#1 NEW YORK TIMES BESTSELLER • John Grisham's newest legal thriller takes you inside a law firm that's on shaky ground. Mark, Todd, and Zola came to law school to change the world, to make it a better place. But now, as third-year students, these close friends realize they have been duped. They all borrowed heavily to attend a third-tier, for-profit law school so mediocre that its

graduates rarely pass the bar exam, let alone get good jobs. And when they learn that their school is one of a chain owned by a shady New York hedge-fund operator who also happens to own a bank specializing in student loans, the three know they have been caught up in The Great Law School Scam. But maybe there's a way out. Maybe there's a way to escape their crushing debt, expose the bank and the scam, and make a few bucks in the process. But to do so, they would first have to quit school. And leaving law school a few short months before graduation would be completely crazy, right? Well, yes and no ... New Jersey Law Enforcement Exam (LEE) Review Guide
Routledge

Offers one hundred rules that every first year law student should live by “Dear Law Student: Here’s the truth. You belong here.” Law professor Andrew Ferguson and former student Jonathan Yusef Newton open with this statement of reassurance in *The Law of Law School*. As all former law students and current lawyers can attest, law school is disorienting, overwhelming, and difficult. Unlike other educational institutions, law school is not set up simply to teach a subject. Instead, the first year of law school is set up to teach a skill set and way of thinking, which you then apply to do the work of lawyering. What most first-year students don’t realize is that law school has a code, an unwritten rulebook of decisions and traditions that must be understood in order to succeed. *The Law of Law School* endeavors to distill this common wisdom into one hundred easily digestible rules. From self-care tips such as “Remove the Drama,” to studying tricks like “Prepare for Class like an Appellate Argument,” topics on exams, classroom expectations, outlining, case briefing, professors, and mental health are all broken down into the rules that form the hidden law of law school. If you don’t have a network of lawyers in your family and are unsure of what to expect, Ferguson and Newton offer a forthright guide to navigating the expectations, challenges, and secrets to first-year success. Jonathan Newton was himself such a non-traditional student and now shares his story as a pathway to a meaningful and positive law school experience. This book is perfect for the soon-to-be law school

student or the current 1L and speaks to the growing number of first-generation law students in America.

But until now, law students had nowhere to turn to for reliable information regarding the competition. This book has changed all that. Making Law Review explains how the competition works, and reveals the surprising and innovative techniques students have used to excel in it. Naval Law Review

International law requires that, before any new weapon is developed, purchased or modified, the legality of its use must be determined. This book offers the first comprehensive and systemic analysis of the law mandating such assessments - Article 36 of the 1977 Additional Protocol I to the Geneva Conventions. Underpinned by empirical research, the book explores the challenges the weapons review authorities are facing when examining emerging military technology, such as autonomous weapons systems and (autonomous) cyber capabilities. It argues that Article 36 is sufficiently broad to cover a wide range of military systems and offers States the necessary flexibility to adopt a process that best suits their organisational demands. While sending a clear signal that law should not simply follow technological developments, but rather steer them, the provision has its limits, however, which are shaped and defined by the interpretative decisions made by States.
