From New York Times bestselling author Catherine Anderson comes the second novel in the Comanche series—a stirring story of courage, passion, and unforgettable love... Years ago, Amy Masters escaped the fury of the Texas plains for a new life as a teacher in the golden hills of Oregon, where she found contentment—if not happiness. Then, out of the shadows, comes Swift Antelope, the Comanche warrior to whom she once pledged her heart when she was no more than a girl. Claiming that he’s given up his violent ways as a gunslinger, Swift has arrived to take the woman he feels is rightfully his, the woman who once swore to honor a sacred and unbreakable pact. But Amy’s brutal past has made it impossible for her to trust any man—even if it’s the bold warrior who has haunted her dreams, the only man she

ever loved, the Comanche heart she can’t live without.

It may not be out of place to explain how this book came to find its way into print. It was written for my little daughter, in the form of letters at various times, and not intended for publication, but many friends after reading them insisted that they should be published. One said: “You must not wait until you are dead before these letters are given to the world.” As my desire is, by the grace of God, to live many years yet, I now present these letters to the reader, supplemented by others from old time friends who braved the perils and dangers of pioneer life; and as they are intended to be a part of the history of this great state, care has been taken to keep strictly to the truth. It is hoped that a line here and there will be appreciated by those who ride in palace cars as well as the old pioneers who came west in prairie schooners.

The surprising story of how George Washington, Alexander

Hamilton, John Adams, and Thomas Jefferson came to despair for the future of the nation they had created. Americans seldom deify their Founding Fathers any longer, but they do still tend to venerate the Constitution and the republican government that the founders created. Strikingly, the founders themselves were far less confident in what they had wrought, particularly by the end of their lives. In fact, most of them—including George Washington, Alexander Hamilton, John Adams, and Thomas Jefferson—came to deem America’s constitutional experiment an utter failure that was unlikely to last beyond their own generation. *Fears of a Setting Sun* is the first book to tell the fascinating and too-little-known story of the founders’ disillusionment. As Dennis Rasmussen shows, the founders’ pessimism had a variety of sources: Washington lost his faith in America’s political system above all because of the rise of partisanship, Hamilton because he felt that the federal government was too weak, Adams because he believed that the people lacked civic virtue, and Jefferson because of sectional divisions laid bare by the spread of slavery. The one major founder who retained his faith in America’s constitutional order to the end was James Madison, and the book also explores why he remained relatively optimistic when so many of his compatriots did not. As much as Americans today may worry about their country’s future, Rasmussen reveals, the founders faced even graver problems and harbored even deeper misgivings. A vividly written account of a chapter of American history that has received too little attention, *Fears of a Setting Sun* will change the way that you look at the American founding, the Constitution, and indeed the United States itself.

Written by a skilled theologian with over two decades of classroom experience, this introduction to evangelical theology explains how connecting to five sources of Christian theology-- Scripture, tradition, reason, experience, and community--leads to a richer and deeper understanding of the faith. Graham McFarlane calls this the "evangelical quintilateral," which he recommends as a helpful rubric for teaching theology. This integrative model introduces students to the sources, themes, tasks, and goals of evangelical theology, making the book ideal for introductory theology courses.

Based on an actual historical event but told through fictional diaries, this is the story of May Dodd—a remarkable woman who, in 1875, travels through the American West to marry the chief of the Cheyenne Nation. *One Thousand White Women* begins with May Dodd's journey into an unknown world. Having been committed to an insane asylum by her blue-blood family for the crime of loving a man beneath her station, May finds that her only hope for freedom and redemption is to participate in a secret government program whereby women from "civilized" society become the brides of Cheyenne warriors. Pulitzer Prize-winning author John McPhee continues his *Annals of the Former World* series about the geology of North America along the fortieth parallel with *Rising from the Plains*. This third volume presents another exciting geological excursion with an engaging account of life—past and present—in the high plains of Wyoming. Sometimes it is said of geologists that they reflect in their professional styles the sort of country in which they grew up. Nowhere could that be more true than in the life of a

geologist born in the center of Wyoming and raised on an isolated ranch. This is the story of that ranch, soon after the turn of the twentieth century, and of David Love, the geologist who grew up there, at home with the composition of the high country in the way that someone growing up in a coastal harbor would be at home with the vagaries of the sea.

