Libraries as social and service-based institutions are constantly seeking innovative and effective ways to meet the needs of their users and maintain relevance amidst alternative information sources. They are constantly adjusting to meet the needs of users, contribute to the personal development of users, and align with national development. All of these have placed a burden on libraries to engage in sustainable practices both to increase their capacity to drive current developmental endeavors and to sustain future relevance. **Global Perspectives on Sustainable Library Practices** provides a rich and robust knowledge resource that brings together diverse sustainable library practices that will revamp library operations towards optimally meeting the current objectives of libraries as a developmental institution as well as sustaining value for future operations and service

transactions. Covering topics such as access efficacy, green space development, and library service delivery, this premier reference source is an essential resource for librarians, library administrators, educators and administration of both K-12 and higher education, students of library sciences, pre-service teachers, researchers, and academicians.
