of historical anthropology, an approach that has transformed the study of Chinese history by approaching the subject from the bottom up. Its nine chapters, each based on a different region of China, examine the nature of Ming military institutions and their interaction with local social life over time. Several chapters consider the distinctive role of imperial institutions in frontier areas

and how they interacted with and affected non-Han ethnic groups and ethnic identity. Others discuss the long-term legacy of Ming military institutions, especially across the dynastic divide from Ming to Qing (1644-1912) and the implications of this for understanding more fully the nature of the Qing rule.

It's
Switzerland in the 1920s when the two lovers first meet. She is young, beautiful, and rich. In contrast, he can barely support himself and is interested only in music. By the end of their lives, he is a famous conductor and the richest man in the country, but she is penniless. And most important of all, no one knows of her love for him; it is a secret he

took to his grave. Here begins Urs Widmer's novel *My Mother's Lover*. Based on a real-life affair, *My Mother's Lover* is the story of a lifelong and unspoken love for a man--recorded by the woman's son, who begins this novel on the day his mother's lover dies. Set against the backdrop of the Depression and World War II, it is a story of sacrifice and betrayal, passionate

devotion, and inevitable suffering. Yet in Widmer's hands, it is always entertaining and surprisingly comic--a unique kind of fairy tale. [Syncrometer Science Laboratory Manual](#) Routledge Dialogue between African Religion and other world religions has, regrettably, been a much neglected area in formal religious discourse in Africa to date. Moreover, up to now, the

imperative of dialogue in the process of evangelism figures only peripherally - if at all - in the study of African Christian Theology. This book is probably the first deliberate, extensive and well-argued attempt by an African theologian to fill this unfortunate lacuna. How can Christian and African spiritualities interact with and enrich each other on the basis of mutual respect,

without - as has historically been the case - the one necessarily seeking to eradicate the other? This is the fundamental question of dialogue discussed in the pages of this book. Dr. Laurenti Magesa is Senior Lecturer in African Theology at the Maryknoll Institute of African Studies and the Jesuit School of Theology, Catholic University of Eastern Africa,

Nairobi, Kenya.
Leadership, Gender, and Organization
 Routledge
 This text provides perspectives on the way in which gender plays a role in leadership dynamics and ethics within organizations. It seeks to offer new theoretical models for thinking about leadership and organizational influence. Most studies of women's leadership draw on an ethics of care as characteristic of the way

women lead, but as such, it tends towards essentialist gender stereotypes and does little to explain the complex systemic variables that influence the functioning of women within organizations. This book moves beyond the canon in exploring alternative paradigms for thinking about leadership and gender in organizations. The authors draw on the literature available in systems thinking, systemic

leadership, and gender theory to offer alternative perspectives for thinking about the ways women lead. The book offers invaluable theoretical perspectives and insightful narratives to graduate students and researchers who are interested in women's leadership, gender and organization. It will be of interest to all women in leadership positions, but specifically to those interested in

understanding the systemic nature of leadership and their role within it.

Reisen
verkleinert die Welt und erweitert den Horizont.
Diese wichtige Erkenntnis hat jedenfalls Barbara Liel während ihrer Urlaube gemacht.
Dazu waren nicht etwa irgendwelche Erstbegehungen notwendig oder lebensgefährliche

Expeditionen, sondern lediglich die Bereitschaft, mit Rucksack, Neugierde und Offenheit den Fernsehsessel zu verlassen.
Belohnt wurde die Autorin damit, neue und bisher ungelebte Seiten in sich kennenzulernen und den Nutzen von persönlichen Eigenheiten zu entdecken, die ihr bisher stets albern oder hinderlich erschienen.
Lassen sie sich ermutigen, Ihren eigenen Aufbruch zu wagen oder

gehen Sie einfach lesend mit auf eine Reise, die Sie nicht nur nach Ecuador und Australien, in die Staaten und nach Hawaii führt und Sie zudem bestens unterhält. Vielleicht entdecken Sie dabei auch bisher unbekannte Inseln und Landstriche in sich selbst. *Hurry Down Sunshine* Routledge Just outside Boston, in 1963, Frederick Merrill found himself a patient in the

country's premiere mental hospital, a world of structured authority and absolute control - a forced regression to a simpler time even as the pace of the outside world accelerated into modernity. Meanwhile, in a wintry New Hampshire village hours to the north, Frederick's wife Katharine struggled to hold together her fracturing family and to heal from the wounds of her husband's

affliction. Nearly fifty years later, a writer in his twenties attempts to comprehend his grandparents' story from that turbulent time, a moment in his family's history that continues to cast a long shadow over his own young life. Spanning generations and genres, *The Storm at the Door* blends memory and imagination, historical fact and compulsive storytelling, to offer a

meditation on how our love for one another and the stories we tell ourselves allow us to endure. Quietly incisive and unflinchingly honest, *The Storm at the Door* juxtaposes the visceral physical world of Frederick's asylum with an exploration of how the subtlest damages can for ever alter a family's fate.

