[Making Lifelong Learning a Reality for All](#) Learning Matters

A guide outlining how math is used in everyday situations such as banking, using credit, and buying a car. Offers tips on ways to avoid problems with money.

[Culture Renovation: 18 Leadership Actions to Build an Unshakeable Company](#) Puffin

When war forces people to flee their homes, young refugee Peter carries a cherished family possession throughout a difficult period of survival before reflecting on its importance years later.

Prevention of Stroke C&T Publishing Inc

'Hope is the thing with feathers that perches in the soul'--Emily Dickinson
This is a story about hope, kindness and redemption set in a grey dystopian world. When a great feather drifts from the leaden sky, two children recognise its extraordinariness and take it to the village for its protection. The villagers, however, want to encase it, upon which the feather loses its radiance. The children take it home and care for it through the night. In the morning it is again radiant, and when they set it free it leaves behind the first signs of blue sky and colour. The ambiguous ending invites multiple interpretations about the effects of selflessness and kindness.

The Treasure Box Penguin UK

Aimed at new recruits or HE students thinking about a career in policing, this book provides a clear overview of and insight into the many and varied roles available. From a neighbourhood police officer or a detective, to a crime scene investigator gathering evidence or an analyst collating intelligence, the book examines what each role entails, the skills required, and the best pathway to securing the job. An extended case study runs through the book, demonstrating how the different roles are involved in and contribute to a single investigation, and self-assessment questions relating to each role check the reader's understanding.

Mr Big Transportation Research Board National Research

Max is on a mission to find out if she is unique. As she travels to a mountain, a

desert, a jungle, the Arctic, an ocean and a faraway island, Max makes lots of friends. Can she find anyone exactly the same as her? Come on an amazing journey around the world with Max and Lemon! Max is determined to find out if she is unique. She sets off on a journey to find someone just like her. She travels around the world, meeting lots of new friends. Her journey covers a mountain, a desert, the jungle, the Arctic, the ocean and an island. Things can get a bit messy when you try to wash a woolly mammoth. Follow this step-by-step guide to successfully clean up your hairy friend. Be forewarned! A mammoth's tummy is terribly tickly. Young readers and parents alike will appreciate this hilarious bath time adventure from Michelle Robinson and Kate Hindley.

The Making of Milton Springer

Research 2.0 is now a critical component in research management. This book describes how Web 2.0 technologies can help researchers collaborate. It contains examples of web portals including MyNetResearch and discusses critical aspects of research management.

Charlie the Firefighter Springer

This report recommends that the Bureau of Safety and Environmental Enforcement (BSEE) take a holistic approach to evaluating the effectiveness offshore oil and the Safety and

Environmental Management Systems (SEMS) programs of gas industry operators. According to the report, this approach should, at a minimum, include inspections, audits by the operator and BSEE, key performance indicators, and a whistleblower program. SEMS is a safety management system (SMS) aimed at shifting from a completely prescriptive regulatory approach to one that is proactive, risk based, and goal oriented in an attempt to improve safety and reduce the likelihood that events similar to the April 2010 Macondo incident will reoccur. According to the committee that produced the report, it is not possible for a regulator to create a culture of safety in an organization by inspection or audit; that culture needs to come from within the organization. To be successful, the tenets of SEMS must be fully acknowledged and accepted by workers, motivated from the top, and supported throughout the organization and must drive worker actions. The report also notes that BSEE can encourage and aid industry in development of a culture of safety by the way it measures and enforces SEMS. The committee believes BSEE should seize this opportunity to make a step change in safety culture by adopting a goal based holistic approach to evaluating the effectiveness of SEMS programs. In recommending a holistic approach to evaluating the effectiveness of SEMS programs, the report explores in detail the role of SEMS in helping to develop a culture of safety, highlights the pros and cons of various methods of assessing the effectiveness of a SEMS program, and investigates existing approaches for assessing the SMS programs of various U.S. and international regulatory agencies whose safety mandates are similar to that of BSEE.

Modeling Decisions C&T Publishing Inc
 "Mum says it's for our own protection. London's just getting too dangerous." It's 1941. Hitler's ruthless Luftwaffe has already started its deadly bombing raids across London. So, when cousins Sam and Lily are evacuated north to a sleepy seaside hamlet, they hope that they'll find safety. Instead, the two children encounter local hostility, a shifty character sending messages in a secretive code, and a treacherous plot. Can Sam, Lily and their new friends crack the code before hundreds are killed? "Good writing is more than we say; it is how we say it. This book shows how to master fifty key target skills that will improve their writing and raise their assessment scores."--Editor.

