FITZGERALD ASHER

Wounded in War they Would Work in Peace Simon and Schuster
In a world where business ethics have taken a back seat to the pursuit of wealth and power and movements like political correctness have muzzled the fair exchange of ideas, is it any wonder that the average employee views the workplace with suspicion and consequently checks their loyalties at the office door? Dishonesty has crept into the workplace and undermined organizational performance. Navigating this environment is a difficult task for employees and managers alike. *Swapping Lies!* takes the issue of deception in the workplace head on. In a powerful blend of academic research, common sense business advice, and home spun tales, the author presents a case for change. In doing so, he offers more than 80 "Tips" designed to help the reader navigate today's complex work environment. In a refreshing change in presentation and style this author provides a third dimension in his footnotes. In addition to a comprehensive list of references, the author uses the footnote as a running commentary on the main text. Much like an alter ego, each footnote adds a deeper insight to both the subject at hand and the author himself. All in all, *Swapping Lies!* is a real world view of today's organization and a no-nonsense approach to effective organizational management.

The New Rules of Work Happy About

In November 2007 Adam Moore was conducting fieldwork in Mostar when the southern Bosnian city was rocked by two days of violent clashes between Croat and Bosniak youth. It was not the city's only experience of ethnic conflict in recent years. Indeed, Mostar's problems are often cited as emblematic of the failure of international efforts to overcome deep divisions that continue to stymie the postwar peace process in Bosnia. Yet not all of Bosnia has been plagued by such troubles. Mostar remains mired in distrust and division, but the Brčko District in the northeast corner of the country has become a model of what Bosnia could be. Its multiethnic institutions operate well compared to other municipalities, and are broadly supported by those who live there; it also boasts the only fully integrated school system in the country. What accounts for the striking divergence in postwar peacebuilding in these two towns? Moore argues that a conjunction of four factors explains the contrast in peacebuilding outcomes in Mostar and Brčko: The design of political institutions, the sequencing of political and economic reforms, local and regional legacies from the war, and the practice and organization of international peacebuilding efforts in the two towns.

Differences in the latter, in particular, have profoundly shaped relations between local political elites and international officials. Through a grounded analysis of localized peacebuilding dynamics in these two cities Moore generates a powerful argument concerning the need to rethink how peacebuilding is done—that is, a shift in the habitus or culture that governs international peacebuilding activities and priorities today.

Nelson Mandela stands out as one of the most admired political figures of the twentieth century. It was his leadership and moral courage above all that helped to deliver a peaceful end to apartheid in South Africa after years of racial division and violence and to establish a fledgling democracy there. Martin Meredith's vivid portrayal of this towering leader was originally acclaimed by the Sunday Times as 'a fitting epitaph to an extraordinary career' and by the Daily Telegraph as 'a compelling account of the whole of Mandela's life'. Meredith's acclaimed biography incorporates a decade of additional perspective and hindsight on the man and his legacy and examines how far his hopes for the new South Africa were realised. Mandelais the most thorough and up-to-date account available of the life of its most revered hero.

Helen Sloane is in for one interesting year. Written as a series of journal entries, Heaven Help Helen Sloane is refreshingly honest, poignant, and often hilarious, documenting—in Helen's own words—the daily struggles a young Christian woman must face. Helen's new job as a social worker keeps her busy all day in a whirlwind of case notes and court papers, and at home she's a house group leader for Frenton-on-Sea's New Wave Christian Fellowship. She loves her church but she struggles with faith and doubt, exposed to the religious extremes of both hyper-spiritual friends and her New Age mom. And with her busy schedule, Helen also struggles to make time for love. Still, she finds two men in her life: a handsome worship leader who might not be as godly as he seems, and a former Christian turned Bohemian bad boy. Can she keep her faith strong in the midst of a chaotic life? Jeff Lucas answers this question through the joy, tragedy, love, and heartbreak revealed in the pages of Helen Sloane's journal.

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 192 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a

multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. Hans-Georg Gadamer (1900-2002), one of the towering figures of contemporary Continental philosophy, is best known for Truth and Method, where he elaborated the concept of "philosophical hermeneutics," a programmatic way to get to what we do when we engage in interpretation. Donatella Di Cesare highlights the central place of Greek philosophy, particularly Plato, in Gadamer's work, brings out differences between his thought and that of Heidegger, and connects him with discussions and debates in pragmatism. This is a sensitive and thoroughly readable philosophical portrait of one of the 20th century's most powerful thinkers.
