when harnessed in communion with other women. Women's circles have been around for quite some time, and their presence is a healing and strengthening source for many. Furthermore, author and psychiatrist Jean Shinoda Bolen believes that women's circles act as catalysts for change around the world. In this inspiring and spiritual book for women, Dr. Bolen provides both a guide and

vision for women seeking purpose and change. Through her poetic language, Dr. Bolen emphasizes to her readers the importance of using their intuition and drawing upon their own insights. In bringing feminine values such as relationship, nurturing, and equality together, Dr. Bolen shares how women create a space for compassionate and radical growth. By

focusing on both the psychological and spiritual, women open the doorway for great change and empower one another to be leaders of positive change in their own lives and beyond. In this way, women empowerment itself acts as a tool for societal and psychospiritual change. After all, when strong women join together, who can stop them? + Design, People StyleWatch, Garden & Gun, The Los Angeles Times, The Chicago Tribune, New York Magazine, and more John Derian's home goods empire reaches far and wide—in addition to the four John Derian stores he owns in New York and Massachusett s, his products are sold by more than 600 retailers worldwide, including Neiman Marcus, ABC, and Gump's in the United

States; Conran and Liberty in the UK; and Astier de Villatte in Paris. It all started with his now-iconic collectible plates decouped with 19th-century artwork sourced from old and rare books, a process that credited him with elevating the decoupage technique into fine art. Over the past 25 years, the brand has expanded greatly to include home and general design gifts

and products. Now, for the first time ever, comes the book John Derian fans have been waiting for. Culled from the thousands of images that have appeared in his biannual collections, here is an astoundingly beautiful assortment of nearly 300 full-bleed images in their original form. From intensely colored flowers and birds to curious portraits, hand-drawn letters, and

brehtaking landscapes, the best of John Derian is here. The result is an oversized object of desire, a work of art in and of itself, that brilliantly walks the line between commerce and art, and that is destined to become the gift book of the season.

groundbreaking years, Xinran presented a radio programme in China during which she invited women to call in and talk about themselves. Broadcast every evening, *Words on the Night Breeze* became famous through the country for its unflinching portrayal of what it meant to be a woman in modern China. Centuries of obedience to their fathers, husbands and sons, followed

by years of political turmoil had made women terrified of talking openly about their feelings. Xinran won their trust and, through her compassion and ability to listen, became the first woman to hear their true stories. This unforgettable book is the story of how Xinran negotiated the minefield of restrictions imposed on Chinese journalists to reach out to women across the country.

Through the vivid intimacy of her writing, the women's voices confide in the reader, sharing their deepest secrets for the first time. Their stories changed Xinran's understanding of China forever. Her book will reveal the lives of Chinese women to the West as never before. *Hyperion, Or the Hermit in Greece* McFarland At some point after fifty, every woman crosses a threshold into

the third phase of her life. As she enters this uncharted territory -- one that is generally uncelebrated in popular culture -- she can choose to mourn what has gone before, or she can embrace the juicy crone years. In this celebration of Act 3, Jungian analyst Jean Shinoda Bolen names the powerful new energies and potentials, or archetypes, that come into the psyche at this momentous time,

suggesting that women getting older have profound and exciting reasons for welcoming the other side of fifty. As Bolen has explained in her remarkable body of work, there are goddesses in every woman, deep archetypal sources of wisdom, authenticity and spirituality that, once tapped, energize us and give us a sense of meaning and self-acceptance. The

knowledge of which archetypes are active within us at each phase of life--maiden, mother (or matron), and crone--supports us in making choices that are true to who we are instead of conforming to others' ideas of who we should be. In Bolen's bestselling *Goddesses in Everywoman*, the classic work of the women's spirituality movement, the Greek goddesses personified these

archetypes as they affected the first two phases of a woman's adult life. Now she explains that in the third stage, marked physiologically by menopause, there emerges a whole new cast of inner archetypes that a woman can draw on for guidance, creativity, personal integration, and joy. Once we learn to recognize these forces, we can feel empowered and wise, introspective and spiritual, sexually bold

