Wendy Pfeffer describes the amazing metamorphosis from tiny, jellylike egg, to little fishy tadpole, to great big bullfrog. Holly Keller has created the archetypal frog pond and we see it through the seasons as the tadpoles grow legs and lungs and eventually hop onto land: bullfrogs at last. "Well-designed ink drawings washed with soft-toned watercolors stretch across the double-

page spreads, showing the action above and below water level. . . .an attractive, general introduction."—BL. 1994 "Pick of the Lists" (ABA) Best Children's Science Books, 1994 (Science Books and Films) **Rosie's Walk** Storey Publishing, LLC  
A charming picture book set in an Amish community, by the beloved storyteller Patricia Polacco. Naomi lives with her farming family in an Amish village in Pennsylvania. As part of her household chores, Naomi looks after the chickens with her little sister, Ruth. One day Naomi and Ruth find an abandoned egg near the road. Naomi decides this special egg must be hatched. And when it is, it's plain to see that this is no ordinary chick! The girls

keep the chick, named Fancy, a secret . . . until the day of their family's community working bee. On this day, Naomi is to receive a white organdy cap, an Amish tradition, as a reward for her hard work and responsibility. But on this day, too, Fancy the chick decides to introduce himself to the community! The results are a sheer delight, pure and simple. Accompanied by Patricia Polacco's beautiful artwork, this story of discovery and growing up will stay in the hearts of all who turn its pages. [Let's Hatch Chicks!](#) Capstone
