In a world where new technologies are being developed at a dizzying pace, how can we best approach oral genres that represent heritage? Taking an innovative and interdisciplinary approach, this volume explores the idea of sharing as a model to construct and disseminate the knowledge of literary heritage with the people who are represented by and in it. Expert contributors interweave sociological analysis with an appraisal of the transformative impact of technology on literary and cultural production. Does technology restrict, constraining the experience of an oral performance, or does it afford new openings for different aesthetic experiences? Topics explored include the Mara Cultural Heritage Digital Library, the preservation of Ewe heritage material, new resources for texts in Manding languages, and the possibilities of technauriture. This timely and necessary collection also examines to what extent digital documents can be and have been institutionalised in archives and museums, how digital heritage can remain free from co-option by hegemonic groups, and the roles that exist for community voices. A valuable contribution to a fast-developing field, this book is required reading for scholars and students in the fields of heritage, anthropology, linguistics, history and the emerging disciplines of multi-media documentation and analysis, as well as those working in the field of literature, folklore, and African studies. It is also important reading for museum and archive curators.

The South African literature of iimbongi, the oral poets of the amaXhosa people, has long shaped understandings of landscape and history and offered a forum for grappling with change. Of Land, Bones, and Money examines the shifting role of these poets in South African society and the ways in which they have helped inform responses to segregation, apartheid, the injustices of extractive capitalism, and contemporary politics in South Africa. Emily McGiffin first discusses the history of the amaXhosa people and the environment of their homelands before moving on to the arrival of the British, who began a relentless campaign annexing land and resources in the region. Drawing on scholarship in the fields of human geography, political ecology, and postcolonial ecocriticism, she considers isiXhosa poetry in translation within its cultural, historical, and environmental contexts, investigating how these poems struggle with the arrival and expansion of the exploitation of natural resources in South Africa and the entrenchment of profoundly racist politics that the process entailed. In contemporary South Africa, iimbongi remain a respected source of knowledge and cultural identity. Their ongoing practice of producing complex, spiritually rich literature continues to have a profound social effect, contributing directly to the healing and well-being of their audiences, to political transformation, and to environmental justice.

From the makers of the major motion picture *Mandela: Long Walk to Freedom*, a completely unique biography and thematic telling of the story of Nelson Mandela. This book, which provided key source material for the film, is an unexpurgated collection of the views and opinions of South Africa's first Black president, and it draws on Danny Schechter's forty-year relationship with "Madiba," as Nelson Mandela is known in his native South Africa. Each chapter of this unique portrait corresponds to a letter of the alphabet, and the letters cover major and minor, unexpected and fascinating themes in Mandela's life and his impact on others: Athlete, Bully, Comrade, Forgiveness, Indigenous, Jailed, Militant, and President, to name a few. The book quotes liberally from Mandela himself, his ex-wives and other family members, global leaders, Mandela's cellmates and guards on Robben Island, the team behind *Mandela: Long Walk to Freedom*, former president F. W. de Klerk, members of the South African Police, and his comrades including his successor Thabo Mbeki. *Madiba A to Z* reveals sides of Nelson Mandela that are not often discussed and angles of the anti-apartheid movement that most choose to brush under the table in order to focus on the happy-ending version of the story. As Schechter reports in the book, according to Mandela's successor as president of South Africa, Thabo Mbeki, "the fundamental problems of South Africa, poverty, inequality, have remained unchanged since 1994." This is partly because, as Schechter writes, "six months before the 1994 elections, when South Africa was being governed jointly by the ANC and the National Party under a Transitional Executive Council (TEC), there were secret negotiations about the economic future." There are many rarely spoken of revelations in *Madiba A to Z*, a book about Mandela's brilliance, his courage, his tremendous impact in saving his country and its people of all races, but one that also

shows how far South Africa still has to go.

Despite Georges Bataille's acknowledged influence on major poststructuralist thinkers—including Foucault, Derrida, Kristeva, Lacan, Baudrillard, and Barthes—and his prominence in literary, cultural, and social theory, rarely has he been taken up by scholars of religion, even as issues of the sacred were central to his thinking. Bringing together established scholars and emerging voices, *Negative Ecstasies* engages Bataille from the perspective of religious studies and theology, forging links with feminist and queer theory, economics, secularism, psychoanalysis, fat studies, and ethics. As these essays demonstrate, Bataille's work bears significance to contemporary questions in the academy and vital issues in the world. We continue to ignore him at our peril.