ECKM19 - Proceedings of the 20th European Conference on Knowledge Management - Volumes 1 and 2 Getty Publications

As a graduate student at Ohio State in the mid-1970s, I inherited a unique computer vision laboratory from the doctoral research of previous students. They had designed and built an early frame-grabber to deliver digitized color video from a (very large) electronic video camera on a tripod to a mini-computer (sic) with a (huge!) disk drive—about the size of four washing machines. They had also - signed a binary image array processor and programming language, complete with a user's guide, to facilitate designing software for this one-of-a-kind processor. The overall system

enabled programmable real-time image processing at video rate for many operations. I had the whole lab to myself. I designed software that detected an object in the field of view, tracked its movements in real time, and displayed a running description of the events in English. For example: "An object has appeared in the upper right corner...It is moving down and to the left...Now the object is getting closer...The object moved out of sight to the left"—about like that. The algorithms were simple, relying on a sufficient image intensity difference to separate the object from the background (a plain wall). From computer vision papers I had read, I knew that vision in general imaging conditions is much more sophisticated. But it worked, it was great fun, and I was hooked.

Stone Cold Luxembourg : Office for Official Publications of the European Communities

This book contains the refereed proceedings of the 13th International Conference on Knowledge Management in Organizations, KMO 2018, held in Žilina, Slovakia, in August 2018. The theme of the conference was "Emerging Research for Knowledge Management in Organizations." The 59 papers accepted for KMO 2018 were selected from 141 submissions and are organized in topical sections on: Knowledge management models and analysis; knowledge sharing; knowledge transfer and learning; knowledge and service innovation; knowledge creation; knowledge and organization; information systems and information science; knowledge and technology management; data mining and intelligent science; business and customer relationship management; big data and IoT; and new trends in IT.

Maddy's Song Twinkl

Mr Big is strong, Mr Big is tough, Mr Big is . . . well . . . BIG! He has just one small problem - because of the way he looks he just can't get people to stick around. How can he show them that although he may look a little scary, he is just a great big softy inside? With his trademark bold colour and masterful graphic simplicity, Ed Vere sensitively and humorously tackles the universal and current subject of inclusion, reminding the reader that to get to know someone you need to look beyond their exterior. This is the third picture book from an exciting new talent, whose previous titles *The Getaway* and *Banana* have received great critical acclaim.

Knowledge Management in Organizations Twinkl

Scraps never looked so good! This is improvisational piecing reinvented - learn how to create your own creatively-collaged swatches of fabric in just 15 minutes a day. As you play, you'll sharpen your design skills and learn more about combining colours and prints in new ways. Discover just how distinctive classic blocks like Sawtooth Star or Flying Geese can be, when they're constructed with more spark and spontaneity!

Principles of Digital Image Synthesis

National Geographic Books

These are the proceedings of the International Conference on ISMAC-CVB, held in Palladam, India, in May 2018. The book focuses on research to design new analysis paradigms and computational solutions for quantification of information provided by object recognition, scene understanding of computer vision and different algorithms like convolutional neural networks to allow computers to recognize and detect objects in images with unprecedented accuracy and to even understand the

relationships between them. The proceedings treat the convergence of ISMAC in Computational Vision and Bioengineering technology and includes ideas and techniques like 3D sensing, human visual perception, scene understanding, human motion detection and analysis, visualization and graphical data presentation and a very wide range of sensor modalities in terms of surveillance, wearable applications, home automation etc. ISMAC-CVB is a forum for leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all aspects of computational vision and bioengineering.

Working in Policing Springer

Do you know when to use 'I' instead of 'me'? How about colons and semicolons:

can you tell the difference? Which spelling is correct: recieve or receive? SPAG: SPELLING, PUNCTUATION AND GRAMMAR provides answers to these and many more, using a wide range of multiple-choice questions, complete with answers, tips and explanations. This practice handbook demonstrates the correct use of different punctuation marks, explores key grammar points (including word classes), and clarifies confusing spellings and words. Written in standard conversational-style English, SPAG: SPELLING, PUNCTUATION AND GRAMMAR is for you, if you are learning English language, preparing for your GCSE/IGCSE English language exam, preparing for any English language exam, reinforcing or brushing-up on your spelling, punctuation and grammar knowledge.
