Shadows of the

Mountain Harlequin

When Dr. Lawrence A.

Cooper (Coop) and two friends, Harvey Peck and Mack McGeary, saddle up for a wilderness fishing trip, they have no idea what mayhem lies ahead. While searching for a legendary trout lake, not only do they manage to get themselves hopelessly lost, but they also have a bloodied sixteen-year-old girl stumble into their camp. She is severely beaten, sexually assaulted and barely alive. Though Coop does everything to save her, she dies twenty-four hours later. Now they have a body and big problem. It is uncommonly warm for the mountains, and they have no idea how long it may take to find their way back to civilization. Reluctantly, Coop decides to perform a

field autopsy to collect and preserve vital forensic evidence before the body decomposes. When he finishes, it is nearly dark and too late to break camp. The next morning they awaken to discover the body and all the forensic samples are missing. Now they must somehow find their way back to civilization, then convince the authorities of a grisly murder, but with no body and no evidence. The latest action-packed installment in the national bestselling Western authors William W. Johnstone and J.A. Johnstone's long-running Mountain Man historical series. The 50th Book in the Bestselling Mountain Man Series! A cold day in hell descends upon Texas when mountain man sharpshooter Smoke Jensen pins on a tin star to tackle a wild bunch of bloodthirsty outlaws in this gun-blazing novel from national bestselling authors William W. Johnstone

and J.A. Johnstone. Johnstone Country. A Glorious Land. Jonas Madigan is dying. He spent his life taming towns and upholding justice across the west with no regrets. Along the way, Madigan took the measure of good men like Smoke Jensen, who has traveled to Salt Lick, Texas to pay his respects to the lawman. But when bandits gun down the small town's current marshal—and Smoke sends the killers to Boot Hill—Madigan asks his friend to wear the badge and keep the peace until a permanent replacement is sworn in. Turns out the bandits were members of Bishop's Mauraders, a twenty-man gang of trigger-happy thieves led by the vicious and

venomous Snake Bishop—and they've set their sights on Salt Lick. They're due to arrive at the same time as a monstrous blizzard that's covering up the countryside. Now, it's up to Smoke to turn the townspeople into a posse to defend their lives and land from both mother nature and man's worst nature . . . Live Free. Read Hard.

2013 Lambda Literary Award for Gay Mystery

— Winner When missing persons investigator Dan Sharp attends a wedding, he finds himself investigating more than one murder. Dan Sharp, a gay father and missing persons investigator, accepts an invitation to a wedding on a yacht in Ontario's Prince Edward County. It seems just the thing to bring Dan closer to his noncommittal partner, Bill, a respected medical professional with a penchant for sleazy after-hours clubs, cheap drugs, and rough sex. But the event doesn't go exactly as planned. When a member of the wedding party is swept overboard, a case of mistaken identity leads to confusion as the wrong person is reported missing. The

hunt for a possible killer leads Dan deeper into the troubled waters and private lives of a family of rich WASPs and their secret world of privilege. No sooner is that case resolved when a second one ends up on Dan's desk. Dan is hired by an anonymous source to investigate the disappearance, twenty years earlier, of the groom's father. The only clues are a missing bicycle and six horses mysteriously poisoned.

 Book Description
 Linux is one of the most widely used operating systems among system administrators, and even modern application and server development is heavily reliant on the Linux platform. The Linux Administration Cookbook is your go-to guide to get started on your Linux journey. It will help you

understand what that strange little server is doing in the corner of your office, what the mysterious virtual machine languishing in Azure is crunching through, what that circuit-board-like thing is doing under your office TV, and why the LEDs on it are blinking rapidly. This book will get you started with administering Linux, giving you the knowledge and tools you need to troubleshoot day-to-day problems, ranging from a Raspberry Pi to a server in Azure, while giving you a good understanding of the fundamentals of how GNU/Linux works. Through the course of the book, you'll install and configure a system, while the author regales you with errors and

anecdotes from his vast experience as a data center hardware engineer, systems administrator, and DevOps consultant. By the end of the book, you will have gained practical knowledge of Linux, which will serve as a bedrock for learning Linux administration and aid you in your Linux journey. What you will learn

Install and manage a Linux server, both locally and in the cloud

Understand how to perform administration across all Linux distros

Work through evolving concepts such as IaaS versus PaaS, containers, and automation

Explore security and configuration best practices

Troubleshoot your system if something goes

wrongDiscover and mitigate hardware issues, such as faulty memory and failing drivesWho this book is for If you are a system engineer or system administrator with basic experience of working with Linux, this book is for you.