Still others make themselves heard, starting out from different places and recording details along the way, from the mundane to the soul-shattering and spirit-lifting.

"Billionaire Wilderness offers an unprecedented look inside the world of the ultra-wealthy and their relationship to the natural world, showing how the ultra-rich use nature to resolve key predicaments in their lives. Justin Farrell immerses himself in Teton County, Wyoming--both the richest county in the United States and the county with the nation's highest level of income inequality--to investigate interconnected questions about money, nature, and community in the twenty-first century. Farrell draws on three years of in-depth interviews with "ordinary" millionaires and the world's wealthiest billionaires, four years of in-person observation in the community, and original quantitative data to provide comprehensive and unique analytical insight on the ultra-wealthy. He also interviewed low-income workers who could speak to their experiences as employees for and members of the community with these wealthy people. He finds that the wealthy leverage nature to climb even higher on the socioeconomic ladder, and they use their engagement with nature and rural people as a way of creating more virtuous and deserving versions of themselves. Billionaire Wilderness demonstrates that our contemporary understanding of the relationship between the ultra-wealthy and the environment is empirically shallow, and our reliance on reports of national economic trends distances us from the real experiences of these people and their local communities"--

A new novel in the beloved New York Times bestselling Longmire series. What if you woke up lying in the middle of the street in the infamous town of Fort Pratt, Montana, where thirty young Native boys perished in a tragic 1896 boarding-school fire? What if every person you encountered in that endless night was dead? What if you were covered in blood and missing a bullet from the gun holstered on your hip? What if there was something out there in the yellowed skies, along with the deceased and the smell of ash and dust, something the Northern Cheyenne refer to as the Éveohtsé-heómèse, the Wandering Without, the Taker of Souls? What if the only way you know who you are is because your name is printed in the leather sweatband of your cowboy hat, and what if it says your name is Walt Longmire . . . but you don't remember him? In *Hell and Back*, the eighteenth installment of the Longmire series, author Craig Johnson takes the beloved sheriff to the very limits of his sanity to do battle with the most dangerous adversary he's ever faced: himself.

Fast Food Nation Farrar, Straus and Giroux

In offering this book to the public after having had the manuscript actually on my desk for more than nine years, let me say frankly that no one realizes better than myself, now, the magnitude of the subject and the many faults of my attempt to handle it. My attention was first directed to the Sign Language in 1882 when I went to live in Western Manitoba. There I found it used among the various Indian tribes as a common language, whenever they were unable to understand each other's speech. In later years I found it a daily necessity when traveling among the natives of New Mexico and Montana, and in 1897, while living among the Crow Indians at their agency near Fort Custer, I met White Swan, who had served under General George A. Custer as a Scout. He had been sent across country with a message to Major Reno, so escaped the fatal battle; but fell in with a party of Sioux, by whom he was severely wounded, clubbed on the head, and left for dead. He recovered and escaped, but ever after was deaf and practically dumb. However, sign-talk was familiar to his people and he was at little disadvantage in daytime. Always skilled in the gesture code, he now became very expert; I was glad indeed to be his pupil, and thus in 1897 began seriously to study the Sign Language. In 1900 I included a chapter on Sign Language in my projected *Woodcraft Dictionary*, and began by collecting all the literature. There was much more than I expected, for almost all early travellers in our Western Country have had something to say about this lingua franca of the Plains. As the material continued to accumulate, the chapter grew into a *Dictionary*, and the work, of course, turned out manifold greater than was

expected. The Deaf, our School children, and various European nations, as well as the Indians, had large sign vocabularies needing consideration. With all important print on the subject I am fairly well conversant, besides which I have had large opportunities in the field and have tried to avail myself of them to

the fullest extent, carrying my manuscript from one Indian tribe to another, seeking out always the best sign-talkers among them, collecting and revising, aiming to add all the best signs in use to those already on record.
