This text makes use of contemporary work in linguistics to provide up-to-date commentary on the development of Latin, from its prehistoric origins in the Indo-European language family, through the earliest texts, to the creation of the Classical Language of Cicero and Vergil, and examines the impact of the spread of spoken Latin through the Roman Empire. The first book in English in more than 50 years to provide comprehensive coverage of the history of the Latin language Gives a full account of the transformation of the language in the context of the rise and fall of Ancient Rome Presents up-to-date commentary on the key linguistic issues Makes use of carefully selected texts, many of which have only recently come to light Includes maps and glossary as well as fully translated and annotated sample texts that illustrate the different stages of the language Accessible to readers without a formal knowledge of Latin or linguistics

This volume deals with different aspects of the creation and use of multilingual corpora. The term 'multilingual corpus' is understood in a comprehensive sense, meaning any systematic collection of empirical language data enabling linguists to carry out analyses of multilingual individuals, multilingual societies or multilingual communication. The individual contributions are thus concerned with a variety of spoken and written corpora ranging from learner and attrition corpora, language contact corpora and interpreting corpora to comparable and parallel corpora. The overarching aim of the volume is first to take stock of the variety of existing multilingual corpora, documenting possible corpus designs and uses, second to discuss methodological and technological challenges in the creation and analysis of multilingual

corpora, and third to provide examples of linguistic analyses that were carried out on the basis of multilingual corpora.

Latinitatis Rationes de Gruyter

This book is an innovative guide to quantitative, corpus-based research in historical and diachronic linguistics. Gard B. Jensen and Barbara McGillivray argue that, although historical linguistics has been successful in using the comparative method, the field lags behind other branches of linguistics with respect to adopting quantitative methods. Here they provide a theoretically agnostic description of a new framework for quantitatively assessing models and hypotheses in historical linguistics, based on corpus data and using case studies to illustrate how this framework can answer research questions in historical linguistics. The authors offer an in-depth explanation and discussion of the benefits of working with quantitative methods, corpus data, and corpus annotation, and the advantages of open and reproducible research. The book will be a valuable resource for graduate students and researchers in historical linguistics, as well as for all those working with linguistic corpora.

This book is a comprehensive study of the evidential system in German. It presents a systematic description of the encoding of evidentiality in present-day German, as well as a diachronic reconstruction of the relevant sources and paths of grammaticalization from the Old High German period onwards. Based on empirical corpus research, the study investigates the degree of grammaticalization of each single evidential construction and the make-up of the present-day system as well as the diachronic stages that lead to the present state. The book focuses on three main issues. First, it is concerned with the general notion of evidentiality, its deictic character, and with the interrelations between the domains of evidentiality and epistemic modality. Second, the book presents the results of the synchronic corpus-based analysis of the German evidential periphrastic constructions

werden 'become' + infinitive, scheinen 'seem', drohen 'threaten', versprechen 'promise' + zu 'to'- infinitive, which constitute a paradigm for coding evidentiality in Present Day German. Third, the diachronic development of the evidential constructions is represented as a complex grammaticalization process, interacting with the development of modal constructions and leading to a highly differentiated category of modal and evidential distinctions in the grammar of German.

Mehr als einhundert Bischofssitze sind in Agypten gegen Ende der Spatantike historisch bezeugt. Doch welche Bauformen wahlte man für die bischoflichen Kirchen und welchen Ort nehmen sie innerhalb der Stadttopographie ein? Mit welchem Aufwand wurden die Episkopien gestaltet? Lassen sich karitative Einrichtungen der Bischöfe baulich nachweisen? In diesem Band werden diejenigen zwölf Stätten Agyptens vorgestellt, an denen sich materielle Zeugnisse der bischoflichen Präsens nachweisen lassen oder hypothetisch mit ihr verbunden wurden. Die Belege erstrecken sich vom Patriarchensitz Alexandria bis zur Nilinsel Philai in der Thebais II. Einleitende Beiträge analysieren die spatantiken ägyptischen Bischofslisten und die archaologischen Befunde. Ferner sind dem ausführlichen Katalog Pläne und Abbildungen beigegeben.