and full of mirth. For it is in the "wisewoman" years, when a woman has lived long enough to resolve the tasks of younger and middle adulthood, that she can fully and authentically become who she deeply is. The generation of women who are approaching or who have reached the crone years is historically unique. Influenced by the women's movement, they have

benefited from educational opportunities, women's support networks, and economic resources as excellent preparation for decades of active postmenopausal life. By recognizing the goddess archetypes that emerge in this phase, women of this special generation will be enabled to transform the crone years into the best years of their lives. *The Power of the Bear* Harper San Francisco

the earth. Combining sacred elder lore, science, and her own telepathic dreams, Zohara Hieronimus looks at the special role played by White Spirit Animals in spiritual traditions and prophecy around the globe, where they are seen as guardians of animal wisdom, each with a special purpose and gift. She reveals how they have collaborated with humanity since the last ice age,

inspiring spiritual practices and conferring shamanistic powers, and are considered the stewards of the great spiritual transformations that occur during transitional times. Sharing the waking vision of White Spirit Animals that called her to write this book, and their message of CPR for the earth--conservation, preservation, and restoration--she explains how to use shamanic

dreaming and trans-species telepathy to communicate with these great spiritual teachers. Exploring each one of the major White Spirit Animals--White Buffalo, White Lion, White Elephant, White Wolf, and White Spirit Bear--and the cultures in which they are honored, the author shows, for example, how the White Buffalo is called a harbinger of peace and abundance by many Native American

tribes and the White Bear, the great earth healer, teaches us about nurturance and patience. As a bridge between the spiritual and physical worlds, between humans and animals, White Spirit Animals are calling us to open our hearts to the wild, to the sacredness of the wind, the water, the earth, and dream a new world into being to heal our own personal and collective

wounds and restore the earth to balance. *Symbols and Myth-Making in Modernity* New World Library In this challenging and enlightening companion volume to the bestselling *Goddesses in Everywoman*, Jean Shinoda Bolen turns her attention to the powerful inner patterns--or archetypes--that shape men's personalities, careers, and personal relationships. Viewing these

archtypes as the inner counterparts of the outer world of cultural stereotypes, she demonstrates how men and women can gain an invaluable sense of wholeness and integration when what they do is consistent with who they are. Dr. Bolen introduces these patterns in the guise of eight archetypal gods, or personality types, with whom the reader will identify. From

the authoritarian power-seeking gods (Zeus, Poseidon) to the gods of creativity (Apollo, Hephaestus) to the sensual Dionysus, Dr. Bolen shows men how to identify their ruling gods, how to decide which to cultivate and which to overcome, and how to tap the power of these enduring archetypes in order to enrich and strengthen their lives. She also stresses the importance of

understanding which gods you are attracted to and which are compatible with your expectations, uncovers the origins of the often-difficult father-son relationship, and explores society's deep conflict between nurturing behavior and the need to foster masculinity. In *Gods in Everyman* Dr. Bolen presents us with a compassionate and lucid male psychology that will help

all men and women to better understand themselves and their relationships with their fathers, their sons, their brothers, and their lovers.

The Tao of Psychology

The internationally known author and speaker provides an insightful look into the fusion of ecological issues and global gender politics. This book on the importance of trees grew out of Bolen's experience

mourning the loss of a Monterey pine that was cut down in her neighborhood. That, combined with her practice of walking among tall trees, led to her deep connection with trees and an understanding of their many complexities. She expertly explores the dynamics of ecological activism, spiritual activism, and sacred feminism. And, she invites us to join the movement to

save trees. While there is still much work to be done to address environmental problems, there are many stories of individuals and organizations rising up to make a change and help save our planet. The words and stories that Bolen weaves throughout this book are both inspirational and down-to-earth, calling us to realize what is happening to not only our trees, but our

people. In Like a Tree learn more about: The dynamic nature of trees — from their anatomy to their role as an archetypal symbol Pressing social issues such as deforestation, global warming, and overpopulation What it means to be a “tree person” “You will never again see [a tree] without knowing it has a novel inside, it’s supporting your life, and it’s more spiritual than any church, temple or mosque. Like

a Tree is the rare book that not only informs, but offers a larger consciousness of life itself.”

