"Superb...A

war story —
the fight to
break out of a
frozen hell

near the Chosin Reservoir — has been told many times before. But Sides tells it exceedingly well, with fresh research, gritty scenes and cinematic sweep."—Was hington Post From the New York Times bestselling author of Ghost Soldiers and In the Kingdom of Ice, a chronicle of the extraordinary feats of heroism by Marines called on to do the impossible during the

greatest battle of the Korean War On October 15, 1950, General Douglas MacArthur, Supreme Commander of UN troops in Korea, convinced President Harry Truman that the Communist forces of Kim Il-sung would be utterly defeated by Thanksgiving. The Chinese, he said with near certainty, would not intervene in the war. As he was speaking, 300,000 Red Chinese soldiers began secretly

crossing the Manchurian border. Led by some 20,000 men of the First Marine Division, the Americans moved deep into the snowy mountains of North Korea, toward the trap Mao had set for the vainglorious MacArthur along the frozen shores of the Chosin Reservoir. What followed was one of the most heroic-- and harrowing-- operations in American military history, and one of the classic battles

of all time. Faced with probable annihilation, and temperatures plunging to 20 degrees below zero, the surrounded, and hugely outnumbered, Marines fought through the enemy forces with ferocity, ingenuity, and nearly unimaginable courage as they marched their way to the sea. Hampton Sides' superb account of this epic clash relies on years of archival research, unpublished

letters, declassified documents, and interviews with scores of Marines and Koreans who survived the siege. While expertly detailing the follies of the American leaders, On Desperate Ground is an immediate, grunt's-eye view of history, enthralling in its narrative pace and powerful in its portrayal of what ordinary men are capable of in the most extreme circumstances . Hampton

Sides has been hailed by critics as one of the best nonfiction writers of his generation. As the Miami Herald wrote, "Sides has a novelist's eye for the propulsive elements that lend momentum and dramatic pace to the best nonfiction narratives." Black Soldier, White Army Stackpole Military History For more than 200 years, U.S. Army Rangers have fought suicidal combat

missions against overwhelming odds-earning their unrivaled reputation as the world's premier close-combat warriors. In "Rangers in Combat," Lieutenant Colonel J. D. Lock vividly brings to life the horrific battles and the heroic exploits of a special breed of men for whom "valor, honor, and country" mean more than life itself. Take a stand with Robert Rogers and his outnumbered Rangers

during the French and Indian War. Ride with Mosby on the Soughton Raid in the Civil War. In World War II, spearhead Patton's invasion of Sicily beside the legendary William O. Darby, suicidally climb the cliffs of Pointe-du-Hoc with James Earl Rudder, or storm "bloody Omaha" with Max Schneider. Stand outnumbered deep in North Korea while defending Hill 205 against

overwhelming hordes of Communist Chinese. And high atop a mountain in Afghanistan, fight your way out of a savage al Qaeda terrorist ambush. From the snowy forests of Upstate New York and the swamps of South Carolina, to the humid streets of Mogadishu and the snowy mountain peaks of Afghanistan, read accounts of and lessons learned from some of the most

courageous, daring, and vicious ground combat in the annals of U.S. military history. Enter the combat zone with elite warriors who have helped to change the course of history. Leadership in the Crucible DIANE Publishing This Leavenworth Paper is a critical reconstruction of World War II Ranger operations conducted at or near Djebel el Ank, Tunisia; Porto Empedocle, Sicily;

Cisterna, Italy; Zerf, Germany; and Cabanatuan in the Philippines. It is not intended to be a comprehensive account of World War II Ranger operations, for such a study would have to include numerous minor actions that are too poorly documented to be studied to advantage. It is, however, representative for it examines several types of operations conducted against the

troops of three enemy nations in a variety of physical and tactical environments. As such, it draws a wide range of lessons useful to combat leaders who may have to conduct such operations or be on guard against them in the future. Many factors determined the outcomes of the operations featured in this Leavenworth Paper, and of these there are four that are important enough to

merit special emphasis. These are surprise, the quality of opposing forces, the success of friendly forces with which the Rangers were cooperating, and popular support. *Apollo's Warriors* Ballantine Books The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th

Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield.

