Thirty Acres traces the course of one man's life as he enters into the age-old rhythms of the land and of the seasons. At the same time, it is a novel on a grand social scale, spanning and documenting the tumultuous half-century in which a new, industrial urban society crowded out Quebec's traditional rural one.

While most work on Dionysus is based on Greek sources, this collection of essays examines the god's Roman and Italian manifestations. Nine contributions address Bacchus' appearance at the crossroads of Greek and Roman cultures, tracing continuities and differences between literary and archaeological sources for the god. The essays offer coverage of Dionysus in Roman art, Italian epigraphy; Latin poetry including epic, drama and elegy; and prose, including historiography, rhetorical and Christian discourse. The introduction offers an overview of the presence of Dionysus in Italy from the archaic to the imperial periods, identifying the main scholarly trends, with treatment of key Dionysian episodes in Roman history and literature. Individual chapters address the reception of Euripides' Bacchae across Greek and Roman literature from Athens to Byzantium;

Dionysus in Roman art of the archaic and Augustan periods; the god's relationship with Fufluns and Liber in the 4th and 3rd centuries BCE; Dionysian associations; Bacchus in Cicero; Ovid's Tristia 5.3; Bacchus in the writings of Christian Latin writers. The collection sheds light on a relatively understudied aspect of Dionysus, and will stimulate further research in this area.

Why are prominent doctors and medical researchers all over the world interested in the extraordinary healings reported by the patients of Dr. Eric Pearl? What does it mean when these patients report the sudden disappearance of afflictions such as cancers, AIDS-related diseases, and cerebral palsy? And what does it mean when people who interact with Dr. Pearl report a sudden ability to access this healing energy not just for themselves, but for others, too? What is this phenomenon? Well, you might have to reconsider everything you've read up until now about conventional healing. The "new" frequencies of healing described by Dr. Pearl transcend "technique" entirely and bring you to levels beyond those previously accessible to anyone, anywhere. This book takes you on Dr. Pearl's journey from the discovery of his ability to facilitate healings, to his well-deserved reputation as the instrument through which this process is being introduced to the world. But most important, The Reconnection reveals methods you can use to personally master these new healing energies.

A compelling history of radical transformation in the fourth-century--when Christianity decimated the practices of traditional pagan religion in the Roman Empire. The *Final Pagan Generation* recounts the fascinating story of the lives and fortunes of the last Romans born before the Emperor Constantine converted to Christianity. Edward J. Watts traces their experiences of living through the fourth century's dramatic religious and political changes, when heated confrontations saw the Christian establishment legislate against pagan practices as mobs attacked pagan holy sites and temples. The emperors who issued these laws, the imperial officials charged with implementing them, and the Christian perpetrators of religious violence were almost exclusively young men whose attitudes and actions contrasted markedly with those of the earlier generation, who shared neither their juniors' interest in creating sharply defined religious identities nor their propensity for violent conflict. Watts examines why the "final pagan generation"—born to the old ways and the old world in which it seemed to everyone that religious practices would continue as they had for the past two thousand years—proved both unable to anticipate the changes that imperially sponsored Christianity produced and unwilling to resist them. A compelling and provocative read, suitable for the general reader as well as students and scholars of the ancient world.

Edgar Rice Burroughs wrote this tale of confused identity and royal intrigue in 1914 and 1915, as World War I was getting ready to happen: it means to be an homage to Anthony Hope's *Prisoner of Zenda*. But, of course, it isn't Hope writing, but Burroughs: the events that led to the war inform the book, and it speaks to the real events happening as Burroughs wrote. That makes it a very different story from Hope's almost-whimsical novel. Part of the reason Burroughs left such a lasting mark on the world is because he was engaged in the events that surrounded him; the news troubled him deeply and personally. As well it might! He was writing, as he always did, on fantastical topics; but it is the fantastic nature of the twentieth century that is the real text of the man's career. The events that shape our own times now inform the work at hand: Edgar Rice Burroughs is generally described as a "Pulp Writer" -- that's code for a successful hack -- but the truth is that he was much, much more.

The Paleolithic site of Barda Balka ("standing stone," "stone to lean upon" in local Kurdish) is situated about 3 kilometers northeast of Chemchemal in Kirkuk Province, Iraq. Until recent years, the site was marked by a natural monolith of limestone conglomerate 3.5 meters high on a rather barren slope partly littered with Acheulean-type bifaces, pebble tools, cores, and flake artifacts. The site was discovered in 1949 by members of the Directorate General of Antiquities of Iraq while on archaeological reconnaissance in the district. In 1951, during a field season of the Oriental

Institute of the University of Chicago under the direction of Robert J. Braidwood (which not only conducted the excavations at nearby Jarmo and Karim Shahir but also carried out wider geological and prehistoric reconnaissance in the extended Chemchemal Valley area), Barda Balka was visited and further studied by Herbert E. Wright Jr. of the University of Minnesota Department of Geology and Bruce Howe, then of the Peabody Museum, Harvard University. Wright and Howe returned shortly thereafter to conduct a four-day sounding campaign of trenching and localized geological investigations. This volume is Howe's final report of these investigations at Barda Balka.
