NOVAK ORR

Rethinking African History from Women's/gender Perspectives

Springer

Intended for use in courses on law and society, as well as courses in women's and gender studies, women and politics, and women and the law - this book that takes up the question of what women judges signify in several different jurisdictions in the United States, United Kingdom, and European Union. In so doing, its empirical case studies uniquely offer a model of how to study gender as a social process rather than merely studying women and treating sex as a variable. A gender analysis yields a fuller understanding of emotions and social movement mobilization, backlash, policy implementation, agenda setting, and representation. Lastly, the book makes a non-essentialist case for more women judges, that is, one that does not rest on women's difference.

The Study on "Women in Times of

Disaster" SAGE

- What impact does gender difference make to political decision-making? - Will the political empowerment of women contribute to a more peaceful world? The role of gender has been increasingly recognized as central to the study and analysis of the traditionally male domains of war and international relations. This book explores the key role of gender in peace research, conflict resolution and international politics. Rather than simply 'add gender' the aim is to transcend different disciplinary boundaries and conceptual approaches to provide a more integrated basis for future study. To this end it uniquely combines theoretical chapters alongside empirical case studies to demonstrate the importance of a gender perspective to both theory and practice in conflict resolution and peace research. The theoretical chapters explore the gender relationship and engage with the many stereotypical dichotomies like femininity and peace and masculinity and war. The case study chapters (drawing on examples from South America, South

Asia and Europe, including former Yugoslavia) move beyond theoretical critique to focus on issues like sexual violence in war, the role of women in military groups and peacekeeping operations and the impact of a 'critical mass' of women in political decision-making. *Gender, Peace and Conflict* will provide an invaluable survey and new insights to a central area of contemporary research. It will be essential reading for academics, students and practitioners across peace studies, conflict resolution and international politics.

Agenda for Research on Women's Health for the 21st Century: Sex and gender perspectives for women's health research SAGE Publications India

This book provides a scholarly overview of women's status in Hong Kong from a gender perspective. The contributors are associated with the Gender Research Programme at the Chinese University of Hong Kong. The chapters offer substantive analyses on the indicators of women's status, including education, work, division of domestic labour, gender roles, women's movement, and public policies affecting women. The historical-cultural context of women's status and the cross-cultural relevance of women's studies are also examined. This book embraces both longitudinal as well as cross-sectional perspectives, and includes both quantitative and qualitative materials. It is not only a scholarly document on Chinese women in Hong Kong, but also a statement marking their changing status. Readers interested in women's issues, gender studies, and Chinese studies will find this book a useful reference.

[Gender Perspectives on Industry 4.0 and the Impact of Technology on Mainstreaming Female Employment](#) IGI

Global

This book offers a new perspective on international law, which was, for centuries, male-dominant and gender-blind. However, this gender blindness has led to many injustices, the failure to recognize certain rights, and to impunity for serious crimes. The book examines the development of gender perspectives in various branches of international law, while also discussing and explaining certain universal standards. However, particular attention is paid to the European human rights system.

Accordingly, the book provides detailed explanations of the EU's external policies in relation to sex, sexual orientation, and gender identity. Also, there is a special focus on the relevant jurisprudence of the European Court of Human Rights in relation to gender and sexual orientation, female reproduction, and sexuality. The authors explain not only the importance of an adequate legal framework for combating gender inequality but also the detrimental effects of deeply rooted gender stereotypes and prejudices.

Subsequently, the development of particular branches is presented, such as a gender-sensitive approach to the prevention of war crimes, gender perspectives in refugee law, and the evolution of gender-sensitive environmental law. In addition, the problematic situation of discrimination in the workplace is addressed from various perspectives. Many discussions, especially among EU member states, are reserved for the issue of women's participation in managerial boards, while the growing awareness of gender equality in international trade agreements represents another interesting topic. Lastly, the book offers a historical perspective on the

development of international law in the interwar period, with a particular focus on the situation in Yugoslavia. The book critically reconsiders the dominant molds of legal knowledge and presents innovative gender-sensitive and gender-competent insights on a variety of issues in international law, in order to introduce readers to new research topics relevant to gender equality and to stimulate the development of an international legal and institutional framework for achieving greater gender equality in practice. The collection of essays presented here will be of interest to all those working in the field of international law, as well as students and academics looking to broaden and deepen their research on a range of issues in international law from gender perspectives.