The range of studies is further complemented by discussions of the methods of historical comparative linguistics and linguistic reconstruction. German description: Die seit 2004 erscheinende Zeitschrift hat die historisch-vergleichende Sprachwissenschaft und vergleichende Rekonstruktion insbesondere der indogermanischen Sprachen zum Gegenstand. Gelegentlich finden aber auch andere Sprachen Raum, wie etwa das Tungusische oder die Nordwestkaukasische Sprachen. Zudem widmet sich die Zeitschrift der philologischen Erschließung linguistisch bedeutsamer Texte in älteren Sprachen. Das Spektrum wird erweitert durch methodische Diskussionsbeiträge zur historisch-vergleichenden Sprachwissenschaft und linguistischen Rekonstruktion.

This Textbook on Indo-European Linguistics is designed as an introduction to the field. It presents current topics and questions in Indo-European linguistics in a clear and informative manner. This is the English translation of the eighth edition of the work first published by Hans Krahe and it takes account of more recent research. While Krahe only considered phonology and morphology, the edition also includes a comprehensive account of syntax and lexis. Manfred Mayrhofer assisted with the section of phonology; Matthias Fritz wrote the section on syntax and provided support for the project as a whole.

The 'Ecclesiastical History' by Socrates Scholasticus had an unusual transmission in Armenia. In 695, the first translation (made in the sixth century) was completely revised. It was much abbreviated and changed, while at the same time additions of various kinds were introduced. Now, for the first time, that adapted text of the 'Ecclesiastical History' is translated from the classical Armenian. In this English rendering all the additions to the original text are highlighted and studied from the perspective of earlier Armenian literary and theological traditions. The Introduction assesses the possible motives for this adaptation of a well known History at the end of the seventh

century. Similar Armenian reworkings of foreign Histories -- the Georgian Chronicles and the Syriac Chronicle of the Patriarch Michael -- are much later. Within Armenia the secondary version of Socrates became more influential than the first, more exact translation. The present book is thus of value for the study of Armenian history and theology in the period following the break with the imperial church of Constantinople.

Der altgermanischen Sprachen Gotisch, Altnordisch und Altsächsisch bis hin zu den modernen Sprachen Niederländisch, Englisch und Deutsch als Datenquellen bedienen sich die in diesem Buch erscheinenden Beiträge zur historischen Verbmorphologie. Besondere Berücksichtigung finden Themen wie die Ursprünge der starken und schwachen Verben, die Entwicklung grammatischer Kategorien im Bereich Tempus-Aspekt-Modus und sowohl deren morphologischen bzw. syntaktischen Markierung als auch deren Implikationen für die Semantik der Verbalphrase. Die Aufsätze gehen über die Beschreibung der Phänomene hinaus, indem sie sich theoretischen Fragen stellen, ohne daß sich das Buch jedoch auf nur eine bestimmte Theorie beschränkt. Die Diskussionen zur Rekonstruktion, Typologie und Analogie sowie der Grammatikalisierung, Ergativität und Polarität des germanischen Verbs werfen ein neues Licht auf die diversen Formen seiner grammatischen und semantischen Funktionen.

A History of International Human Rights and Forgotten Heroes In this national bestseller, the critically acclaimed author Peter Balakian brings us a riveting narrative of the massacres of the Armenians in the 1890s and of the Armenian Genocide in 1915 at the hands of the Ottoman Turks. Using rarely seen archival documents and remarkable first-person accounts, Balakian presents the chilling history of how the Turkish government implemented the first modern genocide behind the cover of World War I. And in the telling, he resurrects an extraordinary lost chapter of American history. Awarded the Raphael Lemkin Prize for the best scholarly book on genocide by

