We have known about the health benefits of CBD oil for a while now, but most of us didn't realize the real benefits of this nutrient-rich oil for our skin and beauty. If you are into Skin and beauty

like I am, then I am sure you have noticed a few Hemp oil infused beauty products like lotion, soaps, shampoo and even lip balm on some store shelves. I have been researching and making my own hemp oil-rich beauty products for a few years now and wanted to try and test some of the store-bought ones to see how they compare to what I make. Unfortunately, I found out most (85%) of these beauty products either have none or too little of the actual CBD rich Hemp oil for them to do any practical beautification of your skin. CBD is one of over 60 compounds found in cannabis that belongs to a class of ingredients called cannabinoids. Until recently, THC (tetrahydrocannabinol) was getting most of the attention because it's the ingredient in cannabis that produces mind-altering effects in users, but CBD is also present in high concentrations, and the medical world is realizing Hemp oil and CBD that its of medical benefits continues to grow.Cannabidoil, or CBD as it commonly known, is a very interesting chemical; it is responsible for many

people changing their views on marijuana use for medicinal purposes. While everyone has heard of THC, not many are aware of CBD; the two chemicals are both contained in marijuana but they serve very different purposes. While the THC in marijuana is going to get you high, CBD is something that poses huge benefits from a medical point of view, and it does not have the same side effects on the body as THC.

CBD is the essential herbal supplement of the twenty-first century that everyone is talking about! Have you been curious about cannabis, but skeptical of "getting stoned"? Have you tried cannabis, but the psychoactive effects were uncomfortable? Would you like to enjoy the benefits of cannabis without the high? From a mild tingle to completely sober, Sandra Hinchliffe introduces a new world of cannabis pleasure and

healing that you can experience every day! CBD, otherwise known as cannabidiol, a much-publicized and well-known cannabinoid from the cannabis plant, is loved by many cannabis connoisseurs and health professionals for the gentle relief and relaxation it offers. Some people believe fibromyalgia is a new condition, but it has existed for centuries. It was once considered a mental disorder. But in the early 1800s, it was classified as a rheumatoid disorder that caused stiffness, pain, fatigue, and difficulty sleeping. Fibromyalgia tender points were discovered in the early 1820s. The condition was initially called fibrositis because many doctors believed pain was caused by inflammation throughout the body. It wasn't until 1976 that the

condition was renamed fibromyalgia. In 1990 the American College of Rheumatology established guidelines for diagnosing fibromyalgia. The first prescription medication to treat it became available in 2007. Fibromyalgia, a disorder that causes chronic pain, is still poorly understood.
