## HALLIE SANTIAGO

### Moving Toward the Millionth Circle

Conari Press  
This intriguing work explores the world of three amate artists. A native tradition, all of their painting is done in Mexico, yet, the finished product is sold almost exclusively to wealthy American art buyers. Cowen examines this cultural interaction between Mexico and the United States to see how globalization shapes the lives and the work of the artists and their families. The story of these three artists reveals that this exchange simultaneously creates economic opportunities for the artists, but has detrimental effects on the village. A view of the daily village life of three artists connected to the larger art world, this book should be of particular interest to those in the fields of cultural economics, Latino studies, economic anthropology and globalization.

### Bip in a Book

Ashgate Publishing  
"Bip in a Book" captures the celebrated mime's boundless talent in a playful and charming adventure as Marceau discovers he is trapped in the pages of the book and tries to escape. 32 photos.  
**Be a Clown** Princeton University Press  
"This is a document of my work going back ten years. It has been an amazing journey that started by taping blankets to chairs made from sticks and cutting up old wine bottles. The journey has now led me to a place of mass production and television commercials. Along the way I have met many supportive people who took the risk of traveling with me. I like working in collections, experimenting with new thoughts, and seeking change and development, which is a main driving force behind my work. I believe that if we see design as a way of shaping the future of our world, it should be as exciting and thrilling as a great film or book. At the same time, it should communicate not only who we are, but also how we would ideally like our world to be. Tord Boontje." -- foreword, page 21.

### Harold's Circus

Rizzoli International Publications  
In *Moving Toward the Millionth Circle*, psychiatrist, activist and best-selling author Jean Bolen inspires women and others to follow a path with soul, to take on a personal assignment that contributes to change, while relying on the support of a circle or circles of likeminded individuals. The metaphoric millionth circle is the tipping point into a post-patriarchal era, based on the premise that when a critical number of people change their perceptions and behavior, a new era can begin. The strength that comes from those circles feeds the activism and the activism makes the circles stronger. *Moving Toward the Millionth Circle* is about heart-centered activism. Drawn from Dr. Bolen's work with the United Nations and her experiences with His Holiness the Dalai Lama, and women from all walks of life all around the world, this book is poetical, practical and political.

### Field of Battle

Kids Can Press Ltd  
Gathering Fifth Business, The Manticore, and World of Wonders together, The Deptford Trilogy has been hailed as a modern classic and is available as an eBook for the first time. Woven around a mysterious death, the novels trace the rich and varied, and fatefully linked, lives of Dunstan Ramsay, David Staunton, and Magnus Eisengrim. Davies has created a beguiling, fantastical, cunningly contrived trilogy of novels, luring the reader down labyrinthine tunnels of myth, history, and magic and providing an exhilarating antidote to a world from where "the fear and dread and splendor of wonder have been banished."

### Noisy Jungle!

Orbis Books  
Here at last is the definitive book on how to make a pop-up. Every aspect of the creation of a pop-up, known as paper engineering, is clearly and thoroughly covered. All types of parallel folds, angle folds, wheels, and pull tabs are accurately detailed verbally and visually, flat and in dimension. Also included is a history of pop-

ups and a step-by-step photographic essay on how a pop-up is made from start to finish. This guided tour is perfect for aspiring pop-up creators, paper engineers, students, and appreciators of this unique art form.

### Am I a Monkey?

Springer Science & Business Media  
"Boris, a swamp creature who was adopted by human parents, starts to question where he truly belongs"--

### An Introduction to Catholicism

Philosophers in 90 Minutes  
Small Saul is a different kind of pirate. Will Small Saul be able to prove his worth as a pirate or will he be thrown overboard?

### Francis of Rome and Francis of Assisi

Nosy Crow  
Brief, incisive, topical, authoritative, Am I a Monkey? will take you a day to read and a lifetime to ponder.

### The Deptford Trilogy

Harry N. Abrams  
Over the past 150 years scientists have discovered evidence that at least twenty-seven species of humans evolved on planet Earth. These weren't simply variations on apes, but upright-walking humans who lived side by side, competing, cooperating, sometimes even mating with our direct ancestors. Why did the line of ancient humans who eventually evolved into us survive when the others were shown the evolutionary door? Chip Walter draws on new scientific discoveries to tell the fascinating tale of how our survival was linked to our ancestors being born more

prematurely than others, having uniquely long and rich childhoods, evolving a new kind of mind that made us resourceful and emotionally complex; how our highly social nature increased our odds of survival; and why we became self aware in ways that no other animal seems to be. Last Ape Standing also profiles the mysterious "others" who evolved with us--the Neanderthals of Europe, the "Hobbits" of Indonesia, the Denisovans of Siberia and the just-discovered Red Deer Cave people of China who died off a mere eleven thousand years ago. Last Ape Standing is evocative science writing at its best--a witty, engaging and accessible story that explores the evolutionary events that molded us into the remarkably unique creatures we are; an investigation of why we do, feel, and think the things we do as a species, and as people--good and bad, ingenious and cunning, heroic and conflicted.

