Fascism in Italian Cinema since 1945 Disney Electronic Content Kinetic art not only includes movement but often depends on it to produce an intended effect and therefore fully realize its nature as art. It can take a multiplicity of forms and include a wide range of motion, from motorized and electrically driven movement to motion as the result of wind, light, or other sources of energy. Kinetic art emerged throughout the twentieth century and had its major developments in the 1950s and 1960s. Professionals responsible for conserving contemporary art are in the midst of rethinking the concept of authenticity and solving the dichotomy often felt between original materials and functionality of the work of art. The contrast is especially acute with kinetic art when a compromise between the two often seems impossible. Also to be considered are issues of technological obsolescence and the fact that an artist's chosen technology often carries with it strong sociological and historical information and meanings.

In recent decades the study of social movements, revolution, democratization and other non-routine politics has flourished. And yet research on the topic remains highly fragmented, reflecting the influence of at least three traditional divisions. The first of these reflects the view that various forms of contention are distinct and should be studied independent of others. Separate literatures have developed around the study of social movements, revolutions and industrial conflict. A second approach to the study of political contention denies the possibility of general theory in deference to a grounding in the temporal and spatial particulars of any given episode of contention. The study of contentious politics are left to 'area specialists' and/or historians with a thorough knowledge of the time and place in question. Finally, overlaid on these two divisions are stylized theoretical traditions - structuralist, culturalist, and rationalist - that have developed largely in isolation from one another. This book was first published in 2001.

In April 1903, the steamship Republic spills more than two thousand immigrants onto Ellis Island. Among them are Diamante, age twelve, and Vita, nine, sent by their poor families in southern Italy to make their way in America. Amid the chaos and splendor of New York, the misery and criminality of Little Italy, and the shady tenants of Vita's father's decrepit Prince Street boarding house, Diamante and Vita struggle to survive, to create a new life, and to become American. From journeys west in search of work to journeys back to Italy in search of their roots, to Vita's son's encounter with his mother's home town while serving as an army captain in World War II, Vita touches on every aspect of the heartbreaking and inspiring immigrant story. The award-winning Italian author Melania G. Mazzucco weaves her own family history into a great American novel of the immigrant experience. A sweeping tale of discovery, love, and loss, Vita is a passionate blend of biography and autobiography, of fantasy and fiction.

NYPD Homicide Detective Nikki Heat gets more mystery than she imagined when she arrives at her latest crime scene. The body of an unidentified woman has been found stabbed to death and stuffed inside a suitcase left sitting on a Manhattan street. A startling enough death, but an even bigger shock comes when this new homicide surprisingly connects to the unsolved murder of Detective Heat's own mother. The gruesome killing of this Jane Doe launches Heat on a dangerous and emotional investigation, rekindling the cold case that has haunted her since she was nineteen. Paired once again with her romantic and investigative partner, top journalist Jameson Rook, Heat works to solve the mystery of the body in the suitcase while she also digs into unexplored areas of her mother's background—areas Nikki has been afraid to confront before, but now must. Everybody has one in their collection. You know—one of those old, spiral- or plastic-tooth-bound cookbooks sold to support a high school marching band, a church, or the local chapter of the Junior League. These recipe collections reflect, with unimpeachable authenticity, the dishes that define communities: chicken and dumplings, macaroni and cheese, chess pie. When the Southern Foodways Alliance began curating a cookbook, it was to these spiral-bound, sauce-splattered pages that they turned for their model. Including more than 170 tested recipes, this cookbook is a true reflection of southern foodways and the people, regardless of residence or birthplace, who claim this food as their own. Traditional and adapted, fancy and unapologetically plain, these

recipes are powerful expressions of collective identity. There is something from—and something for—everyone. The recipes and the stories that accompany them came from academics, writers, catfish farmers, ham curers, attorneys, toqued chefs, and people who just like to cook—spiritual Southerners of myriad ethnicities, origins, and culinary skill levels. Edited by Sara Roahen and John T. Edge, written, collaboratively, by Sheri Castle, Timothy C. Davis, April McGreger, Angie Mosier, and Fred Sauceman, the

book is divided into chapters that represent the region's iconic foods: Gravy, Garden Goods, Roots, Greens, Rice, Grist, Yardbird, Pig, The Hook, The Hunt, Put Up, and Cane. Therein you'll find recipes for pimento cheese, country ham with redevye gravy, tomato pie, oyster stew, gumbo z'herbes, and apple stack cake. You'll learn traditional ways of preserving green beans, and you'll come to love refried black-eyed peas. Are you hungry yet?