Theoretical Perspectives on Gender and Development Springer

Approximately half of all migrants today are female. The contributors to this volume consider the ways in which attention to gender is moving debates away from old paradigms, such as the push/pull motivation which used to dominate the field of migration studies. The authors consider women's experience of migration, especially in long distance, transnational moves. They examine the extent to which labour migration is a social and strategic decision for women.

Global Gender Research Cengage Learning

Despite the fact that cultural differences between genders are becoming obsolete, the differences between male and female bodies are nevertheless very real, and go well beyond the obvious sexual and reproductive variances: men and women absorb medication, feel pain, and even display early symptoms of heart attacks differently. And yet the

medical establishment treats male and female patients as though their needs were identical. In fact, medical research is still done predominately on men, and the results applied to the treatment of women. This is clearly problematic, and Gender Medicine calls for the reform of attitudes and practices, for all of us: GP and surgeon, researcher and patient.

Music and Gender United Nations

This paper provides assistance in creating greater understanding of the mainstreaming approach and its practical implications and in identifying entry points for moving the analysis further in various concrete contexts.

Women, Gender and Disaster United Nations Publications

This interdisciplinary volume discusses women's global leadership and women's rights advancement, identifying gender inequality as a persisting societal challenge and a major barrier to human development. Drawing on intersectionality as an important analytic and methodological tool, the contributors analyse women's leadership roles across the world, featuring perspectives on the US, Israel, and Brazil, amongst other countries. The book also contributes to the growing field of leadership, presenting cross-cultural examples and case-studies of outstanding women and female leaders, as well as discussing contemporary leadership theories, and examining obstacles to women's leadership. *Global Perspectives on Women's Leadership and Gender (In)Equality* will be an important point of reference for students and scholars across the political sciences, women's studies, feminist philosophy, business development, and history.

Women's Special Situation, Gender Perspectives and Population Issues

in Bosnia and Herzegovina and the Integration of These Concerns in Skills Training and Employment

Promotion Nineteenth-Century Ireland Almost all economies have, or are at least starting to, understand the significance of examining and mainstreaming gender issues in the world of work. Sociocultural evolution and various other factors have helped these developments, but there is still so much more work to be done. Technology has played a substantial role in decreasing the gender divide as more households than ever before have access to technology, and the revolution of access to information across most societies has become gender neutral and empowering. While technology can hold the potential to significantly expand the job market and open opportunities for all job seekers, questions surrounding automation and availability of jobs and the accessibility to secure the necessary qualifications and education needed to fill paid jobs rage on, especially when examining those who are typically marginalized. *Gender Perspectives on Industry 4.0 and the Impact of Technology on Mainstreaming Female Employment* discusses gender perspective and its impact on the fourth industrial revolution, particularly in the realm of employment structure, and analyzes the impact of technology on mainstreaming women in paid employment. In the present environment, organizations are beginning to realize the importance of looking more critically at their workforce and structure and how to better cater to the diversity, equity, and inclusion movement while also productively managing the advancement of new technologies. Covering topics such as sustainable development and the future

of work, it is ideal for policymakers, practitioners, professionals, consultants, managers, researchers, academicians, educators, and students.

Global Women's Work Council of Europe
Extrait du résumé : "The purpose of this diagnostic study is to describe how and to what extent the region's governments have built this concern for gender equity into economic and especially labour market policies. The study is expected to help implement agreements and resolutions arising from regional conferences ... and global agreements ... with regards to institutionalizing the gender perspective and women's rights in public policies."

Women in the Military Springer

Although scholars have long been aware of the crucial roles that gender plays in music, and vice versa, the contributors to this volume are among the first to systematically examine the interactions between the two. This book is also the first to explore the diverse, yet often strikingly similar, musics of the areas bordering the Mediterranean from comparative anthropological perspectives. From Spanish flamenco to Algerian raï, Greek rebetika to Turkish pop music, Sephardi and Berber songs to Egyptian belly dancers, the contributors cover an exceedingly wide range of geographic and musical territories. Individual essays examine musical behavior as representation, assertion, and sometimes transgression of gender identities; compare men's and women's roles in specific musical practices and their historical evolution; and explore how music and gender relate to such issues as ethnicity, nationality, and religion. Anyone studying the musics or cultures of the Mediterranean, or more generally the relations between gender and the arts, will welcome this book.

