Gumbo Ya Ya, Aurielle Marie's stunning debut, is a cauldron of hearty poems exploring race, gender, desire, and violence in the lives of Black gxrlls, soaring against the backdrop of a contemporary South. These poems are loud, risky, and unapologetically rooted in the glory of Black

gxrlhood. The collection opens with a heartrending indictment of injustice. What follows is a striking reimagination of the world, one where no Black gxrl dies "by the barrel of the law" or "for loving another Black gxrl." Part familial archival, part map of Black resistance, Gumbo Ya Ya catalogs the wide gamut of Black life at its intersections, with punching cultural commentary and a poetic voice that holds tenderness and sharpness in tandem. It asks us to chew upon both the rich meat and the tough gristle, and in doing so we walk away more whole than we began and thoroughly satisfied.

Jim Slater's classic text

made available once more Jim Slater makes available to the investor - whether the owner of only a few shares or an experienced investment manager with a large portfolio - the secrets of his success. Central to his strategy is *The Zulu Principle*, the benefits of homing in on a relatively narrow area. Deftly blending anecdote and analysis, Jim Slater gives valuable selective criteria for buying dynamic growth shares, turnarounds, cyclical, shells and leading shares. He also covers many other vitally relevant aspects of investment such as creative accounting, portfolio management, overseas markets and the investor's relationship with his or

her broker. From *The Zulu Principle* you will learn exactly when to buy shares and, even more important, when to sell - in essence, how to make 'extraordinary profits from ordinary shares'. *Africana Nova* Cambridge University Press

What is a narrative?

What is narrative fiction? How does it differ from other kinds of narrative? What features turn a discourse into a narrative text? Now widely acknowledged as one of the most significant volumes in its field, *Narrative Fiction* turns its attention to these and other questions. In contrast to many other studies, *Narrative Fiction* is organized around issues - such as events, time,

focalization, characterization, narration, the text and its reading - rather than individual theorists or approaches. Within this structure, Shlomith Rimmon-Kenan addresses key approaches to narrative fiction, including New Criticism, formalism, structuralism and phenomenology, but also offers views of the modifications to these theories. While presenting an analysis of the system governing all fictional narratives, whether in the form of novel, short story or narrative poem, she also suggests how individual narratives can be studied against the background of this general system. A broad range of literary

examples illustrate key aspects of the study. This edition is brought fully up-to-date with an invaluable new chapter, reflecting on recent developments in narratology. Readers are also directed to key recent works in the field. These additions to a classic text ensure that *Narrative Fiction* will remain the ideal starting point for anyone new to narrative theory.

A study of the different roles which nouns play in the event or state expressed by the verb or adjective with which they are associated. The book explores within the framework of transformational-generative grammar the 'localist hypothesis', which

asserts that all the roles for nouns involve basically the notions of location and direction. *The Social and Political History of Southern Africa's Languages* University of Pittsburgh Press

This book is the first to offer an interdisciplinary and comprehensive reference work on the often-marginalised languages of southern Africa. The authors analyse a range of different concepts and questions, including language and sociality, social and political history, multilingual government, and educational policies. In doing so, they present significant original research, ensuring that the work will remain a key reference point for the subject. This ambitious and wide-

ranging edited collection will appeal to students and scholars of southern African languages, sociolinguistics, history and politics.