### Alehop! Comença l'espectacle

University of Michigan Press  
A book of card tricks, with step-by-step instructions and illustrations. Additional tips are included to help the child to produce as polished a performance as possible. The author is a member of The Magic Circle.

### Pookie Pop Plays Hide-And-Seek

HarperCollins Australia  
Cultural economics as a field of research involves two areas, culture and economy. These two areas have been traditionally regarded as each other's antithesis. However, the economic aspects of culture have increasingly become a matter of everyday reality for persons working in the cultural field. The economy of culture has always been in the focus of political interest. Political decisions concerning such priority areas as the development of regional institutions, support to the artists and cultural programmes for children and youth have important economic implications. This book deals with a range of topics in cultural economics. It contains original papers by economists working in the field from 15 different countries and covers a host of both theoretical and practical issues, covering the performing arts, arts markets and museums. It represents an up-to-date statement of the application of economic ideas to cultural questions.

### April in Spain

South End Press  
"White Noise," which is a laptop sculpture garden, a romp through cubism and futurism, and a lesson in early--20th-century modernist formalism. Each spread, designed to make crackly, crinkly, creaky, tinkling or snapping noises as the pages are turned, evokes children's construction-paper cutouts. As sophisticated as the mechanics are, the primary colors and seemingly random tangles of "bits and pieces," as one page describes them, combine in such imperfect forms that they give

the illusion that anyone could make this book"--Web site <http://www.nytimes.com/2009/11/08/books/review/Heller-t.html> (viewed 4 May, 2011)

### The Lampo Circus

Princeton University Press  
The Vatican. The Inquisition. Contraception. Celibacy. Apparitions and miracles. Plots and scandals. The Catholic Church is seldom out of the news. But what do its one billion adherents really believe, and how do they put their beliefs into practice in worship, the family, and society? This down-to-earth account goes back to the early Christian creeds to uncover the roots of modern Catholic thinking. It avoids getting bogged down in theological technicalities, and throws light on aspects of the Church's institutional structure and liturgical practice that even Catholics can find baffling: why go to confession? How are people made saints? What is 'infallible' about the Pope? Topics addressed include: • scripture and tradition • sacraments and prayer • popular piety • personal and social morality • reform, mission, and interreligious dialogue Lawrence Cunningham, a theologian, prize-winning writer and university teacher, provides an overview of Catholicism today which will be indispensable for undergraduates and lay study groups.

### One Red Dot

JHU Press  
Opening this pop-up book at any point is an experience that will delight readers of all ages. Each pop-up sculpture hides one red dot for the reader to find, leading them on a journey through the book that is as visual as it is tactile.

### Markets and Cultural Voices

SAGE  
Purple crayon in hand, Harold draws a tightrope and falls into a circus [where he has many adventures]. As in the previous books, the dauntless Harold is resourceful and loveable." SLJ.

### Magic For Dummies

Cambridge University Press  
This publication highlights the impact of culture on local economies and the methodological issues related to its identification.

### Jessica Lange. Unseen

Exploring the clown inside oneself and discussing different ways of clowning besides putting on shows.

### Local Economic and Employment Development (LEED) Culture

and Local Development New Directions Publishing  
Help Pookie Pop find her friends as they play hide-and-seek in the back yard.

### Status Signals

Little Simon  
Why are elite jewelers reluctant to sell turquoise, despite strong demand? Why did leading investment bankers shun junk bonds for years, despite potential profits? Status Signals is the first major sociological examination of how concerns about status affect market competition. Starting from the basic premise that status pervades the ties producers form in the marketplace, Joel Podolny shows how anxieties about status influence whom a producer does (or does not) accept as a partner, the price a producer can charge, the ease with which a producer enters a market, how the producer's inventions are received, and, ultimately, the market segments the producer can (and should) enter. To achieve desired status, firms must offer more than strong past performance and product quality--they must also send out and manage social and cultural signals. Through detailed analyses of market competition across a broad array of industries--including investment banking, wine, semiconductors, shipping, and venture capital--Podolny demonstrates the pervasive impact of status. Along the way, he shows how corporate strategists, tempted by the profits of a market that would negatively affect their status, consider not only whether to enter the market but also whether they can alter the public's perception of the market. Podolny also examines the different ways in which a firm can have status. Wal-Mart, for example, has low status among the rich as a place to shop, but high status among the rich as a place to invest. Status Signals provides a systematic understanding of market dynamics that have--until now--not been fully appreciated.