Ziel dieser Arbeit ist die vergleichende synchrone Darstellung des alt- und neuarmenischen Tempus-Aspekt-Modussystems und seine diachrone Analyse. Bei der Beurteilung der Vorgeschichte des altarmenischen Verbalsystems ist die dialektgeographische Position des Armenischen im Verhältnis zum Griechischen, Phrygischen und Arischen in der sogenannten sudostindogermanischen Gruppe ebenso von Belang wie die Frage

nach dem relativen Alter des durch diese Gruppe repräsentierten Tempus-Aspekt-Modussystems im Vergleich zu den anderen indogermanschen Sprachen (Latein, Slawisch, Baltisch, Tocharisch und vor allem dem früh ausgegliederten Anatolischen). Ein Schwerpunkt der Untersuchung ist die Analyse des Verhältnisses der Kategorie Modus zu Aspekt und Tempus im Armenischen einerseits und der Vergleich des armenischen Aspektsystems mit dem durch das Griechische repräsentierten aspect flexionnel (point vs. ligne) und dem durch das Slawische repräsentierten aspect syntagmatique andererseits (vollendet vs. unvollendet bzw. abgeschlossen vs. nicht abgeschlossen). Im Zentrum der Untersuchung steht die Modusverwendung. Der Aufbau des Verbalsystems machte jedoch die zusätzliche Berücksichtigung des Tempus nötig. Auch die Aspektkategorie war zu berücksichtigen, da die modalen Kategorien oft nur durch ihren aspektuellen Charakter kontrastieren. Die Textquellen der vorliegenden Arbeit stammen aus dem 5. Jahrhundert. Die altarmenische Literatur des 5. Jahrhunderts hat unmittelbar nach der Erfindung des armenischen Alphabets im Jahr 407 eine hohe und klassische Stufe erreicht. Diese Epoche wird wegen der klassischen und reinen Sprache "goldenes Zeitalter" genannt. Ausser der Bibelübersetzung gibt es aus dieser Zeit zahlreiche weitere Originalschriften verschiedener Autoren mit historischen und theologischen Inhalten.

Das armenische Tempus- und Modussystem

English description: Christians in Lebanon have been painting their churches ever since the time of Christ but their work is largely unknown. Presently, the larger study of Byzantine painting has barely touched upon medieval Lebanon and very little has been published on a closely connected group of paintings in medieval Syria. Most, but not all of the paintings that have survived to the present day in Lebanon and also in Syria belong to the 12th and 13th centuries during the Crusades, a period when the greatest historical developments were taking place. As long as this region remained unexamined, an understanding of the cultural history of the Mediterranean basin was incomplete. This study approaches Lebanese paintings from two aspects. In the first place, it describes 26 monuments still visible today. The main body of the text then discusses the paintings as a group, including chapters on history, architecture, iconography and style. These chapters explore and attempt to explain relationships between Lebanese painting and other paintings in contemporary, Christian communities. Ideas moved with great rapidity across the Mediterranean during the 12th and 13th centuries and

the Lebanese frescoes reflect the vigorous and colourful society of Outremer. Among all historical circumstances since the fall of the Roman Empire, the Crusades had the most far-reaching impact on European history and culture. Arab history was not unaffected by the Crusades but the greater impulse was from the East to the West. There were momentous impulses that reached across the seas at this time, not the least of them being the burgeoning commerce of the silk route and the approach of the Mongols. Lebanese painting reflects changes of this kind during this period. They not only illumine our understanding of medieval history in the Mediterranean basin, but also our understanding of the East and the West we experience today. German description: Das Werk unternimmt eine Bestandsaufnahme aller erhaltenen mittelalterlichen Wandmalereien im Libanon und ist damit ein Standardwerk zum Thema. Seit dem frühen Christentum wurden libanesischen Kirchen mit Fresken ausgestattet, und auch während der islamischen Zeit setzten die Maler ihre Tätigkeit fort. Aus der Zeit der Kreuzzüge stammen jedoch die meisten der im Libanon noch vorhandenen Wandmalereien. Nach einer einleitenden Darstellung der Monumente und ihres Zerfalls seit Beginn der Katalogisierungsarbeiten wird jedes Fresko und die ggf. zugehörige Inschrift detailliert beschrieben und mit mindestens einer Abbildung dokumentiert. Die folgenden Kapitel über Geschichte, Architektur, Ikonographie und Stil setzen die Malerei des Libanon zu gleichzeitiger christlicher Kunst in anderen Gegenden in Beziehung. Wechselseitige Einflüsse aus Zypern, Byzanz, Kappadokien, Palästina, Ägypten und Syrien sind nachzuweisen.
