In a groundbreaking longitudinal study, researchers studied seven similar social housing neighbourhoods in Ireland to determine what factors affected their liveability. In this collection of essays, the same researchers return to these neighbourhoods ten years later to see what's changed. Are these neighbourhoods now more liveable or leaveable? Social Housing, Disadvantage and Neighbourhood Liveability examines the major national and local developments that externally affected these neighbourhoods: the Celtic tiger boom, area-based interventions, and reforms in social housing management. Additionally, the book examines changes in the culture of social housing through studies of crime within social housing, changes in public service delivery, and media reporting on social housing. Social Housing, Disadvantage and Neighbourhood Liveability offers a new body of data valuable to researchers in Ireland and abroad on how to create more equitable and liveable social housing.

Ryan Hartwig may be one of the most important figures in
 American history. Hired by Cognizant as a content moderator for
 Facebook, Ryan Hartwig began by keeping gruesome images of
 cartel violence in Mexico off the platform. This seemed like a
 righteous mission and yet, as time went by, it became clear the
 Facebook bosses saw an even bigger threat, Americans of a

different political viewpoint. Ryan watched in horror as Facebook
 made a monumental shift after the 2016 elections, hiring
 thousands of US-based content moderators with one mission, to
 favor leftist viewpoints while suppressing the speech of
 conservatives. Ryan describes more than forty examples of such
 behavior, and it will radically rewrite your understanding of the
 past four years as you learn how the news regarding prominent
 individuals like Greta Thunberg, Alyssa Milano, and Don Lemon
 was censored to remove legitimate criticism of them. Viral videos
 of Trump supporters being attacked were removed from the
 platform, and moderators were told to look for signs of hate
 speech in Trumps' State of the Union addresses, while at the

same time allowing vicious attacks against police, pro-lifers, and
 straight white males. As America's de-facto town square,
 Facebook was systematically suppressing free speech, which has
 traditionally been our country's greatest weapon to combat
 extremism from either side. Ryan knew he had to take action, and
 contacted Project Veritas, eventually filming many of these
 actions with a hidden camera for the world to see. We need to
 stand up against tech tyranny and corporations that attempt to
 control our conversations, our news, and our political narratives.
 Reading Behind the Mask of Facebook: A Whistleblower's
 Shocking Story of Big Tech Bias and Censorship is the first step to
 learning how to confront and defeat this tyranny.
