SIMPSON LOGAN

The Barristers of Toulouse in the
Eighteenth Century (1740-1793)

Waterside Press

The law had as much influence on our ancestors as it does on us today, and it occupies an extraordinary range of individuals, from eminent judges and barristers to clerks and minor officials. Yet, despite burgeoning interest in all aspects of history and ancestry, lawyers and legal history have rarely been looked at from the point of view of a family historian. And this is main purpose of Stephen Wades

accessible and authoritative introduction to the subject. Assuming that the reader has little prior knowledge of how or where to look for such information, he traces the evolution of the law and the legal professions. He describes the parts played in the system by solicitors, officers of the High Court, registrars, recorders, town clerks, clerks of the peace, proctors, coroners, notaries, parliamentary agents, judges, barristers and magistrates. Also he identifies the various archives, records and books that the family researcher can turn to, and discusses other sources including the internet. Stephen Wades concise account of legal history and research resources will be an invaluable guide for anyone who is studying the subject or

seeking an ancestor who was associated with it.

Working with Barristers Springer
Fully updated to include the most recent and important developments in law and

practice, this book is a practical guide setting out the main issues and challenges that arise when clients challenge their solicitor's bill. Covering the rules, statutes, case law etc but also providing guidance as to terms of retainers as well as practical guidance on the process of assessing charges. This area of law is complex and is still not well known by many solicitors or even non-specialist judges. Also, following LASPO and probable fixed costs extensions, clients are now far more likely to have to pay their own costs and challenges to solicitor's fees are increasingly common. This book is written in a clear manner so that anyone from clients and trainees to partners and judges can benefit from it. The text for the second edition has been fully expanded and updated to include numerous important High Court and Court of Appeal authorities handed down since the last edition was published. ABOUT THE AUTHOR Robin Dunne is a barrister at Hardwicke specialising in costs and litigation funding, having focused exclusively on this area of law since call. He was called to the bar in 2002 and was an employed barrister and partner in a City of London firm of
