## ADRIENNE TRISTEN

*Psychological Perspectives on Lesbian, Gay, and Bisexual Experiences* Springer Science & Business Media  
Explore the common ground—and the important differences—between bisexuality and transgenderism! This book, guaranteed to provoke debate and discussion of sexuality and gender, is the first devoted exclusively to the relationship between transgenderism and bisexuality. Combining the work of scholars and activists, professional writers and lay people, *Bisexuality and Transgenderism: InterSEXions of the Others* presents ideas, thoughts, feelings, and insights from a variety of contributors who are committed to understanding—and deepening our understanding of—gender and sexuality. You'll find scholarly essays, narratives, poetry, and a revealing interview with four male-to-female transsexuals, two of whom are married to women who also participate in the discussion. In addition, the book includes insightful chapters by well-known advocates of transgenderism, including Jamison "James" Green, Coralee Drechsler, and Matthew Kailey. The editors of *Bisexuality and Transgenderism: InterSEXions of the Others* make the provocative but crucial claim that the larger queer community looks at "B" and "T" lives as mere "add-ons" to "L" and "G." In this book they focus attention on bisexuality and transgenderism—moving the "margins" to center stage and exploring how sexuality, gender, desire, and intimacy are constructed and circulate in our society. The book's inclusion of voices and scholarship from Eastern cultures challenges our understanding of sexuality and gender constructions all the more, giving this collection a global scope. Here is a sample of what *Bisexuality and Transgenderism: InterSEXions of the Others* examines: biphobia and transphobia within the United States' gay and lesbian community the bi/trans and subversive aspects of the works and images of cultural icons Angelina Jolie and Sandra Bernhard how bisexual and transgendered identities are socially constructed through relationships the false promise of pomosexual play—why the concepts of postmodern sexuality fail to rewrite the construction of gender why swingers who practice bisexual and transgender behavior are often disdained and marginalized by other GLBT people suicidal thoughts and other mental health concerns of bisexual males and females, as well as transgender people Eastern perspectives on sexual/gender identities—with revealing chapters on gender identity in Japan and Indonesia

### **The Transgender Phenomenon** NYU Press

Examines the life styles of gay men and women and discusses the role of gay culture in mainstream society.

*Sex and Gender Differences in Personal Relationships* Holt Paperbacks

The concept of marriage as a union of a man and a woman was fundamentally challenged by the introduction of registered partnership in Denmark in 1989. *Odd Couples* is the first comprehensive history of registered partnership and gay

marriage in Scandinavia. It traces the origins of laws which initially were extremely controversial—inside and outside the gay community—but have now gained broad popular and political support, as well as the positive effects and risks involved in state recognition of lesbian and gay couples. Through a comparison of how these laws have been received and practiced in all of the Scandinavian countries, including Greenland and the Faroe Islands, the author presents a nuanced study of a fascinating political process that began in the 1960s and continues to change the way we understand family, sexuality and nation.

*Feminism, the Family, and the Politics of the Closet* Columbia University Press

One of the field's most innovative thinkers reconsiders the status of non-heterosexuals as citizens of the U.S.

### **Beyond Straight and Gay Marriage** Columbia University Press

The objective of this book is to propose a theory of transvestism and secondary transsexualism, and to provide information concerning these behaviors. My view of these topics is much like that of Benjamin (1966) and nearly all other gender researchers. It holds that a syndrome of similar behaviors can be identified, ranging from fetishism through transvestism, transgenderism, and secondary transsexualism. But description is one thing and explanation of causes is another. I agree with other gender researchers (e. g. , Green & Money, 1969; Stoller, 1985c) who have concluded that the causes of transvestism and transsexualism remain largely unknown. But the fact that we cannot fully explain the origins of transvestism or secondary transsexualism does not mean that a comprehensive theory is impossible. Indeed, excellent theoretical statements have been proposed concerning each of these topics (Ban croft, 1972; Buckner, 1970; Buhrich & McConaghy, 1977a; Money & Ehrhardt, 1972; Ovesey & Person, 1973, 1976; Person & Ovesey, 1974a,b; Stoller, 1968a, 1974, 1985c). It is with considerable respect, therefore, that we acknowledge both the strong shoulders on which we stand, and also the more practical fact that we have drawn heavily upon the many contributions of these researchers. The approach I have adopted has the same scientific difficulties that confronted all of these previous workers.

### **Bisexuality in the Ancient World** Macmillan

Designed for both the undergraduate and graduate classroom, this selection of important articles provides a comprehensive overview of current thought about the psychological issues affecting lesbians, bisexuals, and gay men. The editors have revised and updated the introduction and included a new set of articles for the second edition, most of which have been published since the release of the first edition of *Psychological Perspectives*. The book is divided into eight sections that deal with the meaning of sexual orientation; the psychological dimensions of prejudice, discrimination, and violence; identity development; diversity; relationships and families; adolescence, midlife, and aging; mental health; and the status of practice, research, and public policy bearing on homosexuality and bisexuality in American psychology.