Even as a boy
growing up
amid the
green hills of
rural
Pennsylvania,
Robert W.
Black knew he
was destined
to become a
Ranger. With
their three-
hundred-year
history of
peerless
courage and

independence
of spirit,
Rangers are a
uniquely
American
brand of
soldier, one
foot in the
military, one
in the
wilderness—a
nd that is
what fired
Black's
imagination.
In this searing,
inspiring
memoir, Black
recounts how
he devoted
himself, body
and soul, to
his proud
service as an
elite U. S.
Army Ranger
in Korea and
Vietnam—and
what those
years have
taught him
about himself,

his country,
and our
future. Born at
the start of
the Great
Depression,
Black grew up
on a farm at a
time of great
hardship but
also
tremendous
national
determination.
He was a kid
who
toughened up
fast, who
learned the
hard way to
rely on his
strength and
his wits, who
saw the
country go to
war with
Germany and
Japan and
wept because
he was too
young to
serve. As soon

as the army would take him, Black enlisted. And as soon as he could muscle his way in, he became a Ranger. As a private first class in the 82d Airborne Division headquarters, Black withstood the humiliations of enlisted service in the peacetime brown-shoe army. When the Korean War began, he volunteered and trained to be an Airborne Ranger. In Korea, this young warrior, his mind and body bursting

with the lusts of adolescence, grew up fast, literally in the line of fire. In clean, vivid prose, Black describes the hell of giving his all for a country that lacked the political resolve to give its all to a war against the North Koreans and the Chinese. If Korea was frustrating, Vietnam was maddening. The heart of this book is devoted to the years of action that Black saw in Long An Province starting in

1967. Black writes of the perplexity of collaborating with South Vietnamese officers whose culture and motives he never fully understood; he conjures up the sudden shock of the Tet Offensive and the daily horror of seeing fellow soldiers and innocent civilians slaughtered—sometimes by stray bullets, often by carelessness or treachery. Vietnam challenged everything Black had come to

believe in and left him totally unprepared for the hostility he would face when he returned to a war-weary America. Written with extraordinary candor and passion, A Ranger Born is the memoir of a man who dedicated the best of his life to everything that is great and enduring about America. At once intimate in its revelations and universal in its themes, it is a book with profound relevance to

our own troubled time in history. **Scenes from an Unfinished War** St. Martin's Press Already a classic of war reporting and now reissued as a Grove Press paperback, Black Hawk Down is Mark Bowden's brilliant account of the longest sustained firefight involving American troops since the Vietnam War. On October 3, 1993, about a hundred elite U.S. soldiers

were dropped by helicopter into the teeming market in the heart of Mogadishu, Somalia. Their mission was to abduct two top lieutenants of a Somali warlord and return to base. It was supposed to take an hour. Instead, they found themselves pinned down through a long and terrible night fighting against thousands of heavily armed Somalis. The following morning, eighteen

Americans were dead and more than seventy had been badly wounded. Drawing on interviews from both sides, army records, audiotapes, and videos (some of the material is still classified), Bowden's minute-by-minute narrative is one of the most exciting accounts of modern combat ever written—a riveting story that captures the heroism, courage, and brutality of battle.

Casemate Publishers Using historical files kept by each of the armed services and nations involved in the Korean War, Rottman provides information on unit backgrounds, organization, manning, periods of service, insignia, weapons, casualties, and major commands including the Western, North Korean, Communist Chinese, and USSR forces.

The United Nation's first military action and America's first major Cold War action, the Korean War, frequently called the forgotten war, is well documented in studies and reports of specific actions and phases of the war. These sources, however, provide little order of battle information on most of the belligerents, particularly the non-U.S./UN and South Korean forces. Using the historical

files kept by each armed service and each nation, Gordon Rottman provides information on combat units and major commands, including both Western forces and North Korean, Communist Chinese, and USSR forces. He has done an invaluable service for scholars and military buffs. Filling a void that would not likely have been filled otherwise, the book provides information on unit backgrounds, organization, manning, periods of service, insignia, weapons, and casualties. The book will be a primary source for anyone, scholar or layman, interested in researching the Korean War. *The Sergeants Major of the Army* St. Martin's Press This title follows one recruit through commando, raiding and amphibious training in Scotland, and into action. It shows how the Rangers differed from the standard infantryman in both their combat mission and their combat skills, and how tactics were modified in the light of lessons learned. The experiences of battle covered include the Rangers' first action during the 1942 Dieppe raid, fighting elite Italian Bersaglieri units at Station de Sened and the Afrika Korps at Dernaia Pass in 1943, spearheading the invasion of

Sicily and Italy in late 1943, and the gruelling combat up the Italian boot until war's end. Packed with first hand accounts, and many unpublished photographs, it provides a vivid description of life among the elite soldiers of Darby's Rangers. *Combat Actions in Korea* DIANE Publishing Beginning in 1950, the Korean War was a defining moment for the UN and the entirety of the early Cold

War, widening the already monumental gulf between the east and west, capitalist and communist. This supplement for Bolt Action expands the rules-set from its World War II roots to this new, and truly modern, conflict. Bolt Action: Korea contains all the rules, Theatre Lists, scenarios, and new and exciting units, never seen in Bolt Action before, to wargame this turbulent period of world history.

