemn decrees are hardly taken seriously - witness the fate of the spelling reforms listed in the *Nuevas normas de prosodia y ortografia*, which were supposed to come into force in all Spanish-speaking countries in 1959 and, nearly forty years later, are still selectively ignored by publishers and literate persons everywhere. The fact is that in Spanish 'correctness' is nowadays decided, as it is in all living languages, by the consensus of native speakers; but consensus about linguistic usage is obviously difficult to achieve between more than twenty independent, widely scattered and sometimes mutually hostile countries. Peninsular Spanish is itself in flux.

Modern Spanish Grammar Routledge

In this work, originally published in Dutch, Rik Smits theorizes that language could not have developed originally as a system of communication. It is, instead, the result of combining separate abilities, each of which developed independently to aid the survival of early humans. Lacking strength and speed, man relies on wisdom for survival. Smits theorizes that human skills in calculation and estimation continued to develop until they were sufficient to accommodate a system as complex as grammar. Only after our linguistic ability emerged could humans think logically and share our reasoning with others, at which point almost everything we now call culture began to flourish. Smits concludes that language cannot have long predated the invention of agriculture in the Middle East, some 14,000 years ago. The huge advance in civilization represented by language made abstract powers of reasoning indispensable for the first time, along with highly developed concepts of identity, past, present, and future, all of which rely upon language. This explanation of the origins of language throws new light on cave paintings by Cro-Magnon man, whose masterpieces date from about 40,000 to 15,000 years ago. Anatomically Cro-Magnons were modern humans, but they had no language in the modern sense. Their absence of language gave them no true sense of individual identity. This translation was made possible by a grant from the Dutch Foundation for Literature.

Dutch Springer Science & Business Media

The *Earliest English* provides a student-friendly introduction to Old English and the earliest periods of the history of the English Language as it evolved before 1215. Using non-technical language, the book covers basic terminology, the linguistic and cultural backgrounds to the emergence and development of OE, and the OE vocabulary that students studying this phase of the English language need to know. In eight carefully structured units, the authors show how the vocabulary of Old English contains many items familiar to us today; how its characteristic poetic form is based on a beautiful and intricate simplicity; how its patterns of word building and inflectional structure are paralleled in several present day languages and how and why the English language and its literature continued to change so that by the mid-12th century the English language looks more like the

'English' that we are familiar with in the 21st century. Features of the book include: the provision of accessible guides to some important 'problem topics' of classical OE stimulating cross-linguistic comparisons, e.g. the pronoun system of OE as compared with the pronoun system of present day Dutch cleverly laid out translation exercises, with structural help in the form of selective glossaries careful division into eight units, designed for both classroom use and self-study. Written in a clear and accessible manner, *The Earliest English* provides a comprehensive introduction to the evolution of Old English language and literature, and will be an invaluable textbook for students of English Language and Linguistics.

Modern Written Arabic Routledge

A Reference Grammar of Dutch is aimed at English-speaking students of Dutch at beginner/intermediate level. It is designed to be practical and user-friendly: grammatical information is presented in short entries arranged in alphabetical order, allowing students to gain easy access to specific points of grammar or problematic points of vocabulary as they encounter them in practice. Each grammatical rule is illustrated by simple, everyday Dutch examples of the kind likely to be encountered and used by the learner. Specialised linguistic terminology is kept to a minimum, with a glossary of essential terms provided, and charts and tables are included to help the student focus on the main points. Each entry is linked to a set of exercises which are graded according to complexity, and there is a key to the exercises at the back of the book. A thorough index is also provided.

Romanian: An Essential Grammar Routledge

Basic Dutch: A Grammar and Workbook comprises an accessible reference grammar and related exercises in a single volume. This Workbook presents twenty-five individual grammar points in realistic contexts, providing a grammatical approach which will allow students not already familiar with these structures to become accustomed to their use. Grammar points are followed by examples and exercises allowing students to reinforce and consolidate their learning. Suitable for class use or self-study, *Basic Dutch* introduces Dutch culture and people through the medium of the language used today, providing students with the basic tools to express themselves in a wide variety of situations. Features include: useful exercises and a full answer key grammar tables for easy reference frequent comparative references to English grammar an appendix of irregular verbs an index of grammatical terms.

The Germanic Languages Psychology Press

Now in its 10th edition, *Dutch: An Essential Grammar* is a reference guide to the most important aspects of modern Dutch as it is used by native speakers. Features include: A brand new chapter on negation; A user-friendly style to ensure all elements of the language that are of particular difficulty to English speakers are adequately explained; 'Let's Try That' sections in each chapter containing sample exercises; More examples and cross-referencing throughout, and a comprehensive glossary and index at the back of the book; Full use of examples given throughout illustrating modern usage. *Dutch: An Essential Grammar* is the ideal reference source both for those studying Dutch independently and for students in colleges, universities and adult classes.

Dutch Courier Corporation

Greek: An Essential Grammar of the Modern Language is a concise and user-friendly reference guide to the most important aspects of modern Greek. It presents a fresh and accessible description of the language in short, readable sections. Explanations are clear and supported by examples throughout. The Grammar is ideal for learners of all levels and is suitable for
