After completing his conquest of the Persian empire, Alexander the Great maneuvered his army across the Hindu Kush and into India.

During his two years there, he traveled from dry frigid mountains to humid tropical lowlands and then back across one of the most punishing deserts on the planet. He fought a series of desperate battles against strange foes mounted on war-elephants, suffering wounds that nearly killed him. And when he eventually turned homeward, he brought with him specimens of a rare, magical species, a bird that could speak with a human voice.

Introduced to Europe by Alexander, parrots were quickly embraced by Western culture as

exotic and astonishing, full of marvelous powers, and close to the gods. Over the centuries they would become objects of veneration or figures of folly, creatures prized for their wit—or their place on the dinner table. Ultimately, they would become emblematic of the West's interaction with the world at large. Identifying a deeply rooted obsession with these beautiful and loquacious birds, Bruce Thomas Boehrer provides the first account of parrots and their impact on the Western world. *Parrot Culture: Our 2500-Year-Long Fascination with the World's Most Talkative Bird* traces the unusual history of parrots from their introduction in the Graeco-Roman world

as items of oriental luxury, through the great age of New World exploration, to the contemporary ecological crisis of globalism. Boehrer identifies the poignant irony in the way parrots became ubiquitous as symbols and mascots, while suffering near extinction at the hands of those who desired them. Exploring their presence and meanings in the art, literature, and history of Western civilization, *Parrot Culture* also celebrates the beauty, intelligence, and personality of these birds, whose fate will say as much about us and the world we have created as it will about them.

In the fourteen years of NDTV's Walk The Talk Shekhar Gupta has interviewed more than 600 stellar guests-an outstanding feature for one of Indian TV news channel's most respected shows is the wide diversity of its guests. These range from heads of states to

national, regional and international politicians and public figures, from Indian and global film stars to Nobel Laureates, scientists, economists, sports stars (not limited to cricket), spiritual gurus, business tycoons, philanthropists and, of course, activists. This book focuses exclusively on political leaders and public figures. Many of these conversations are path-breaking, and some extremely rare. For example, leaders like Sonia Gandhi and former prime minister P.V. Narasimha Rao have never before engaged in freewheeling, recorded conversations in such detail. Others have broken new ground since-Narendra Modi, L.K. Advani, Pranab

Mukherjee, Mayawati and even M. Karunanidhi. There are also global thought leaders and heads of state: David Cameron, Henry Kissinger, and Pushp Kamal Dahal 'Prachanda', among others. There is also the rarest of rare interviews with the former RSS chief K.S. Sudarshan. It was challenging to choose just twenty-five political personalities and voices to feature in this selection. And one criterion has been to try and pick those conversations that mark political shifts and change. Hopefully, these will help provide an understanding of recent political history, and how we have reached the point we are at today, in the words of these very significant and

interesting people.
