The centuries-long history of the Louvre, from humble fortress to Royal palace to the world's greatest art museum—with photos and building maps. Some ten million people from all over the world flock to the Louvre each year to enjoy its incomparable art collection. Yet few of them are aware of the remarkable history of the site and buildings themselves—a fascinating story that historian James Gardner elegantly chronicles in this authoritative history. More than seven thousand years ago, men and women camped on a spot called le Louvre for reasons unknown. Centuries later, King Philippe Auguste of France constructed a fortress there, just outside the walls of a nascent Paris. Intended to protect the capital against English soldiers stationed in Normandy, the fortress became a royal residence under Charles V two centuries later, and then the monarchy's principal residence under the great Renaissance king François I. In 1682, when Louis XIV moved his court to Versailles, the Louvre languished until the French Revolution when, during the Reign of Terror in 1793, it

first opened its doors to display the nation's treasures. Ever since—through the Napoleonic era, the Commune, two World Wars, to the present—the Louvre has been a witness to French history, and expanded to become home to a legendary art collection that includes the Mona Lisa and Venus de Milo. Includes sixteen pages of full-color photos illustrating the history of the Louvre, a full-color map detailing its evolution from fortress to museum, and black-and-white images throughout the narrative.

Staat und Verbände Politische Vierteljahresschrift Sonderhefte With more than eight million visitors a year, the Louvre is the museum with the most visits in the world. Its extensive collection of paintings reflects the history of European art from the 13th to the early 19th century. With over 400 plates, detail images, and descriptions, this volume provides an overview of the Louvre's collection of paintings.

The intense interest aroused in the public by what was known at the time as "The Styles Case" has now somewhat subsided. Nevertheless, in view of the world-wide notoriety which attended it, I have been asked, both by my friend Poirot and the family themselves, to write an account of the whole story. This, we trust, will effectually silence the sensational rumours which still persist. I will therefore briefly set down the circumstances which led to my being connected with the affair.

Xenophobe's Guide to the Swiss Quadrille Publishing

A journey through the wild madness of bicycle racing in Flanders. LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR 2019 'A joy.' - Ned Boulting Every nation shapes sport to test the character traits it most admires. In *The Beast*, the Emperor and the Milkman, committed Belgophile and road cycling obsessive Harry Pearson takes you on a journey across Flanders, through the lumpy horizontal rain, up the elbow juddering cobbled inclines, past the fans dressed as chickens and the shop window displays of constipation medicines, as he follows races big, small and even smaller through one glorious, muddy spring. Ranging over 500 years of Flemish and European history, across windswept polders, along back roads and through an awful lot of beer cafes, Pearson examines the characters, the myths and rivalries that make Flanders a place where cycling is a religion and the riders its lycra-clad priests.

A new voice in comics is incisive, funny, and fiercely feminist.

"The mental load. It's incessant, gnawing, exhausting, and disproportionately falls to women. You know the scene--you're making dinner, calling the plumber/doctor/mechanic, checking homework and answering work emails--at the same time. All the while, you are being peppered with questions by your nearest and dearest 'where are my shoes?', 'do we have any cheese?...' -- Australian Broadcasting Corp on Emma's comic In her first book of comic strips, Emma reflects on social and feminist issues by

means of simple line drawings, dissecting the mental load, ie all that invisible and unpaid organizing, list-making and planning women do to manage their lives, and the lives of their family members. Most of us carry some form of mental load--about our work, household responsibilities, financial obligations and personal life; but what makes up that burden and how it's distributed within households and understood in offices is not always equal or fair. In her strips Emma deals with themes ranging from maternity leave (it is not a vacation!), domestic violence, the clitoris, the violence of the medical world on women during childbirth, and other feminist issues, and she does so in a

straightforward way that is both hilarious and deadly serious.. If you're not laughing, you're probably crying in recognition. Emma's comics also address the everyday outrages and absurdities of immigrant rights, income equality, and police violence. Emma has over 300,000 followers on Facebook, her comics have been shared 215,000 times, and have elicited comments from 21,000 internet users. An article about her in the French magazine L'Express drew 1.8 million views--a record since the site was created. And her comic has just been picked up by The Guardian. Many women will recognize themselves in THE MENTAL LOAD, which is sure to stir a wide ranging, important debate on what it really means to be a woman today.
