Political Ideas and Concepts

Cambridge University Press

The fully revised and updated fourth edition of this highly successful text offers a truly comprehensive introduction to the study of politics, written from an international perspective Political Ideologies Palgrave MacMillan The thoroughly updated 6th edition of this highly regarded text provide a clear, accessible introduction to the political creeds and doctrines that have dominated and shaped politics around the world.

Political Theory Oxford University Press - Children

Concepts have a particular importance for students of politics and international relations. Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue, fight and even go to war, each claiming to be 'defending freedom', 'upholding democracy' or 'supporting justice'. The problem is that words such

as 'freedom', 'democracy' and 'justice' have different meanings to different people, so that the concepts themselves come to seem problematic. This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis. Each term is defined clearly and fully, and its significance for political argument and practice is explored. The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts. Renowned for its lively, engaging style and user-friendly approach, the second edition is an invaluable companion to the study of politics and international relations.

Essentials of UK Politics Oxford University Press

Since the early 1990s, a series of major scandals in both the financial and most especially the political world has resulted in close attention being paid to the issue of corruption and its links to political legitimacy and stability. Indeed, in many countries - in both the developed as well as the developing world - corruption seems to have become almost an

obsession. Concern about corruption has become a powerful policy narrative: the explanation of last resort for a whole range of failures and disappointments in the fields of politics, economics and culture. In the more established democracies, worries about corruption have become enmeshed in a wider debate about trust in the political class. Corruption remains as widespread today, possibly even more so, as it was when concerted international attention started being devoted to the issue following the end of the Cold War. This Handbook provides a showcase of the most innovative and exciting research being conducted in Europe and North America in the field of political corruption, as well as providing a new point of reference for all who are interested in the topic. The Handbook is structured around four core themes in the study of corruption in the contemporary world: understanding and defining the nature of corruption; identifying its causes; measuring its extent; and analysing its consequences. Each of these themes is addressed from various perspectives in the first four sections of the Handbook, whilst the fifth section explores new directions that are emerging in corruption research. The contributors are experts in their field, working across a range of different social-science perspectives.

Introduction to International Relations

Oxford University Press, USA

Stimulating, succinct, and accessible, this highly successful text offers a truly comprehensive introduction to the study of politics, written from an international perspective. This third edition of Politics has a new chapter on the mass media and political communication and contains substantial new material on developments such as the "War on Terror," identity politics and

multiculturalism, and state transformation. It also takes into account throughout of the increasing importance of the global dimension of politics, and features new boxed material on major thinkers and key concepts.

Key Concepts in Politics and

International Relations Routledge

An accessible and comprehensive guide to the major concepts encountered in political analysis. Each is defined clearly and fully, and its significance for political argument and practice is explored. The introduction explains how political concepts are used and why they are so often abused.

Key Concepts in Politics Red Globe Press

The 4th edition of this popular textbook has been fully revised and updated to match the requirements for the new A-level in government and politics for the Edexcel and AQA exam board specifications. Written by renowned author Andrew Heywood, this lively text expertly introduces A-level students to the basics of UK politics, and covers key areas including political parties, elections and referendums, voting behaviour and the media, the Constitution, Parliament, Judiciary and the European Union. Keeping pace with the tumultuousness of UK politics of the last few years, it incorporates coverage of the referendum on the UK's European Union membership in 2016 and its consequences as well as the 2017 general election. New to this Edition: - Content restructured to map on to the new A level specifications - 'Milestones': provides annotated timelines for the historical development of various issues - 'UK Politics in Action': places the focus on key events in British politics

Essentials of UK Politics Cambridge University Press

This introduction to contemporary

American life examines the key institutions of American society, including state and local government, geography, education, law, media and culture, with the emphasis placed on the people of America.

Essentials of Political Ideas W. W. Norton & Company

The new edition of this best-selling textbook, from the UK's leading politics textbook author, is written specifically to meet the needs of students who are studying AS level Government and Politics. It is a lively, accessible and comprehensive introduction to the subject, and gives full coverage of the Edexcel and AQA specifications and the core requirements of other boards. This third edition has been thoroughly revised to cover the election of a Conservative majority government after a term of coalition politics. Key features:

- Previews – introduce each chapter and highlight the key areas to be covered
- Getting you thinking – discuss the issues raised by a recent event or development
- On-page definitions – define key terms in a single sentence
- What is... boxes – flesh out political ideas and concepts
- Focus on... boxes – explain important political processes
- By comparison – contrast aspects of the UK and US political systems (which forms one of the required unit options for assessment)
- For or against? – give the arguments on both sides of contentious issues
- What you should know – reinforce the central points of each chapter
- Exam-style questions – test understanding and help with exam preparation

Oxford IB Diploma Programme: Global Politics Course Companion Bloomsbury Publishing

This introduction to global environmental politics examines why environmental challenges occur and how we can

effectively respond to them.

Essentials of UK Politics and Government Red Globe Press

This leading text provides a concise and broad-ranging introduction to the contemporary study of political theory.

Each chapter discusses a cluster of interrelated concepts and examines how they have been used by different thinkers and traditions and explores related debates and controversies. The fourth edition of this highly successful and accessible book has been substantially revised and updated and includes extra attention throughout to non-Western approaches and international political theory.

Systematically covering the foundational concepts that have focused debate from Aristotle, Rousseau, Marx and Mill to the present day, this is essential reading for undergraduate and postgraduate courses on political thought and political philosophy. With increased discussion of the global dimensions of political thought it will appeal to an international audience, as well as to those lecturers interested in broadening their students' horizons. New to this Edition: - Increased coverage throughout of non-Western and post-colonial approaches, with Beyond the West features on Islamic, Buddhist, Chinese, Indian, African, Latin American and other traditions - Takes the blurring divisions between Politics and International Relations into account, for instance through a new chapter on Security, War and World Order - Thinking Globally boxes, and added discussions of transnationalism and cosmopolitanism - Additional attention is paid to issues of identity and diversity to address contemporary political developments