*The Price of Motherhood* University of Chicago Press

Brings together the workplace experiences of transgender people

with an assessment of current policy protections.

The Sociology of Gender American Psychiatric Publishing

A former New York Times reporter tackles the difficult issue of gender economic equality, confronting the financial penalties levied on motherhood.

Textbook of Homosexuality and Mental Health Amsterdam University Press

Challenging a commonly held assumption that men and women hail from different psychological and social "planets," this illuminating work reexamines what the empirical research really shows about how the sexes communicate in close relationships. The volume demonstrates that stereotypical beliefs about men and women fail to predict their actual interaction behavior, and highlights evidence of similarities - as well as differences - between the two groups. Setting forth an integrative theory of gender differences, the authors propose that communication behavior in different activities is the means by which sex and gender role expectations are created and sustained. This volume is suitable for students, scholars, and researchers in communication, social psychology, marriage and family studies, and gender studies as well as clinicians working with individuals, couples, and families.

Bisexuality and Transgenderism Springer

Feminism, the Family, and the Politics of the Closet is about placing sexual orientation politics within feminist theorizing. It is also about defining the central political issues confronting lesbians and gay men. The book brings the study of lesbians from the margins of feminist theory to the center by critiquing the analytic frameworks employed within feminist theory that renders invisible lesbians' difference from heterosexual women. This book also outlines the basic features of lesbian and gay subordination by exploring the differences between heterosexual dominance and gender and race relations. Throughout, Calhoun aims to re-center lesbian and gay politics away from concerns with sexual regulations and toward concern with the displacement of gays and lesbians from the public sphere of visible citizenship and from the private sphere of romance, marriage, and family.

**Out in All Directions** Routledge

This tenth anniversary edition addresses the on-going debate surrounding feminism and sexuality, highlighting the major events that have shaped public debates around sexuality since 1995, including Lawrence vs. Texas and the rights of same sex couples in Massachusetts.

**Sex Wars** Routledge

Out in All Directions takes the mystery out of gay and lesbian history, lifts the lid off pink politics and paints the town lavender with every aspect of gay life, culture and community.

Bi Men Yale University Press

"Paul R. McHugh delivers a first-hand account of his battle against the theory of "repressed sexual memories" in the 1990s and closes with an argument against today's excessive diagnosis of post-traumatic stress disorder (PTSD). Driven by a deep passion to rid psychiatry of nonscientific practices and armed with more than 50 years of teaching, practicing, and investigating in the field, McHugh describes how unrealistic expectations and ineffective treatment were promoted for too long by followers of Sigmund Freud and by practitioners who did not see psychiatry as a subspecialty of medicine - and did not follow the methods and practices that coherent medicine demands. This book is for patients, families, and mental health providers."--BOOK JACKET.

**Not The Marrying Kind** Holt Paperbacks

This is the first comprehensive book in English on the fate of the homosexuals in Nazi Germany. The author, a German refugee, examines the climate and conditions that gave rise to a vicious

campaign against Germany's gays, as directed by Himmler and his SS--persecution that resulted in tens of thousands of arrests and thousands of deaths. In this Nazi crusade, homosexual prisoners were confined to death camps where, forced to wear pink triangles, they constituted the lowest rung in the camp hierarchy. The horror of camp life is described through diaries, previously untranslated documents, and interviews with and letters from survivors, revealing how the anti-homosexual campaign was conducted, the crackpot homophobic fantasies that fueled it, the men who made it possible, and those who were its victims, this chilling book sheds light on a corner of twentieth-century history that has been hidden in the shadows much too long.

Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People Michigan State University Press

A moving and pioneering celebration of the male bisexual self that addresses biphobia in our society In today's sexual world, both straight and gay and lesbian communities still often refuse to accept the reality of bisexuality. *Bi Men: Coming Out Every Which Way* confronts head-on the limiting views that bisexuality is a transitional phase of sexual evolution or a simple refusal to accept being either homosexual or straight. This pioneering collection of moving personal essays by bisexual men and those who love them explores what it means to be bisexual in today's monosexually oriented society. The millennial shift in sexual perspectives draws more and more men to come out as being attracted to both women and men. Bisexual and bi-curious men will find comfort and camaraderie in these stories about coming out, its impact on family and marriage, evolving perspectives on bisexuals within the LGBT community, and the building of acceptance and affirmation for bisexuality and polyamory. The nearly three dozen essays in *Bi Men: Coming Out Every Which Way* are told in the honest words of bisexuals, confirming the validity of their place in the world while illustrating that there are more bi men than anyone ever realized. These diverse and pioneering men's stories reveal a long-disguised and unconventional truth—that bisexuality is a valid lifestyle that does not threaten either sexual camp. Each contributor to this collection affirms the innate fluidity of self, sexuality, family, and community, and proclaims that sexuality is truly diverse in its predispositions and creativity. *Bi Men: Coming Out Every Which Way* separates its essays into four parts: coming out and personal realization of bisexual nature bisexuality's effects on family and marriage an examination of the shifting viewpoints of bisexuality within gay communities ways in which bisexuals can affirm and respect their own desires and celebrate their sexual selves These intimate stories address: biphobia monosexual prejudice the impact on marriage family issues coming out to self, spouse, and family political and community issues religious and spiritual concerns *Bi Men: Coming Out Every Which Way* is a vibrant, reassuring call to bisexuals, the bi-curious, or anybody who knows and loves a bisexual/bi-curious man, to read and more completely understand the unique issues of being bisexual while providing the ultimate affirmation of bisexuality's existence.

