Does your

about invisible

and monsters  
in the closet?  
Is your

teenager about to start high school or being victimized by bullies? Is your son mortally afraid of certain insects or of injections at the doctor's office? Compiled by two seasoned clinical psychologists, The Parents' Guide to Psychological First Aid brings together articles by recognized experts who provide you with the information you need to help your child navigate the

many trying problems that typically afflict young people. Written in an engaging style, this book offers sage advice on a raft of everyday problems that have psychological solutions. The contributors cover such topics as body image and physical appearance; cigarettes, drugs, and alcohol; overeating and obesity; dental visits; the birth of a sibling and sibling rivalries; temper

tantrums; fostering self-esteem; shyness and social anxiety; and much more. Each expert article provides an overview of the issues, offers reassurance for minor problems and strategies for crisis management, and discusses the red flags that indicate that professional help is needed. In addition, the book is organized into various categories to make it easier to find

information. For instance, the "Family Issues" section includes articles on Blended Families, Divorce, and Traveling; the "Adolescent Issues" section covers such topics as Dating and Driving; and the "Social/Peer Issues" section explores such subjects as "Sportsmanship," "Homesickness," and "Making Friends." An encyclopedic reference for parents

concerned with maintaining the mental health of their children, this indispensable volume will help you help your child to deal effectively with stress and pressure, to cope with everyday challenges, and to rebound from disappointments, mistakes, trauma, and adversity. The Other Side of the Report Card A&C Black "This book presents teaching from three specific actions,

Organizing, Instructing, and Assessing, and is divided into three sections which reflect each of these teaching actions. The strategies presented in each section are truly universal in nature; they cut across grade levels, subject areas, and teaching situations. The book emphasizes Context, Content, and Learner as essential elements in the decision-making process." This book bridges the gap

between theory, research, and practice with clear and effective writing, and a framework that combines the context, content, and learner with what teachers need in the real world: organizing, instructing, and assessing. "Universal Teaching Strategies" expands both the pedagogical teaching knowledge of teachers and their instructional repertoires." For the continuing

education of pre-service and in-service teachers.

Corwin Press  
The Kolade's Canons are published in three volumes containing what might best be described as Christopher Kolade's ecclesiastical declarations over the last 40 years. The volumes contain first-class materials, based on highly cherished African values with

foundations in universal principles, from a first-class mind. This volume, Kolade's Canons 3, is devoted entirely to Broadcasting, Christopher Kolade's second career start up. In the first volume, Kolade's Canons 1, he focuses on People, Leadership and Management, and directs readers to management and leadership principles which, if put into practice can lead to the

transformation of individuals, enterprises and nations. The second volume, Kolade's *Canons 2*, focuses on Business and Economy, Nation Building and Ethics. Without sound ethics builders of lives, organisations or nations build on a false foundation. The volumes are not textbooks but a collection of a refined gentleman's speeches and teachings. They provide teachers,

students, policy makers and policy executors deep insights to think and talk about, as well as test in the arena of practice. The earliest papers date back 40 years, yet they remain relevant because they are principles-based; and because Dr Kolade was also thinking for future generations. *Strategies that Work* Teacher Created Resources Thoughtful and constructive
