Keeping Bees and Making Honey is a stunning, comprehensive and attractive lifestyle guide to beekeeping packed with images, information, practical advice, useful resources and recipes. Whether you have a tiny balcony or acres of land; live in the middle of a city or in the countryside surrounded by flowers, you can keep bees. Keeping Bees and Making Honey caters for every situation, and covers everything you will need to consider before you set up your colony – including when and how to tell the neighbours! 'Understanding your bees' introduces you to the history of bees and humans, the anatomy of a

honey bee, the variety of species that you are likely to encounter, the caste system within a colony of queen, worker and drone, and the birth and life cycle of bees. 'What to consider' suggests factors to consider before keeping bees, from the space where you will house your hives to children and pets. Learn about the variety of hives available and how they work, as well all the important things that you will need including protective clothing, a smoker and hive tool, as well as honey-harvesting equipment. There are a variety of sources for purchasing your bees and 'Where and when to get your bees' will give you all the advice you need covering the nucleus, packaged bees, full colonies and tips on marking the queen. There are detailed sections on pollen and supers.

'Gardening for bees' will help you consider the best flowers to supply nectar and pollen to your bees whilst ensuring your garden looks great! It is probably the prospect of home-grown honey that entices most people to keep bees. 'All about honey' will show you how bees make honey, and how to harvest, jar and sell your honey. There is a whole chapter devoted to other bee products, from uses of beeswax; candles and cosmetics, to delicious recipes made with honey. Finally, 'Health and care' will ensure that your apiary stays clean and tidy, and your colony is pest free, strong and vigorous. This updated and revised edition of Keeping Bees and Making Honey includes new material on bees as a superorganism, keeping bees in urban locations such as schools and at work, caring for

bees during the winter, your second year as a bee keeper and more on bee health, varroa and colony collapse disorder. Environmentally there has never been a more important time to start beekeeping, nor is there a better antidote to the stresses of everyday life. Keeping Bees and Making Honey is the ideal companion for you if you are planning to start keeping bees in order to contribute to their conservation and to enjoy the considerable benefits of this fascinating hobby. *Hidden Agendas* Harbour Publishing

Dhaka, the capital of Bangladesh, has one of the most important buildings of the 20th century: its parliamentary building by Louis I. Kahn constructed between 1961 and 1982. Little is known, however, about the local architecture scene that has emerged since then. Yet contemporary architecture in Bangladesh exhibits a strong formal idiom that has its roots in tradition and is combined with an innovative handling of local resources such as bamboo and brick.00Exhibition: S AM Schweizerisches Architekturmuseum, Basel, Switzerland (02.12.2017 - 06.05.2018).

The only book in English for readers of all ages by Nobel Prize-winning novelist Olga Tokarczuk is a beautifully illustrated meditation on the fullness of life. "Olga Tokarczuk's *The Lost Soul*, an experimental fable illustrated by Joanna Concejo and translated by Antonia Lloyd-Jones, resonates with our current moment. . . . What a striking, and lovely, material object it is." —New York Times "The *Lost Soul*, by Olga Tokarczuk and illustrator Joanna Concejo, is a quiet meditation on happiness, following a busy man who loses his soul. . . It pours a childlike sense of wonder into a once-upon-a-time tale that is already resonating with adults around the world." —Guardian *The Lost Soul* is a deeply moving reflection on our capacity

to live in peace with ourselves, to remain patient, attentive to the world. It is a story that beautifully weaves together the voice of the Nobel Prize-winning Polish novelist Olga Tokarczuk and the finely detailed pen-and-ink drawings of illustrator Joanna Concejo, who together create a parallel narrative universe full of secrets, evocative of another time. Here a man has forgotten what makes his heart feel full. He moves to a house away from all that is familiar to him to wait for his soul to return. "Once upon a time there was a man who worked very hard and very quickly, and who had left his soul far behind him long ago. In fact his life was all right without his soul—he slept, ate, worked, drove a car and even played tennis. But sometimes he felt as if the world around him were flat, as if he were moving across a smooth page in a math book that was covered in evenly spaced squares... " —from *The Lost Soul* *The Lost Soul* is a sublime album, a rare delicacy that will delight readers young and old. "You must find a place of your own, sit there quietly and wait for your soul." Winner of the Bologna Ragazzi Award,

Special Mention 2018, Prix de l'Union Internationale pour les Livres de Jeunesse (IBBY), The White Raven (IJB Munich), and the Łódź Design Festival Award.

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing

officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

*Much Ado About Nothing* is a comedy by William Shakespeare. First

published in 1600, it is likely to have been first performed in the autumn or winter of 1598-1599, and it remains one of Shakespeare's most enduring and exhilarating plays on stage.

Stylistically, it shares numerous characteristics with modern romantic comedies including the two pairs of lovers, in this case the romantic leads, Claudio and Hero, and their comic counterparts, Benedick and Beatrice.

From legendary naturalist Jane Goodall, an absorbing fictional tale that will steal hearts and open minds about the plight of the pangolin, the only mammalian species with scales, and endangered by illegal trafficking. After a blissful babyhood being cared for by her loving mother, Pangolina ventures out alone into the forest to become an independent adult, helped along by wise, older animal companions, including a civet and a bat. But one day cruel hunters trap Pangolina, putting her into a cage along with her friends, and bring them to a market to be sold as wild game. Pangolina is especially vulnerable, since her scales are

prized by humans who believe they have curative powers. To the rescue comes a small girl who knows that pangolins are friendly fellow creatures who have feelings too, and who convinces her mother to buy Pangolina and set her free. Jane Goodall's many followers and all animal-loving children and adult picture book fans will be riveted by this suspenseful and heartwarming fictional story set in China and including an authoritative informational page about pangolins and suggestions for how to help fight animal trafficking.

Orca Chief is the third in a series of Northwest Coast legends by Roy Henry Vickers and Robert Budd.

Their previous collaborations, *Raven Brings the Light* (2013) and *Cloudwalker* (2014), are award-winning national bestsellers.

Thousands of years ago in the village of Kitkatla, four hunters leave home in the spring to harvest seaweed

and sockeye. When they arrive at their fishing grounds, exhaustion makes them lazy and they throw their anchor overboard without care for the damage it might do to marine life or the sea floor. When Orca Chief discovers what the hunters have done, he sends his most powerful orca warriors to bring the men and their boat to his house. The men beg forgiveness for their ignorance and lack of respect, and Orca Chief compassionately sends them out with his pod to show them how to sustainably harvest the ocean's resources. Accompanied by almost exclusively new illustrations by Roy Henry Vickers, this next installment of the Northwest Coast Legends will captivate readers young and old with its vivid imagery and remarkable storytelling.