Contributors: Caroline Bithell, Joaquina Labajo, Jane C. Sugarman, Carol Silverman, Goffredo Plastino, Gail Holst-Warhaft, Edwin Seroussi, Marie Virolle, Terry Brint Joseph, Deborah Kapchan, Karin van Nieuwkerk, Svanibor Pettan, Martin Stokes, Philip V. Bohlman

Global Perspectives on Women's Leadership and Gender (In)Equality

Chinese University of Hong Kong Press

A broad-based anthology looking exclusively at gender and gender relations this text is feminist in approach. It focuses on the experiential basics of students' lives and includes varied articles and writings on awareness to the feminist perspective.

Psychopathology in Women McFarland

This volume considers how women are shaping the global economic landscape through their labor, activism, and multiple discourses about work. Bringing together an interdisciplinary group of international scholars, the book offers a gendered examination of work in the global economy and analyses the effects of the 2008 downturn on women's labor force participation and workplace activism. The book addresses three key themes: exploitation versus opportunity; women's agency within the context of changing economic options; and women's negotiations and renegotiations of unpaid social reproductive labor. This uniquely interdisciplinary and comparative analysis will be crucial reading for anyone with an interest in gender and the post-crisis world.

Gender and Knowledge Springer

The Persian Gulf War changed the face of combat. It brought women's military roles into the spotlight, in large part via the mass media, and showed that many women performed combat roles similar to those of men during the conflict. The

war was thus an impetus for changes in laws that had prevented women from serving in combat assignments. In past centuries, because it was not culturally acceptable for women to serve in combat, surprising numbers joined secretly under assumed male names.

After defining exactly what is meant by "war" and "combat," this work presents historical and present-day views of the involvement of women in the military. The impact of regulations on women in combat is analyzed, as is the role of the American public in the controversy.

Female combat is put into context with sociological theory; also discussed are readiness, cohesion, ability, sexuality, equal opportunity and family issues.

Gender Perspectives on Industry 4.0 and the Impact of Technology on

Mainstreaming Female Employment

Transaction Publishers

This book discusses prominent and controversial gender-related issues across the fields of family law, tort law, labour law, civil procedure law, ADR and private international law. An important critical assumption made by the authors is that the gender equality perspective has been largely neglected in several branches of private law, since scholars researching the intersection between gender and legal studies are mostly focused on public law and human rights law. In light of that, the book contributes not only to the deconstruction of gender-blind private law, but also to the development of a gender-competent analysis of the key branches of private law, starting with private international law. Gender perspective in family law is analyzed on the basis of gendered and heteronormative operations of family law with reference to the formation of legally recognized relationships, the establishment of legal parenthood, the

division of marital property after a divorce, and the arrangements for post-separation parenting. Also, regulation of family matters in Indian society and the gender equality perspective from the principle of the child's best interest are considered. As far as tort law is concerned, the book addresses compensation for damages suffered by women performing unpaid household work. Further, it contains papers dedicated to the following labour law issues: the genesis of labor law and its capacity to contribute either to worsening gender inequality in the world of work or to promoting gender equality; gender segregation in the labour market and its connection to family-friendly policies in the European Union; sexual harassment at work; and the impact of work digitalization on gender-related labour law issues. Lastly, the authors analyze gender equality in civil procedural law, as well as in mediation as a tool for encouraging the peaceful settlement of disputes. The book is intended to improve awareness of the wide range of private law issues that are important for understanding the ways in which gender inequality shapes everyday experiences, while also presenting critical considerations of the key private law instruments for achieving gender equality.

