Mix together a beautiful ballerina and

ballet teacher, a sexy single dad, and a precocious-yet-sweet daughter, and emotions run high. Add racial and cultural differences, work contracts coming to an end, and hurts and memories from the past and sparks fly. Rowena loves to dance but has ended up

teaching ballet instead. When she helps out Cameron's difficult daughter, a bond develops between the two dancers. Cameron makes Rowena uncomfortable because he stirs up new, unwanted feelings which make no sense when he intends to leave Zambia soon when his contract ends. Cameron can't resist sanguine live-wire Rowena who makes his daughter smile for the first time in years. But can he risk his heart again when memories of his late wife come back to haunt him? And Rowena has a lot more at stake in giving her all. *Appalachian Dance* Simon and Schuster *Touched by Angels of Mercy* contains small doses of genuine life, from nurses, patients and caregivers, that touch the heart and foster healing. This collection of short stories and poems, interspersed

with tasteful cartoons, contains helpful resource information, as well as a brief biography of each contributing author. Many of the works in this collection offer a glimpse into the nurse-patient relationship, as seen through the eyes of the patient, nurse or family member. Some of the stories reveal caregiving scenarios taken from brief moments in history, behind prison walls or even on a golf course. Anyone may be labeled an "Angel of Mercy." This term is not exclusive to nurses. Our world needs the healing "angels" who come to us in a variety of forms, when and where we least expect them. At some time in our lives, each one of us will encounter illness, pain and death. Along with it will come the need for a helping hand and the gentle, caring touch of an "angel of

mercy." Everyone has the ability to be courageous, tenacious and loving. When people are hurting, whether from illness, injury or other reasons, they have the instinctive need to be touched and nurtured. People also have the need and desire to share their experiences with others. This process of sharing is frequently healthful and therapeutic. The strength, knowledge and inspiration that comes from recounting personal life and death experiences with one another stimulates healing. The profession of nursing deals with the prevention of illness, as well as the care and rehabilitation of the sick. Although it takes a special person to answer this "calling," today's nurses are vastly different from those of yesteryear. The changing world of healthcare has

created unique challenges and added pressures for nursing, but it has also created new frontiers. In addition, there is a growing number of caregivers in our society. Caregivers often feel isolated, apprehensive, exhausted and overwhelmed. They desperately need relief as well as ongoing support. Nurses and caregivers reach out and become "angels" for others. They are compassionate, intelligent and caring beings that provide hands-on care to help the sick to heal, or comfort them as they die. Nurses and caregivers are not invincible; they also need to take care of themselves. The need to be touched by another, and to share personal experiences, are universal human requirements. The strength, knowledge and inspiration that comes from

recounting personal life and death experiences stimulates healing. Wounds heal from the inside out--so does the heart and soul. Writing these stories has been a therapeutic experience for our authors, and for some, an extremely difficult task. It is our hope that by reading and sharing these real-life, personal experiences, you too will be touched, inspired and healed.

Character structures underlie everyone's personality. When rigidly defended, they limit us; yet as they become more flexible, they can reveal sources of animation, renewal and authenticity. The Matrix and Meaning of Character guides the reader into an awareness of the archetypal depths that underlie character structures, presenting an original developmental model in which current analytic theories are synthesised. The authors examine nine character structures, animating them with fairy tales, mythic images and case material, creating a bridge between the traditional language of psychopathology and the universal realm of image and symbol. This book will appeal to all analytical psychologists, psychoanalysts

and psychotherapists who want to strengthen their clinical expertise. It will help clinicians to extend their clinical insights beyond a strictly behavioural, medical or cognitive approach, revealing the potential of the human spirit.

**Classics for Christmas** Harlequin "Where are your leg warmers?" Dancing lessons...' Architect Ryder Fitzgerald

can't think of anything worse! But when he spots smoking-hot Nadia Kent, who'll be teaching him his steps for his sister's wedding, he decides this might not be so torturous after all.... Nadia is staying well clear of Ryder, however jaw-droppingly hot he is--she let a guy get in the way of her ambition once, but never again. (No matter how well he swivels his hips!) But as electricity crackles in the studio, restricting their chemistry to the dance floor becomes a challenge. Only question is, who's going to make the first move?

*Swept off Her Feet* Decadent Publishing In the twenty-first century, values of competition underpin the free-market economy and aspirations of individual achievement shape the broader social world. Consequently, ideas of winning

and losing, success and failure, judgment and worth, influence the dance that we see and do. Across stage, studio, street, and screen, economies of competition impact bodily aesthetics, choreographic strategies, and danced meanings. In formalized competitions, dancers are judged according to industry standards to accumulate social capital and financial gain. Within the capitalist economy, dancing bodies compete to win positions in prestigious companies, while choreographers hustle to secure funding and attract audiences. On the social dance floor, dancers participate in dance-offs that often include unspoken, but nevertheless complex, rules of bodily engagement. And the media attraction to the drama and spectacle of competition regularly plays out in reality

television shows, film documentaries, and Hollywood cinema. Drawing upon a diverse collection of dances across history and geography, *The Oxford Handbook of Dance and Competition* asks how competition affects the presentation and experience of dance and, in response, how dancing bodies negotiate, critique, and resist the aesthetic and social structures of the competition paradigm.

Devine Destinies  
Argentinean tango is a global phenomenon. Since its origin among immigrants from the slums of Buenos Aires and Montevideo, it has crossed and re-crossed many borders. Yet, never before has tango been danced by so many people and in so many different

places as today. Argentinean tango is more than a specific music and style of dancing. It is also a cultural imaginary which embodies intense passion, hyper-heterosexuality, and dangerous exoticism. In the wake of its latest revival, tango has become both a cultural symbol of Argentinean national identity and a transnational cultural space in which a modest, yet growing number of dancers from different parts of the globe meet on the dance floor. Through interviews and ethnographical research in Amsterdam and Buenos Aires, Kathy Davis shows why a dance from another era and another place appeals to men and women from different parts of the world and what happens to them as they become caught up in the tango salon culture. She shows

how they negotiate the ambivalences, contradictions, and hierarchies of gender, sexuality, and global relations of power between North and South in which Argentinean tango is—and has always been—embroiled. Davis also explores her uneasiness about her own passion for a dance which—when seen through the lens of contemporary critical feminist and postcolonial theories—seems, at best, odd, and, at worst, disreputable and even a bit shameful. She uses the disjuncture between the incorrect pleasures and complicated politics of dancing tango as a resource for exploring the workings of passion as experience, as performance, and as cultural discourse. She concludes that dancing tango should be viewed less as a love/hate embrace with colonial

overtones than a passionate encounter across many different borders between dancers who share a desire for difference and a taste of the 'elsewhere.' Dancing Tango is a vivid, intriguing account of an important global cultural phenomenon.
