Following on from a consultation paper (Consultation paper 174; ISBN 0117302562) published in January 2004, this report contains proposals for reform of the law regarding the termination of a tenancy during its term, by a landlord, due to the tenant having broken the terms of the tenancy agreement. It sets out, in the form of a draft Bill, a new statutory scheme for the termination of tenancies, including a new concept of

'tenant default', to replace the current law of forfeiture. The proposed scheme would define the circumstances in which a landlord may seek to terminate a tenancy early, require the landlord to warn the tenant of the impending action by giving a written notice, and confers enhanced protection on those with interests deriving out of the tenancy. The report is divided into eight parts with three appendices, and issues considered include: problems with the current law of forfeiture of tenancies and the case for reform; the various components of the proposed scheme, including the concept of tenant default and the stages of a landlord's 'termination claim'; and the role of the court.

HOME Line wrote *How to Be the Smartest Renter on Your Block* to help renters through the process of finding, getting, and maintaining rental housing. Reflecting upon the real-life concerns we hear through thousands of questions on our tenant hotline, this book gives advice on the best ways to handle and avoid the most common rental problems. This book follows the rental process from beginning to end with several additional chapters on unique rental housing situations. The book

begins with advice regarding finding and applying for an apartment and moves on to understanding the terms of a lease. Next, some of the most common issues renters run into once they've moved in are covered: getting repairs made, dealing with neighbors, right to privacy, and more. Later, the book addresses what to expect when a renter intends to move out of an apartment and how to make sure a security deposit is returned. Furthermore, several immediate emerging issues in the rental market are covered: What does a renter do when a landlord is in foreclosure? Who is responsible for paying when an apartment becomes infested with bedbugs? Lastly, we take a detailed look at community organizing and how tenants can work collectively to hold

their landlords and elected officials accountable. How to Be the Smartest Renter on Your Block answers these questions and more.

Contracts: Cases and Doctrine features a mix of lightly-edited classic and contemporary cases that stresses current contract doctrine along with the essential lawyering skill of case analysis—how to sift through the facts of the case to discern the prevailing rules and theory. Randy Barnett and Nate Oman’s innovative text introduces each case and provides the historical

background of the iconic cases that make the study of contract law engaging. Study Guide questions help students identify salient issues as they read each case. Judicial biographies of each judge provide additional context. The Seventh Edition has been edited to delete materials that are seldom covered in a 1L class. This edition adds new cases that have been chosen for their topicality, facts, or pedagogical usefulness. New areas covered include so-called “smart contracts” and the relationship between restitution and contract. As always, we have tried to focus on cases with facts that will be easier to teach. New cases in this edition include a contract with a spy that turns out to be a double agent for the KGB, the effect of pandemics on contractual

obligations, the gambling shenanigans of a royal prince, and emotional support animals. New to the Seventh Edition: In order to keep the size of the book manageable, we have eliminated the section on the signature requirement under the statute of frauds and have slimmed down the materials on internet contracting, which is no longer the “cutting edge” area that once it was. New cases include: Attorney General v. Blake (restitution damages for breach of contract against a British spy who defected to the USSR) Snapp v. United States (squib) (constructive trust against an American spy for breach of contract) Al-Ibrahim v. Edde (denied an unjust enrichment remedy to unwind a contract declared unenforceable for illegality) Pelletier v. Johnson (claim for unjust

enrichment allowed to unwind a contract declared unenforceable for illegality) Carter Baron Drilling v. Badger Oil Corp. (discussing the parole evidence rule under the UCC) C.R. Klewin Inc. v. Flagship Properties, Inc. (the exception to the 1-year requirement under the statute of frauds) Cohen v. Clark (case imposing liability on a breaching party that everyone agrees breached in “good faith”; illustrates the strictness of contractual liability) Hanford v. Connecticut Fair Ass’n, Inc. (public policy exception for public health in time of a pandemic) B2C2 Ltd v. Quoine Ltd Pte (unilateral mistake case dealing with “smart contracts”) Professors and student will benefit from: Case-based approach that gives students ample doctrinal materials to sift through for

facts and analyze for prevailing rules and theory. Cases that are lightly edited, or presented as whole as possible, to give first-year students the opportunity to develop case-analysis skills.

Restatement and UCC sections integrated to encourage students to consult them as they read the cases. Iconic and contemporary cases combined to show how the classic cases are still relevant. Chapters that begin with a brief, accessible textual introductions. Study Guide questions before each case help focus student attention on salient issues. Flexible organization begins with Remedies, but chapters can be taught in any order.