'In *The Bones of The Ancestors Are Shaking*, Russell Kaschula provides an ample introduction to the subject of oral poetry, both drawing on earlier accounts and presenting his own material, much of which has hitherto been unavailable in book form. Kaschula presents rich texts and translations of the Xhosa praise poetry for which southern Africa has long been famous, not only in the context of studies of African oral literature, but also among comparative scholars of world literature. The texts and translations in this book are a valuable and attractive addition to the record, ranging as they do from nineteenth-century examples to late twentieth-century praises for Joe Slovo, F.W. de Klerk, the South African soccer squad or Nelson Mandela, the latter being a special focus of the volume.' —

Many African countries achieved independence from their colonisers over five decades ago, but the people and the continent largely remain mere spectators in the arena of their own dance. The post-independence states are supposed to be sovereign, but the levers of economic and political powers still reside in the donor states. Not in many fora is the complex reality that defines Africa more trenchantly articulated than in imaginative literature produced about and on the continent. This is the crux of the essays collected in *African Literature and the Future*. The book reflects on Africa's past and present, addressing anxieties about the future through the epistemological lens of literature. The contributors peep ahead from a backward glance. They dissect the trend and tenor of politics and their impact on the socio-cultural and economic development of the continent as portrayed in imaginative writings over the years. One salient feature of African literature is the close affinity between art and politics in its polemics. This is well established in all the six essays in the book as the authors stress the interconnections between literature and society in their textual analyses. On the whole, there is an overwhelming feeling of angst and pessimism, but the authors perceive a glimmer of hope despite daunting odds, under different conditions. Thus, they depict the plausible fate of Africa in the twenty-first century, as informed by its ancient and recent past, gleaned from primary texts.

While the relationship between sport and religion is deeply rooted in history, it continues to play a profound role in shaping modern-day societies. This edited collection provides an inter-disciplinary exploration of this relationship from a global perspective, making a major contribution to the religious, social scientific and theological study of sport. It discusses the dialectical interplay between sport and Christianity across diverse cultures, extending beyond a Western perspective to include studies from Africa, South America and Asia, as well as Europe, the UK and the US. Containing contributions from leading experts within the field, it reflects on key topics including race, gender, spirituality, morality, interfaith sport clubs, and the significance of sport in public rituals of celebration and mourning. Its chapters also examine violent sports such as boxing and mixed martial arts, as well as reflecting on the cult of sporting celebrity and the theology of disability sport. Truly international in scope, *Global Perspectives on Sports and Christianity* is fascinating reading for all those interested in the study of sport, sociology and religion.

How do you retell the well-worn life story of a national icon? One way is this: a palimpsest of a hundred memories of the great man, revolutionary, world leader, and family figure, to celebrate the 100th anniversary of his birth. Kate Sidley offers renewed and touching insight into Mandela by retelling humorous, heart-warming and momentous moments from his life, roughly chronologically, drawing from his own writing and the memories of contemporaries, historians and ordinary people. The reading experience is multi-varied and complex, touching and inspiring, like *Madiba* himself. *100 Mandela Moments* is divided into sections, according to the many roles Mandela played in his lifetime: the school boy, the student, the lawyer, the outlaw, the prisoner, the negotiator, the statesman, the elder. Each story or "moment" is short and encapsulates something about the man behind the legend, and the book can be read cover to cover or dipped into.

Scholars examining literature from former French colonies sometimes view it wrongly as simply an

outgrowth of colonial literature. By suggesting new ways to understand the multiple voices present, this book explores how Francophone African poetry and theatre in particular, since the 1960s, constitute both an organic cultural product and a reflection of the diverse African cultures in which they originate. Themes explored in five chapters include the many kinds of African identity formation, the resistance to former notions of literary composition as art, a remapping of social responsibility, and the impact of globalization on Francophone Africa's participation in world economics, politics and culture. This study highlights the inner workings of Francophone African literature and suggests a canonization of modern Francophone works from a world perspective.