Case management is used across a diverse

range of organisational settings, from child protection to aged care; disability services; acute and community health; courts and correctional services; employment services; veteran services; education; and immigration programs. However, case management is not always successfully implemented, and practitioners often feel they are not given sufficient

support. The Practice of Case Management draws on extensive practice research to identify the key characteristics of successful case management: organisational support; developing delivery models to suit individual client needs; preparation of staff at all levels; and affirmation of the central and active role of the client. The authors outline the challenges

and complexities faced by case managers, acknowledging that their role is often poorly conceptualised and articulated. They demonstrate that true engagement enables effective service provision and offer practical strategies for everyone involved in the case management process to facilitate negotiation, accountability and the achievement of positive

outcomes. **Human Rights** "O'Reilly Media, Inc." HURRY DOWN SUNSHINE TELLS THE STORY OF THE extraordinary summer when, at the age of fifteen, Michael Greenberg's daughter was struck mad. It begins with Sally's visionary crack-up on the streets of Greenwich Village, and continues, among other places, in the out-of-time world of a Manhattan psychiatric ward during

the city's most sweltering months. "I feel like I'm traveling and traveling with nowhere to go back to," Sally says in a burst of lucidity while hurtling away toward some place her father could not dream of or imagine. *Hurry Down Sunshine* is the chronicle of that journey, and its effect on Sally and those closest to her—her brother and grandmother, her mother and stepmother, and, not least

of all, the author himself. Among Greenberg's unforgettable gallery of characters are an unconventional psychiatrist, an Orthodox Jewish patient, a manic Classics professor, a movie producer, and a landlord with literary dreams. Unsentimental, nuanced, and deeply humane, *Hurry Down Sunshine* holds the reader in a mesmerizing state of suspension

between the mundane and the transcendent. "The psychotic break of his fifteen-year-old daughter is the grit around which Michael Greenberg forms the pearl that is *Hurry Down Sunshine*. It is a brilliant, taut, entirely original study of a suffering child and a family and marriage under siege. I know of no other book about madness whose claim to scientific knowledge is

so modest and whose artistic achievement is so great." – Janet Malcolm, author of *The Silent Woman: Sylvia Plath & Ted Hughes* and *The Journalist and the Murderer* "One of the most gripping and disturbingly honest books I have ever read. The courage Michael Greenberg shows in narrating the story of his adolescent daughter's descent into psychosis is matched by his acute understanding

sane or manic,
is in our

Hegel for the burgeoning academic discussions of the topic of global justice. Against the conventional view that Hegel has little constructive to offer to these discussions, this collection, drawing on the expertise	of distinguished Hegel scholars and internationally recognized political and social theorists, explicates the contribution both of Hegel himself and his "dialectical" method to the analysis and understanding of a wide range of topics associated with the concept of global justice, construed very broadly. These topics include universal human rights, cosmopolitani

sm, and cosmopolitan justice, transnationalism, international law, global interculturality, a global poverty, cosmopolitan citizenship, global governance, a global public sphere, a global ethos, and a global notion of collective self-identity. Attention is also accorded the value of Hegel's account of mutual recognition for analysing themes in global justice, both as

regards the politics of recognition at the global level and the conditions for a general account of relations of people and persons under conditions of globalization. In exploring these and related themes, the authors of this book regularly compare Hegel to others who have contributed to the discourse on global justice, including Kant, Marx, Rawls, Habermas, Singer, Pogge,

Nussbaum, Appiah, and David Miller. **The Food of Sichuan** Verlag der Ideen This two volume set LNCS 5981 and LNCS 5982 constitutes the refereed proceedings of the 15th International Conference on Database Systems for Advanced Applications, DASFAA 2010, held in Tsukuba, Japan, in April 2010. The 39 revised full papers and 16 revised short papers presented

together with 3 invited keynote papers, 22 demonstration papers, 6 industrial papers, and 2 keynote talks were carefully reviewed and selected from 285 submissions. The papers of the first volume are organized in topical sections on P2P-based technologies, data mining technologies, XML search and matching, graphs, spatialdatabases, XML technologies, time series and streams,

advanced data mining, query processing, Web, sensor networks and communications, information management, as well as communities and Web graphs. The second volume contains contributions related to trajectories and moving objects, skyline queries, privacy and security, data streams, similarity search and event processing, storage and

advanced topics, industrial, demo papers, and tutorials and panels.

