This is a modern English translation of the 1900+ year old Aramaic Old Testament called the Peshitta. Aramaic was the native language of Jesus and of Israel in the 1st century AD. This volume contains the Major Prophets: Isaiah, Jeremiah, Lamentations, Ezekiel, Daniel. The text translated is the 6th-7th century Codex Ambrosianus- the oldest complete Semitic Old Testament extant. The Peshitta Old Testament was very likely translated from the Hebrew Bible in the 1st century AD in Israel by Christian converts from Judaism, or possibly Syrian Christians from across Israel's border. Either way, the Peshitta Old and New Testaments together constitute the first Christian Bible. The author has translated and published interlinears of the complete Aramaic Peshitta Old Testament, as well as the entire Aramaic-Peshitta New Testament and plain English translations of the NT, the Torah, the Psalms & Proverbs. 6x9 hardback 209 pages

*The New Testament for English Readers: pt.1. The three first gospels* Sakha Global Books (Sakha Books)

This selection of the earliest poems in English comprises works from an age in which verse was not written down, but recited aloud and remembered. Heroic poems celebrate courage, loyalty

and strength, in excerpts from Beowulf and in The Battle of Brunanburgh, depicting King Athelstan's defeat of his northern enemies in 937 AD, while The Wanderer and The Seafarer reflect on exile, loss and destiny. The Gnostic Verses are proverbs on the natural order of life, and the Exeter Riddles are witty linguistic puzzles. Love elegies include emotional speeches from an abandoned wife and separated lovers, and devotional poems include a vision of Christ's cross in The Dream of the Rood, and Caedmon's Hymn, perhaps the oldest poem in English, speaking in praise of God.

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize

productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Description ( ORTHOGRAPHY ) “ HOW TO TEACH AND LEARN ENGLISH ” is a measure subject in which the author has made an attempt to explain as to how effectively and efficiently the students of nursery classes at the primary level of education the first chapter of English Grammar termed as “ ORTHOGRAPHY ” can be taught step by step. In this chapter students are taught alphabet – a group of 26 letters of English language – Capital and Small letters both separately step by step. The author has suggested the important method and procedure how nicely with ease the children in between the age groups of 3 to 5 years can be taught in their classes by their class teachers and at home by their parents as well. Children at this age are very sensitive to grasp ( pick up ) the subject concerned and as such they should be taught with sheer love and affection so that fear or hesitation does not enter their heart or mind about the teachers or parents in any way, in any shape or form. Regular practice of reading and writing can strengthen their aptitude or attitude of learning their lessons quickly and improving their performance to a higher quality/standard. It is to be taken care of. The author has suggested for holding the regular tests/examinations based on

the lesson taught to them so that the result of individual performance can be known and corrective measures can be taken to improve the shortcomings, if any, found in any of the students. Teacher and parents meet should be arranged by the school authority to interact on the periodical progress of their wards. The parents must take care of their children. They should

spare some time regularly in teaching their lessons, they should not depend totally upon their class teachers/schools. The role of parents in building the career of their wards at the very initial stage of education, in any way, is of no less important than that of the class teachers. Durga Prasad.