The Battalion Bloomsbury Publishing Despite the American tendency to bypass it, the Korean War from 1950 to 1953 was a watershed in American history. It was in Korea, for the first time, that the United States committed its armed forces to limiting an expansion, by Communist forces, which many believed was designed to take over the world; it was also the first war that a world organization, the United

Nations, played a military role. The conflict in Korea was a war that was fought in hardship and danger by the grunt, the man and woman in the field, bringing an end to the myth that possession of an atomic bomb made conventional warfare unnecessary. Training, usually with World II weapons, life on the front, care of the wounded and the dead, and coming home, are just some of the topics

covered in The Korean War. In addition, a timeline of events, a helpful topically arranged bibliography of recommended sources, and illustrations, including many photos taken by the soldiers themselves, bring this period into full focus. Among the issues covered are: The background leading to the war. Raising the military forces to carry out the dictates of both the U.S.

government and the United Nations, often by recalling soldiers who had only recently been mustered out of World War II service. The difficulties of adjusting to life under both garrison and combat environments in an unfamiliar part of the world for most, where temperatures could range from freezing cold to unbearably hot. Recreation, religion, entertainment for the troops, and soldiers'

efforts to help Koreans hurt by the war. Treatment of the wounded, improved by advances in evacuation methods, the development of the helicopter, and the creation of the Mobile Army Surgical Unit, or MASH. The hard time that veterans had in returning to an American society that often ignored their accomplishments.

Colonel William Darby was a hero by anyone's standards. His

elite battalion of Army Rangers paved the way for Ranger success in subsequent wars—and left an unforgettable legacy in its wake. “Brings Darby's story to life with verve and skill.”—Evan Thomas, author of *Ike's Bluff* • “Thoroughly engrossing.”—Larry Alexander, coauthor of *A Higher Call* • “A vivid portrait.”—Gerald Astor, author of *Blood-Dimmed Tide* • “Riveting.”—Jo

hn Wukovits, author of One Square Mile of Hell On a beach in Salerno in 1943, shortly after the American invasion, a staff officer stopped an Army Ranger and asked him where he might find William Darby. The soldier replied, "You'll never find him this far back." Darby was one of the most successful—and admirable—officers of World War II. At the start of the war he was an

artillery captain and a general's aide. But by 1945, he was a full colonel who had commanded Ranger battalions in twelve major battles, including the invasions of North Africa and Sicily, and the landings at Salerno and Anzio in Italy. Darby never led his men into a fight he wouldn't take on personally, and his group of specially-selected, hard-trained Army Rangers became legendary for their

astonishing bravery and deadliness under fire. Onward We Charge takes readers from the beachheads of North Africa to the bloody campaigns of southern Italy, and to Darby's tragic death by German shrapnel just eight days before V-E Day. This is the true story of a man who held his own beside the greatest military figures in history. Run to the Sound of the Guns Bloomsbury

Publishing Bob Drury and Tom Clavin's *The Last Hill* is the incredible untold story of one Ranger battalion's heroism and courage in World War II. They were known as "Rudder's Rangers," the most elite and experienced attack unit in the United States Army. In December 1944, Lt. Col. James Rudder's 2nd Battalion would form the spearhead into Germany, taking the war into Hitler's homeland at last. In the

process, Rudder was given two objectives: Take Hill 400 . . . and hold the hill by any means possible. To the last man, if necessary. The battle-hardened battalion had no idea that several Wehrmacht regiments, who greatly outnumbered the Rangers, had been given the exact same orders. The clash of the two determined forces was one of the bloodiest and most costly

encounters of World War II. Castle Hill, the imposing 1320-foot mini-mountain the American Rangers simply called Hill 400, was the gateway to a desperate Nazi Germany. Several entire American divisions had already been repulsed by the last hill's dug-in defenders as—unknown to the Allies—the height was the key to Adolf Hitler's last-minute plans for a massive counterattack to smash through the

American lines in what would become known to history as the Battle of the Bulge. Thus the stalemate surrounding Hill 400 could not continue. For Supreme Allied Commander Gen. Dwight Eisenhower, there was only one solution: Call in Rudder's Rangers. Of the 130 special operators who stormed, captured, and held the hill that December day, only 16 remained to stagger back

down its frozen slopes. The Last Hill is replete with unforgettable action and characters—a rich and detailed saga of what the survivors of the 2nd Ranger Battalion would remember as “our longest day.” *To Fight with Intrepidity--* www.Militarybookshop.com anyUK Documents Truman's covert operation to collect intelligence in order to prevent a third world

 If I were God, what would you want for Christmas?"
 With a thousand-yard stare, a haggard and bloodied Marine looked incredulously

at the war correspondent who asked him this question. In an answer that took "almost forever," the Marine responded; "Give me tomorrow." After nearly four months of continuous and bloody combat in Korea, such a wish seemed impossible. For many of the men of George Company, or "Bloody George" - one of the Forgotten War's most decorated yet unrecognized

companies - this would be their last day. This is the epic story of "Bloody George," Spartans for the modern age. After storming ashore at Inchon and fighting house-to-house in Seoul, George Company, America's last reserve unit, found itself on the frozen tundra of the Chosin Reservoir facing an entire division of Chinese troops.