Engendering Hong Kong Society

Routledge

Gender has a fundamental influence on the human brain, not only by virtue of biological and hormonal differences between the sexes but also because of the impact of gender-specific cultural, social, anthropological and environmental factors. Nevertheless, the relation of gender and psychopathology remains a largely neglected field. Gender perspective has been treated as

a paradigm in this book on psychopathology because it determines the way in which a psychiatric symptom is defined, perceived and understood. This conception of gender as being of key importance in the definition of psychiatric symptomatology is exceptional in the literature. The book opens by examining historical and cultural aspects of mental health in women worldwide and the relation of sex, brain and gender, with coverage of both neurobiological and psychosocial aspects. The significance of gender with regard to specific aspects of psychopathology is then addressed in detail. A wide range of psychological disorders are considered, as well as hormonal influences and issues concerning body image, self identity, sexuality and life instinct. It is hoped that this book will make a significant contribution in ensuring that gender perspective receives due attention within descriptive psychopathology.

Women, Gender, and World Politics
Business Science Reference

Theoretical Perspectives on Gender and Development demystifies the theory of gender and development and shows how it plays an important role in everyday life. It explores the evolution of gender and development theory, introduces competing theoretical frameworks, and examines new and emerging debates. The focus is on the implications of theory for policy and practice, and the need to theorize gender and development to create a more egalitarian society. This book is intended for classroom and workshop use in the fields of development studies, development theory, gender and development, and women's studies. Its clear and straightforward prose will be appreciated by undergraduate and seasoned

professional, alike. Classroom exercises, study questions, activities, and case studies are included. It is designed for use in both formal and nonformal educational settings.

Companion to Women's and Gender Studies Duckworth Overlook

Concerns the issue of women in prison and the children of women in prison.

Integration of the Human Rights of Women and the Gender Perspective

Georgetown University Press

A comprehensive overview of the interdisciplinary field of Women's and Gender Studies, featuring original contributions from leading experts from around the world The Companion to Women's and Gender Studies is a comprehensive resource for students and scholars alike, exploring the central concepts, theories, themes, debates, and events in this dynamic field.

Contributions from leading scholars and researchers cover a wide range of topics while providing diverse international, postcolonial, intersectional, and interdisciplinary insights. In-depth yet accessible chapters discuss the social construction and reproduction of gender and inequalities in various cultural, social-economic, and political contexts. Thematically-organized chapters explore the development of Women's and Gender Studies as an academic discipline, changes in the field, research directions, and significant scholarship in specific, interrelated disciplines such as science, health, psychology, and economics. Original essays offer fresh perspectives on the mechanisms by which gender intersects with other systems of power and privilege, the relation of androcentric approaches to science and gender bias in research, how feminist activists use media to challenge misrepresentations and

inequalities, disparity between men and women in the labor market, how social movements continue to change Women's and Gender Studies, and more. Filling a significant gap in contemporary literature in the field, this volume:

Features a broad interdisciplinary and international range of essays Engages with both individual and collective approaches to agency and resistance Addresses topics of intense current interest and debate such as transgender movements, gender-based violence, and gender discrimination policy Includes an overview of shifts in naming, theoretical approaches, and central topics in contemporary Women's and Gender Studies Companion to Women's and Gender Studies is an ideal text for instructors teaching courses in gender, sexuality, and feminist studies, or related disciplines such as psychology, history, education, political science, sociology, and cultural studies, as well as practitioners and policy makers working on issues related to gender and sexuality.

Gender Basics University of Chicago Press

This book examines NATO's engagement with gender issues through its military structures. Drawing on newly declassified NATO documents, this volume provides the first comprehensive account of NATO's long-established engagement with gender issues. These documents bring to the fore the stories of the NATO women and 'gendermen' who have organised within NATO across the decades to advocate on gender issues and highlights the continued challenges to pursuing transformative agendas within resistant institutions. The book argues that NATO is an institution of international hegemonic masculinity, with gender norms and values learned

by member and partner states through socialisation and the engagement of a masculinist protection logic. It therefore provides an important context for NATO's recent implementation of the Women, Peace and Security agenda encapsulated in UN Security Council Resolution 1325 and the seven follow-up resolutions. The volume interrogates how Women, Peace and Security has

mapped on to NATO's pre-existing concerns as a global security actor, providing impetus for further critical knowledge building of NATO which centres on gender. This book will be of interest to students and scholars of NATO, Critical Military Studies, Gender Studies, Critical Security Studies and IR in general.
