How to Develop Your ESP Power Springer  
Science & Business Media  
Make your money into something more!  
With Dollar Origami, you'll learn how to  
fold your dollars into frogs, scorpions,  
and other creatures and objects. We  
handle money every day. We're used to  
handing over a few bills for a coffee or a  
few more bills for a book or a new item  
of clothing. But it's fairly rare these days  
to be able to turn just one dollar into  
anything. A dollar won't buy you a  
camera or a shark--but there is a way to  
make it into one! Dollar Origami teaches  
you how to turn your currency into  
almost anything with just a few folds.  
With simple instructions, full-color  
photos, and 100 sheets of paper to  
practice on before you use your own

money, you'll be crafting beautiful  
butterflies, adorable penguins, and more  
in your own home in no time.

Sometimes, your money can go farther  
than you think--and with Dollar Origami,  
it can also provide you with much more  
fun!

Praying the Right Way Frederick Fell Pub  
This revised edition provides patient  
guidance in its clear and organized  
presentation of problems. It is rich in  
variety, large in number and provides  
very careful treatment of relativity. One  
outstanding feature is the inclusion of  
simple, standard examples  
demonstrated in different methods that  
will allow students to enhance and  
understand their calculating abilities.  
There are over 145 worked examples;  
virtually all of the standard problems are

included.

**Electromagnetic Fields** John Wiley & Sons

Just like the industrial society of the last century depended on natural resources, today's society depends on information and its exchange. Staab and Stuckenschmidt structured the selected contributions into four parts: Part I, "Data Storage and Access", prepares the semantic foundation, i.e. data modelling and querying in a flexible and yet scalable manner. These foundations allow for dealing with the organization of information at the individual peers. Part II, "Querying the Network", considers the routing of queries, as well as continuous queries and personalized queries under the conditions of the permanently changing topological structure of a peer-

to-peer network. Part III, "Semantic Integration", deals with the mapping of heterogeneous data representations. Finally Part IV, "Methodology and Systems", reports experiences from case studies and sample applications. The overall result is a state-of-the-art description of the potential of Semantic Web and peer-to-peer technologies for information sharing and knowledge management when applied jointly.
