Dentro de toda mujer, incluso de la más reprimida, alienta una vida secreta, una fuerza poderosa llena de buenos instintos, creatividad apasionada y sabiduría eterna. Es la mujer salvaje, una especie en peligro de extinción que representa la esencia instintiva femenina. Los

constantes esfuerzos de la sociedad por civilizar a las mujeres y constriñirlas a unos roles rígidos las han dejado sordas a los dones que alberga su interior. En esta obra la autora revela ricos mitos interculturales, cuentos de hadas e historias para ayudar a las mujeres a recuperar su fuerza y su salud, atributos visionarios de esta esencia instintiva y ha creado una psicología femenina en su sentido más verdadero, el que lleva al conocimiento del alma. Así, millones de

lectoras en todo el mundo han podido reconciliarse con su verdadera naturaleza... Significa establecer un territorio, estar en el cuerpo con certeza y orgullo, cualesquiera que sean los dones y las limitaciones físicas."

According to the myth of matriarchal prehistory, men and women lived together peacefully before recorded history. Society was centered around women, with their mysterious life-giving

powers, and they were honored as incarnations and priestesses of the Great Goddess. Then a transformation occurred, and men thereafter dominated society. Given the universality of patriarchy in recorded history, this vision is understandably appealing for many women. But does it have any basis in fact? And as a myth, does it work for the good of women? Cynthia Eller traces the emergence of the feminist matriarchal myth, explicates its functions, and examines

the evidence for and against a matriarchal prehistory. Finally, she explains why this vision of peaceful, woman-centered prehistory is something feminists should be wary of.

 365 affirmations and reflections drawn from the inspirational work of Louise Hay. Queen of the

New Age . . . A founder of the self-help movement . . . The closest thing to a living saint . . . Louise Hay was called all this and more, and her work inspired millions worldwide, but she never set herself up as a guru with all the answers. She urged every attendee at her workshops and conferences, every reader of her dozens of books, to remember that it is you who has the power to heal your life. She was just here to guide you on the path of remembering the truth of who you are:

powerful, loving, and lovable. In honor of Louise's life, you now hold in your hands this compilation of her most inspiring teachings from her greatest works. Our hope is that the 366 entries within this book allow you to carry the wisdom of Louise with you each and every day, and inspire you to trust the process of Life. As Louise said: "Very simply, I believe that what we give out, we get back; we all contribute to, and are responsible for, the events that take place in

our lives--both the good and the so-called bad. We create our experiences based on the words we say and the thoughts we think. When we create peace and harmony in our minds and think positive thoughts, we will attract positive experiences and like-minded people to us. In essence, what I'm saying is that what we believe about ourselves and about Life becomes true for us."

Prehistory is all around us. We just need to know

where to look. Juan José Millás has always felt like he doesn't quite fit into human society. Sometimes he wonders if he is even a Homo sapiens at all, or something simpler. Perhaps he is a Neanderthal who somehow survived? So he turns to Juan Luis Arsuaga, one of the world's leading palaeontologists and a super-smart sapiens, to explain why we are the way we are and where we come from. Over the course of many months,

the two visit different places, many of them common scenes of our daily lives, and others unique archaeological sites. Arsuaga tries to teach the Neanderthal how to think like a sapiens and, above all, that prehistory is not a thing of the past: that traces of humanity through the millennia can be found anywhere, from a cave or a landscape to a children's playground or a toy shop. Millás and Arsuaga invite you on a journey of wonder that unites scientific discovery

with the greatest human invention of all: the art of storytelling.

BESTSELLER • One million copies sold! "A deeply spiritual book [that] honors what is tough, smart and untamed in women."—The

Washington Post Book World Book club pick for Emma Watson's Our Shared Shelf Within every woman there lives a powerful force, filled with good instincts, passionate creativity, and ageless knowing. She is the Wild Woman, who represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society's attempt to "civilize" us into rigid roles has muffled the deep, life-giving messages of our own

souls. In *Women Who Run with the Wolves*, Dr. Clarissa Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her against our deep psyches as one who is both magic

and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul.

"One of the most popular artists alive today, Fernando Botero creates paintings with a powerful monumentality that immediately captures the viewer. The joyfully rotund humans who

populate his canvasses are among the most recognizable figures in twentieth-century art. But it is women in particular who have always fascinated Botero and make up the core of his long career. This deluxe volume, the first devoted solely to this theme, includes 50 unpublished works and a total of more than 150 paintings, drawings and sketches. With their bulbous figures and solid flesh, Botero's women evoke a primal sensuality and voluptuousness. But, they

are also betrayed with a playful sense of humor and underlying irony. Never voyeuristic, his paintings are more complex celebrations of the female form - its palpable plentitude, its sensual exuberance, and its impenetrable mystery." -- back cover.

passionate call to arms  
against our era's most  
pervasive human rights  
violation—the oppression  
of women and girls in the

developing world. From the bestselling authors of *Tightrope*, two of our most fiercely moral voices With Pulitzer Prize winners Nicholas D. Kristof and Sheryl WuDunn as our guides, we undertake an odyssey through Africa and Asia to meet the extraordinary women struggling there, among them a Cambodian teenager sold into sex slavery and an Ethiopian woman who suffered devastating injuries in childbirth. Drawing on the breadth of their combined reporting experience,

Kristof and WuDunn depict our world with anger, sadness, clarity, and, ultimately, hope. They show how a little help can transform the lives of women and girls abroad. That Cambodian girl eventually escaped from her brothel and, with assistance from an aid group, built a thriving retail business that supports her family. The Ethiopian woman had her injuries repaired and in time became a surgeon. A Zimbabwean mother of five, counseled to return to school, earned her

doctorate and became an expert on AIDS. Through these stories, Kristof and WuDunn help us see that the key to economic progress lies in unleashing women's potential. They make clear how so many people have helped to do just that, and how we can each do our part. Throughout much of the world, the greatest unexploited economic resource is the female half of the population. Countries such as China have prospered precisely because they

emancipated women and brought them into the formal economy. Unleashing that process globally is not only the right thing to do; it's also the best strategy for fighting poverty. Deeply felt, pragmatic, and inspirational, *Half the Sky* is essential reading for every global citizen.