African Religion in the Dialogue Debate

Routledge
The United Nations General Assembly adopted the Universal Declaration of Human Rights in 1948. A burgeoning human rights movement followed, yielding many treaties and new international institutions and shaping the constitutions

and laws of many states. Yet human rights continue to be contested politically and legally and there is substantial philosophical and theoretical debate over their foundations and implications. In this volume, distinguished philosophers, political scientists, international lawyers, environmentalists and anthropologists discuss some of the most difficult questions of

human rights theory and practice: what do human rights require of the global economy? Does it make sense to secure them by force? What do they require in jus post bello contexts of transitional justice? Is global climate change a human rights issue? Is there a human right to democracy? Does the human rights movement constitute moral progress? For students of political philosophy,

human rights, peace studies and international relations. *The Times Will Suit Them* Routledge Including new research and findings showing what the true causes of HIV & AIDS are and lead directly to their cure! 53 CURED Cases The First Year Cure, not treatment, is the subject of this book. In 1991 Dr Clark discovered the source of HIV. Once the source became clear the cure became

obvious. but would it work? After curing 53 cases in a row, all who used this method, Dr Clark could wait no longer to present these findings. Since that time many more have been cured, too many to be added to this book. Most important is adding yourself to that list! Electricity can now be used to kill bacteria, viruses and parasites in minutes, not days or weeks as antibiotics

require. If you have been suffering from HIV infection or AIDS related illness, learn to build the electronic device that will stop it immediately. It is safe and without side effects and does not interfere with any treatment you are now on.

Interacting with Broadband Society

Verlag der Ideen Like many ambitious New York City teenagers, Craig Gilner sees entry into

Manhattan's Executive Pre-Professional High School as the ticket to his future. Determined to succeed at life—which means getting into the right high school to get into the right college to get the right job—Craig studies night and day to ace the entrance exam, and does. That's when things start to get crazy. At his new school, Craig realizes that he isn't brilliant compared to the other kids;

he's just average, and maybe not even that. He soon sees his once-perfect future crumbling away.

BPMN
(Business
Process Model
and Notation)
is the
established
standard for
business
process
modeling.
Only a few
years after its
first
publication, it
has gained

widespread adoption in practice. All important modeling tools support BPMN diagramming. It is possible to create business-oriented diagrams, but also technical models for process execution in business process management systems (BPMS). This book provides a stepwise introduction to BPMN, using many examples close to practice. Starting with the basic elements for

modeling sequence flow, all BPMN 2.0 diagrams are presented and discussed in detail. You will gain a profound understanding of the complete notation, and you will be able to make correct use of the different language elements. In the second edition, a collection of useful modeling patterns has been added. These patterns provide best-practice solutions for typical

problems arising in the practice of process modeling.
It's Kind of a Funny Story
 Cambridge University Press
 The year 1989 marked a turning point in world history, a watershed year of unprecedented drama and political significance. No matter how one looks at those events—as the fall of communism, the democratization of Eastern Europe, or the end of the

cold war-it is important to understand how the world travelled the distance of time, space, and ideology to arrive at the Berlin Wall and tear it down. David Mason provides that understanding in a concise synthesis of history, politics, economics, sociology, literature, philosophy, and popular, as well as traditional, culture. He shows how all these elements combined to yield the year

that effectively closed the twentieth century-and promised to launch the new century on a hopeful note. Starting with Poland's elections in June 1989, the countries of then-communist Eastern Europe one by one revolutionized their governments and their polities; Hungary opened its borders to the West, East Germany rushed through, Czechoslovaki

a elected Vaclav Havel president, Bulgaria changed both party and leadership, and Romania executed Ceausescu. Although Gorbachev enabled many of these changes, he did not cause them. The illumination of the complex symbiosis between dynamics in Eastern Europe and the Soviet Union is one of the greatest contributions this book makes. With undercurrents emphasizing

the power of ideas, the spirit of youth, and the multifaceted force of culture and ethnicity, Mason takes the reader far beyond the events of change and into their impetus and outcomes. He applies theories of social movements, democratization, and economic transition with an even hand, showing the interaction of their effects not only regionally but worldwide. The

concluding chapter puts the revolutions in Eastern Europe into international perspective and highlights their impact on East-West relations, security alliances, and economic integration. Mason discusses the European Community, the United States and the Soviet Union, and the Third World in relation to the new East-Central European configuration. Using delightful and

provocative cartoons from Eastern European and Soviet presses, interesting photos, valuable tables of data, and illuminating figures, Mason emphasizes important points about the role of nationalism, ethnicity, public opinion, and harsh economic reality in the revolutionary process.