 Friedrich Hölderlin's only novel, Hyperion (1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure

as both a lover and a revolutionary, Hyperion assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of

his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, Hyperion preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree

remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskell conveys the beautiful music and rhythms of Hölderlin's language to an English-speaking reader.

attributes have been ascribed to the bear in various cultures around the world throughout time. For Susan Seddon Boulet, the spirit of the bear was present in her life in all these manifestations . She relied on it for comfort, healing, and inspiration in her inner journeys, vision quests, and healing work. In her paintings -- from her earliest sketches to the last works she completed

before her death in April 1997 -- the bear is a recurring figure, sometimes the central theme of a piece, sometimes a small but essential element. Michael Babcock, a close friend of the artist for more than fifteen years, explores in depth the significance of the bear in Boulet's art and life in *The Power of the Bear*. If you have lost someone you deeply love, or have become strongly aware of your mortality, it's hard to avoid

wondering about life after death, the existence of God, notions of heaven and hell, and why we are here in the first place. The murder of Matthew McKay's son, Jordan, sent him on a journey in search of ways to communicate with his son despite fears and uncertainty. Here he recounts his efforts — including past-life and between-lives hypnotic regressions, a technique called induced

after-death communication, channeled writing, and more. McKay, a psychologist and researcher, ultimately learned how to reach his son. In this book he provides extraordinary revelations — direct from Jordan — about the soul's life after death, how karma works, why we incarnate, why there is so much pain in the world, the single force that connects us, and our future as souls. Unlike

many books about after-death communication, near-death experiences, and past-life memories, this is a book for those who do not believe yet yearn to know what happens after death. In addition to being riveting reading, Seeking Jordan is a unique heart-, soul-, and mind-stirring reflection on the issues each of us will ultimately face.

The Good Women Of China Nicolas-Hays, Inc. This "dazzling" National Book Award finalist set aboard an

ocean liner in 1931 reflects the passions and prejudices that sparked World War II (San Francisco Chronicle). August 1931. An ocean liner bound for Germany sets out from the Mexican port city of Veracruz. The ship's first-class passengers include an idealistic young American painter and her lover; a Spanish dance troupe with a sideline in larceny; an elderly German couple and

their fat, seasick bulldog; and a boisterous band of Cuban medical students. As the Vera journeys across the Atlantic, the incidents and intrigues of several dozen passengers and crew members come into razor-sharp focus. The result is a richly drawn portrait of the human condition in all its complexity and a mesmerizing snapshot of a world drifting toward disaster.

Written over a span of twenty years and based on the diary Katherine Anne Porter kept during a similar ocean voyage, *Ship of Fools* was the bestselling novel of 1962 and the inspiration for an Academy Award-winning film starring Vivien Leigh. It is a masterpiece of American literature as captivating today as when it was first published more than a half century ago. This ebook features an

illustrated biography of Katherine Anne Porter, including rare photos from the University of Maryland Libraries. Like a Tree Random House The Acts of the Apostles, the earliest work of its kind to have survived from Christian antiquity, is not “history” in the modern sense, nor is it about what we call “the church.” Written at least half a century after the time it describes, it is a portrait of

the Movement of Jesus’ followers as it developed between 30 and 70 CE. More important, it is a depiction of the Movement of what Jesus wanted: the inbreaking of the reign of God. In this commentary, Linda Maloney, Ivoni Richter Reimer, and a host of other contributing voices look at what the text does and does not say about the roles of the original members of the Movement in bringing it toward

fruition, with a special focus on those marginalized by society, many of them women. The author of Acts wrote for followers of Jesus in the second century and beyond, contending against those who wanted to break from the community of Israel and offering hope against hope, like Israel’s prophets before him. **The 101 Most Influential People Who Never Lived** Mango Media
