In this last book by the late Donald Pitkin, author of *The House that Giacomo Built*, comes a story of the Schorcht family, through whose fortunes and struggles one can see the transformations of Germany through the long twentieth century. Each chapter of *Four Germanys* is reflective of generational rather than historical time. In 1922, Edwin Schorcht inherited his family farm, and in Part One, Pitkin traces the derivation of this farmstead. Part Two focuses on Schorcht's children who came of age in Hitler's Germany. Part Three has the Schorchts growing up in the Ulbricht years (1950–73) of the German Democratic Republic. The book concludes with the great-granddaughter, Maria, looking back to the past in relation to the new Germany that history had bequeathed her. Ultimately, *Four Germanys* reflects the impact of critical historical events on ordinary East Germans while it also reveals how one particular family managed its own historical adaptation to these events.

DaF kompakt neu A2 [Medienpaket] Ernst Klett Sprachen GmbH Word lists lie at the heart of good vocabulary course design, the development of graded materials for extensive listening and extensive reading, research on vocabulary load, and vocabulary test development. This book has been written for vocabulary researchers and curriculum designers to describe the factors they need to consider when they create frequency-based word lists. These include the purpose for which the word list is to be used, the design of the corpus from which the list will be made, the unit of counting, and what should and should not be counted as words. The book draws on research to show the current state of

knowledge of these factors and provides very practical guidelines for making word lists for language teaching and testing. The writer is well known for his work in the teaching and learning of vocabulary and in the creation of word lists and vocabulary size tests based on word lists.

Arkady and Boris Strugatsky are widely known as the greatest Russian writers of science fiction, and their 1964 novel *Hard to Be a God* is considered one of the greatest of their works. It tells the story of Don Rumata, who is sent from Earth to the medieval kingdom of Arkanar with instructions to observe and to influence,

but never to directly interfere. Masquerading as an arrogant nobleman, a dueler and a brawler, Don Rumata is never defeated but can never kill. With his doubt and compassion, and his deep love for a local girl named Kira, Rumata wants to save the kingdom from the machinations of Don Reba, the First Minister to the king. But given his orders, what role can he play? *Hard to Be a God* has inspired a computer role-playing game and two movies, including Aleksei German's long-awaited swan song. Yet until now the only English version (out of print for over thirty years) was based on a German translation, and was full of errors, infelicities, and misunderstandings. This new edition—translated by Olena Bormashenko, whose translation of the authors' *Roadside Picnic* has received widespread acclaim, and supplemented with a new foreword by Hari Kunzru and an afterword by Boris Strugatsky, both of which supply much-needed context—reintroduces one of the most profound Soviet-era novels to an eager audience.