**The SAGE Encyclopedia of LGBTQ Studies** Routledge

Gender is one of the most important topics in the field of sociology, and as a system of social practices it inspires a multitude of theoretical approaches. *The Sociology of Gender* offers an introductory overview of gender theory and research, offering a unique and compelling approach. Treats gender as a multilevel system operating at the individual, interactional, and institutional levels. Stresses conceptual and theoretical issues in the sociology of gender. Offers an accessible yet intellectually sophisticated approach to current gender theory and research. Includes pedagogical features designed to

encourage critical thinking and debate. Closer Look readings at the end of each chapter give a unique perspective on chapter topics by presenting relevant articles by leading scholars.

**Are We 'persons' Yet?** Beacon Press

Nominated for the 1998 ALA Gay and Lesbian Book Award. This remarkably informative and entertaining guide explores in amazing depth more facets of today's gay and lesbian culture than any other one-volume reference work. With quotes, facts, reading lists, and useful tables from famous pseudonyms to gay detective novels, *Completely Queer* is the first guide to cover both lesbian and gay male points of view, offering information on their common concerns as well as their different histories and interests.

**Queer TV** State University of New York Press

This far-reaching and contemporary new Encyclopedia examines and explores the lives and experiences of Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) individuals, focusing on the contexts and forces that shape their lives. The work focuses on LGBTQ issues and identity primarily through the lenses of psychology, human development and sociology, emphasizing queer, feminist and ecological perspectives on the topic, and addresses questions such as: · What are the key theories used to understand variations in sexual orientation and gender identity? · How do Gay-Straight Alliances (GSA) affect LGBTQ youth? · How do LGBTQ people experience the transition to parenthood? · How does sexual orientation intersect with other key social locations, such as race, to shape experience and identity? · What are the effects of marriage equality on sexual minority individuals and couples? Top researchers and clinicians contribute to the 400 signed entries, from fields such as: · Psychology · Human Development · Gender/Queer Studies · Sexuality Studies · Social Work · Sociology The SAGE Encyclopedia of LGBTQ Studies is an essential resource for researchers interested in an interdisciplinary perspective on LGBTQ lives and issues.

**The Queer Encyclopedia of the Visual Arts** SAGE

A new, more comprehensive edition of the classic Social Work text *Although the vast majority of LGBT persons are healthy, resilient, and hardy individuals who do not seek social work intervention, some have been or will be clients in social work agencies. Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People* is the updated classic text that has expanded its scope to include new content on practice with

bisexual and transgender populations—and incorporated this content throughout. This informative book provides a knowledge base of practice that will better prepare students and practitioners for working sensitively, competently, and effectively with LGBT individuals. The text now covers content on LGBT populations as articulated by the National Association of Social Workers (NASW) and the Council on Social Work Education (CSWE). Comprehensive and practical, this unique text discusses the pragmatic aspects of social work with lesbian, gay, bisexual, and transgender people. It will improve and reinforce competent practice with LGBT persons and their families in multiple settings. Chapters focus on important topics such as: the profession's core values and ethical principles identifying, analyzing, and resolving ethically challenging practice problems LGBT persons of color—heterosexism, racism, and sexism applying the life model and the stress-coping process the root of conflicts in allegiances and pressures for unity via homogeneity practice with bisexual, transgender, and gender non-conforming persons sexual conversion therapy traditional psychoanalytic notions of lesbian couples the impact of sexual abuse on lesbian couples internalized homophobia, heterocentrism, and gay identity group work practice with the LGBTQ community clinical assessment for families where sexual orientation is an issue LGBT parenting the role of health care and many more! Complete with a highly detailed appendix of symbols, definitions, and terms, *Social Work Practice with Lesbian, Gay, Bisexual, and Transgender People*, is an invaluable resource for social workers and mental health professionals as well as for students and educators at all levels of experience.

**Sexual Strangers** Taylor & Francis

*Not the Marrying Kind* is a new and comprehensive exploration of the contemporary same-sex marriage debates in several jurisdictions including Australia, Canada, South Africa, the United Kingdom and the United States. It departs from much of the existing scholarship on same-sex marriage, which argues either for or against marriage for same-sex couples. Instead, this book begins from a critical analysis of the institution of marriage itself (as well as separate forms of relationship recognition, such as civil partnership, PaCS, domestic partnership) and asks whether and how feminist critiques of marriage might be applied specifically to same-sex marriage. In doing this, the author combines the theories of second wave feminism with insights from contemporary queer theory.
