Compiled over many years in the 1800s by Edward William Lane, The Arabic-English Lexicon is a massive Arabic-English dictionary based on several medieval Arabic dictionaries, mainly the Taj al-'Arus, or "Crown of the Bride" by al-Zabidi, also written in the 19th century. The Lexicon consists only of Book I, the dictionary; Book II was to contain rare words and explanations, but Lane died before its completion. After his

death, Dr. G.P. Badger described Lane's lexicon: "This marvelous work in its fullness and richness, its deep research, correctness and simplicity of arrangement far transcends the Lexicon of any language ever presented to the world." Presented here in eight volumes, this work is one of the most concise and comprehensive Arabic-English dictionaries to date.

A series of extraordinary questions begin to hover when we consider C.G. Jung and Rudolf Steiner together. What is the relationship between their views of psychology? How can we compare their views on evil, East and West, life after death, technology, clairvoyance, the Christ, alchemy, spiritual practice? Is Jung's individuation process the same as Steiner's development of individuality? How does the Jung's Self relate to Steiner's "I"? To answer these questions, Gerhard Wehr--an anthroposophist and Jung biographer, as well as author of books on the Western spiritual tradition--visualizes Jung and Steiner and the

essential elements of their thinking together. This opens us to new insights and forms a basis for a spiritual psychology that integrates both approaches. Wehr's skilled and articulate understanding of Jung and Steiner takes us into many themes. He clarifies the difference between soul consciousness and spiritual consciousness. He shows how meditation relates to the image work of the soul; and he compares the soul and spiritual views of sexuality. The author also considers the Grail stream as a way of uniting Jung and Steiner. He discusses the significance of a therapeutic perspective large enough to address the cultural problems of our time. By approaching two such important worldviews with depth, they are enlarged, strengthened, and revitalized. If taken to heart, this work can free both spiritual science of Steiner and the analytic psychology of Jung from the dangers of dogmatism. This work marks a significant step toward genuine spiritual psychology.

A Dictionary of Modern Written Arabic Penguin
The Dictionary of Modern Written Arabic by Hans Wehr is widely regarded as the foremost Arabic-English bilingual or translation dictionary and has particular usefulness for students of Modern Standard Arabic. The morphology and syntax of written Arabic is essentially the same in all Arabic countries. Unlike many other Arabic-English dictionaries, it arranges each Arabic word according to its consonantal root. Foreign words are listed in straight alphabetical order by first letter (in the Arabic script). Arabicized loanwords, if they can clearly fit under some root, are entered both ways, often with the root entry giving reference to the alphabetical listing. Volume 2 of 2: Arabic-

The Qur'an is the living source of all Islamic teaching, and is of singular importance to those interested in Islam and the study of religions. Despite this, there exists a long-felt lack of research tools for English first-language speakers who wish to access the Qur'an in the original Arabic. The "Dictionary of Qur'anic Usage" is the first comprehensive, fully-researched and contextualised Arabic-English dictionary of Qur'anic usage, compiled in accordance with modern lexicographical methods by scholars who have a lifelong immersion in Qur'anic Studies. Based on Classical Arabic dictionaries and Qur'an commentaries, this work also emphasises the role

of context in determining the meaning-scatter of each vocabulary item.

Illustrative examples from Qur'anic verses are provided in support of the definitions given for each context in which a particular word occurs, with cross-references to other usages. Frequently occurring grammatical particles are likewise thoroughly explained, insofar as they are used in conveying various nuances of meaning in the text.

"This Dictionary of Modern Written Arabic (fourth edition) has been enlarged and amended with 13,000 new entries. It is the only authorized paperback edition of the famous Hans Wehr Arabic-English Dictionary, edited by J. Milton Cowan. This new edition has thousands of new entries include numerous additions and corrections to the material and presents the results in a single handsome volume. The author provides a useful introduction in which he discusses, clearly and precisely, the present state of the Arabic language. He points out the situations in which written and spoken varieties of Arabic are used, and remarks on the forces that influenced the development of the lexicon of Modern Arabic.

He discusses both the purist movement with its normative tradition, and what might be called the laissez-faire actual usage of writers and journalists under the influence of Western modes of expression, of their everyday colloquial, or both. He then moves on to the problem of local terminology, especially for public institutions, offices, administrative matters, titles, and foods. Although such terms are included for most of the Arab countries, the list is not complete, as indeed the author recognizes (viii); readers of Arabic material characterized by a distinct regional coloring are advised to refer to dialect dictionaries and glossaries."
