In this volume of sixteen essays, D. R. Nagaraj, the foremost non-Brahmin intellectual to emerge from India's non-English-speaking world, presents his vision of the Indian caste system in relation to Dalit politics--the Dalit being a self-designation for many groups in the lower castes of India. Nagaraj argues that the Dalit movement rejected the traditional Hindu world and thus dismissed untouchable pasts entirely; but he believes rebels too require cultural memory. Their emotions of bewilderment, rage, and resentment can only be transcended via a politics of affirmation. He theorizes the caste system as a mosaic of disputes about dignity, religiosity, and entitlement. Examining moments of caste defiance, he argues for a politics of cultural affirmation and creates a new cultural identity for Dalits. More significantly, he argues against self-pity and rage in artistic

imagination, and for recreating the banished worlds of gods and goddesses. Nagaraj's importance lies in consolidating and advancing some of the ideas of India's leading Dalit thinker and icon, B. R. Ambedkar. He suggests an inclusivist framework to build an alliance of all the oppressed communities of India.

This book provides a sustained engagement with contemporary Indian feature films from outside the mainstream, including Aaranaya Kaandam, I.D., Kaul, Chauthi Koot, Cosmic Sex, and Gaali Beeja, to undercut the dominance of Bollywood focused film studies. Gopalan assembles films from Bangalore, Chennai, Delhi, Kolkata, and Trivandrum, in addition to independent productions in Bombay cinema, as a way of privileging understudied works that deserve critical attention. The book uses close readings of films and a deep investigation of film style to draw attention to the advent of digital technologies while remaining fully cognizant of 'the digital' as a cryptic formulation for considering the sea change in the global circulation of film and finance. This dual focus on both the techno-material conditions of Indian cinema and the film narrative offers a fulsome picture of changing narratives and shifting genres and styles.

In his ambitious survey of the Indo-Aryan languages, Colin Masica has provided a fundamental introduction which will interest not only general and theoretical linguists but also students of one or more of these languages who want to acquaint themselves with the broader linguistic context. Generally synchronic in approach, concentrating on the phonology, morphology and syntax of the modern representatives of the group, the volume also covers their historical development, areal context, writing systems and aspects of sociolinguistics. The survey is organised not on a language-by-language basis but by topic, so that salient theoretical issues may be discussed in a comparative context.

The Indo-Aryan languages are spoken by at least 700 million people throughout India, Pakistan, Bangladesh, Nepal, Sri Lanka and the Maldives. They have a claim to great antiquity, with the earliest Vedic Sanskrit texts dating to the end of the second millennium B.C. With texts in Old Indo-Aryan, Middle Indo-Aryan and Modern Indo-Aryan, this language family supplies a historical documentation of language change over a longer period than any other subgroup of Indo-European. This volume is divided into two main sections dealing with general matters and individual languages. Each chapter on the individual language covers the phonology and grammar (morphology and syntax) of the language and its writing system, and gives the historical

background and information concerning the geography of the language and the number of its speakers.

The first comprehensive inquiry into the origin and growth of regional language cinema in India, this book traces the

development of Kannada cinema from the 1940s to the new millennium. Focusing on the role regional language cinema plays, the book examines the conflict between the 'region' and the 'nation' in the regional consciousness. Raghavendra traces the shape of Kannada cinema to its origins in a princely state under indirect British rule and inquires into the effect of the linguistic reorganization of the states in the 1950s upon the regional identity. Exploring the influence of national developments—from the ascendancy of Indira Gandhi in the 1960s to economic liberalization in the 1990s—on regional identity, the book provides first-time assessments of the Kannada star Rajkumar as a regional icon and the changing meaning of Bangalore city to the Kannada-speaking public.
