Social Mobility In Kerala Oxford University Press

This landmark biography by Darleen Bungey, the author of the celebrated biography of Arthur Boyd, graphically depicts the forces that drove John Olsen to become one of the country's greatest artists. An exhilarating book, both trenchant and tender, it strips away the veneer of showmanship and fame to show the substance of a painter driven by a need to depict his country's landscape as Australians had never seen it before. Given access to his uncensored diaries and drawing on years of extensive interviews with both Olsen and those who have known him best, she explores his passionate life and follows his navigation though the friendships, rivalries and politics of the Australian art world. How did a shy, stuttering boy from Newcastle, neglected by his alcoholic father, come to paint the great mural Salute to Five

Bells at the Sydney Opera House? This biography follows that journey - through Olsen's early experiences in the bush, particularly a formative period at Yass (a time previously unrecorded), to years of cleaning jobs to pay his way through art school, to a milestone time spent in France and Spain - and traces his constant travels and relocations within Australia, including his epic journeys into the outback and to Kati Thanda - Lake Eyre. From a child who was never taken to an art gallery, who learnt how to draw from comics, we come to see the famous artist in the black beret, the writer and poet, the engaging public speaker, the bon vivant - whose life has been defined by an absolute need to paint.

The explosive New York Times bestselling memoir of a Muslim American FBI agent fighting terror from the inside. A longtime undercover agent, Tamer Elnoury joined an elite counterterrorism unit after September 11, 2001. Its express purpose was to gain the trust of terrorists whose goals were to take out as many

Americans in as public and devastating a way as possible. It was a furious race against the clock for Elnoury and his unit to stop them before they could implement their plans. Yet the techniques were as old as time: listen, record, and prove terrorist intent. It's no secret that federal agencies have waged a broad, global war against terror, through and after the war in Afghanistan. But for the first time, in this memoir, an active Muslim American federal agent reveals his experience infiltrating and bringing down a terror cell in North America. Due to his ongoing work for the FBI, Elnoury writes under a pseudonym. An Arabic-speaking Muslim American, a patriot, a hero: To many Americans, it will be a revelation that he and his team even existed, let alone the vital and dangerous work they have done keeping all Americans safe.

In her hilarious book of essays, Parks and Recreation star Retta shares the stories that led to her success in Hollywood. In *So Close to Being the Sh\*t, Y'all Don't Even Know*, Parks and Recreation star Retta takes us on her not-so-meteoric rise from roaches to riches (well, rich enough that she can buy \$15,000 designer handbags yet scared enough to know she's always a heartbeat away from ramen with American cheese). Throwing her hard-working Liberian parents for a loop, Retta abandons her plan to attend med school after graduating Duke University to move to Hollywood to star in her own sitcom—like her comedy heroes Lucille Ball and Roseanne. Say what? Word. Turns out Retta might actually be on to something. After winning Comedy Central's

stand-up competition, she should be ready for prime time—but a fear of success derails her biggest dream. Whether reminiscing about her days as a contract chemist at GlaxoSmithKline, telling “dirty” jokes to Mormons, feeling like the odd man out on Parks, fending off racist trolls on Twitter, flirting with Michael Fassbender, or expertly stalking the cast of "Hamilton," Retta’s unique voice and refreshing honesty will make you laugh, cry, and laugh so hard you’ll cry. Her eponymous sitcom might not have happened yet, but by the end of *So Close to Being the Sh\*t*, you’ll be rooting for Retta to be the next one-named wonder to take over your television. And she just might inspire you to reach for the stars, too.

*The Great Boer War (1900)* Packt Publishing Ltd

From the foreword: "Dr. Demarest's book gives students and practitioners a pragmatic start point rooted in the classic principles of war and simultaneously in the jurisprudential principles of impunity and culpability concepts that apply across the entire plane of human conflict. Demarest reminds us that success in warfare requires control of land, and so an empirical knowledge of geography, both physical and human (if the two could actually be separated) is vital. The study of the spectrum, or firmament, of conflict and how principles of war apply across that firmament requires an unconventional approach. This is not a standard book. Student and teacher can pick up this book and start at the beginning, middle, or end. No matter the start point, the reader will find convention challenged and see that normal is no better than the cycles of a washing machine."

Filippo and Caroline Osella, anthropologists who spent three years in rural Kerala, south India, write about the modern search for upward social mobility: the processes involved, the ideologies that support or thwart it, and what happens to the people involved. They focus on the caste called Izhavas, a group that in the mid-19th century consisted of a small land-owning and titled elite and a large mass of landless and small tenants who were largely illiterate and considered untouchable, and who eked out a living by manual labor and petty trade. In the 20th century, Izhavas pursued mobility in many social arenas, both as a newly united caste and as families. The work considers how successful the mobility has been and looks at the effects on their society of an ethos of progress. Distributed by Stylus.
