Washington Irving (1783-1859) was an American author, essayist, biographer, historian, and diplomat of the early 19th century. He is best known for his short stories "Rip Van Winkle" and "The Legend of Sleepy Hollow" both of which appear in his book *The Sketch Book of Geoffrey Crayon, Gent.* His historical works include biographies of George Washington and Oliver Goldsmith, and several histories of 15th-century Spain, dealing with subjects such as the Moors and the Alhambra. Irving served as the U.S. ambassador to Spain from 1842 to 1846. World attention is focused more and more on violent events along NATO's Southern Tier. Given the rising scale and intensity of violence in and around the Mediterranean Basin and the continued withdrawal of the Red Army from Central Europe, the center of gravity of the North Atlantic alliance shifting to the Southern Tier. The author analyzes the risks facing the Southern Tier of Europe, assesses the degree to which new U.S. and NATO strategic concepts apply to the conditions of that region, and evaluates the ability of the Alliance to carry out and emerging operational concepts in those areas of the Southern Tier with the greatest potential for violence. More specifically, the author highlights the importance of Turkey and

the consequences for the United States should Turkey perceive inadequate NATO support for its security.

This “comforting...thoughtful” (The Washington Post) guide to maintaining a high quality of life—from resilient old age to the first inklings of a serious illness to the final breath—by the New York Times bestselling author of *Knocking on Heaven’s Door* is a “roadmap to the end that combines medical, practical, and spiritual guidance” (The Boston Globe). “A common sense path to define what a ‘good’ death looks like” (USA TODAY), *The Art of Dying Well* is about living as well as possible for as long as possible and adapting successfully to change. Packed with extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our health system, and how to make your own “good death” more likely. Butler explains how to successfully age in place, why to pick a younger doctor and how to have an honest conversation with them, when not to call 911, and how to make your death a sacred rite of passage rather than a medical event. This handbook of preparations—practical, communal, physical, and spiritual—will help you make the most of your remaining time, be it decades, years, or months. Based on Butler’s experience caring for aging parents, and hundreds of interviews with people who have successfully navigated our fragmented health system and helped their loved ones have good deaths, *The Art of Dying Well* also draws on the expertise of national leaders in family medicine, palliative care, geriatrics, oncology, and hospice. This “empowering guide clearly outlines the steps necessary to prepare for a beautiful death without fear” (Shelf Awareness).
