The evidence for such incredible assertions comes from American institutions such as the National Grange Order of Husbandry and from the man-made landscape of the United States where massive structures and whole cities conform to an agenda designed to elevate the feminine within religion and society. The authors explain how the Venus</p>	<p>families, working through the Freemasons and later the Grange, planned the American Revolution and the creation of the United States. It was this group who set the stage for the Founding Fathers to create Washington, D.C., according to the principles of sacred geometry, with an eye toward establishing the New Jerusalem. of the Washington Monument, revealing its occult purpose and connections to the heavens. They reveal how the obelisks in New York City depict the stars of Orion's Belt just like the Giza pyramids and how the site of one of them, St. Paul's Chapel, is the American counterpart to Rosslyn Chapel in Scotland. Exposing the strong esoteric influences behind the

establishment of the Grange in the United States, they connect this apparently conservative order of farmers to the Venus families and trace its lineage back to the Cisterians, who were a major voice in the promotion of the Crusades and the establishment of the Knights Templar. The authors conclude with the startling revelation that nearly every city in America has a temple to the Goddess

hidden in plain sight--their baseball diamonds--exposing the extent to which the Venus families are still at work behind the scenes.

**The Nine Billion Names of God** Basic

Books  
 This is a book of the key text of the Kabbalah, a work known as the Zohar ("Splendour"). The Zohar is a commentary on the Torah and although it is sometimes ascribed to a second-century rabbi, Simon Bar-Yochai, the form in which it is most widely known originates with Moses of Leon, a native of Granada, who died in 1305. The kabbalists believe that the undefinable

origin of all things is Ein Sof - the cause of causes, the infinite, that which underlies everything. The universe emanates from the divine in successive layers called esefiroti. Everything exists in God, but God extends infinitely beyond existence. All we know and are is linked together, pervaded and maintained by the divine. According to this work, the light of God

must be concealed in order to be revealed to creation. Even though the kabbalists believe that ultimately Ein Sof is beyond expression or understanding, the contemplation of God's presence in all things causes our thoughts to be purified. Magic That Works St. Martin's Press The Kabbalah Unveiled is a book concerning Kabbalah by freemason and occultist by S. L. MacGregor Mathers.

Kabbalah is an esoteric method, discipline, and school of thought in Jewish mysticism. It is a set of esoteric teachings meant to explain the relationship between the unchanging, eternal God-the mysterious Ein Sof ("The Infinite")-and the mortal, finite universe (God's creation). It forms the foundation of mystical religious interpretations within Judaism.

Historically, Kabbalah emerged from earlier forms of Jewish mysticism, in 12th- to 13th-century Spain and Southern France, and was reinterpreted during the Jewish mystical renaissance in 16th-century Ottoman Palestine. Jewish Kabbalists originally developed their own transmission of sacred texts within the realm of Jewish tradition. The Kabbalah Unveiled

includes translations and commentaries of the books of Zohar: The Book of Concealed Mystery; The Greater Holy Assembly; and The Lesser Holy Assembly. The Game Amereon Limited Now with an Historical Afterword by Ron Miller Featured in Ron Miller's \_The Conquest of Space Book Series.Ó One of the earliest books to accurately describe in detail the uses to which

rockets might be put in space exploration, John Munro's novel is also an exciting, humorous adventure on another world. Originally published in 1897 At the publisher's request, this title is sold without DRM (Digital Rights Management). **Secrets of Speed Seduction Mastery** W. Norton & Company Why do men and women cheat on each other? How do men really feel when their partners

have sex with other men? What worries women more - men who turn to other women for love or men who simply want sexual variety in their lives? Can the jealousy husbands and wives experience over real or imagined infidelities be cured? Should it be? In this surprising and engaging exploration of men's and women's darker passions, David Buss, acclaimed author of *The Evolution of*

*Desire*, reveals that both men and women are actually designed for jealousy. Drawing on experiments, surveys, and interviews conducted in thirty-seven countries on six continents, as well as insights from recent discoveries in biology, anthropology, and psychology, Buss discovers that the evolutionary origins of our sexual desires still shape our passions today. According to

Buss, more men than women want to have sex with multiple partners. Furthermore, women who cheat on their husbands do so when they are most likely to conceive, but have sex with their spouses when they are least likely to conceive. These findings show that evolutionary tendencies to acquire better genes through different partners still lurk beneath modern sexual behavior. To counteract

these desires to stray -- and to strengthen the bonds between partners -- jealousy evolved as an early detection system of infidelity in the ancient and mysterious ritual of mating. Buss takes us on a fascinating journey through many cultures, from pre-historic to the present, to show the profound evolutionary effect jealousy has had on all of us. Only with a healthy balance of

jealousy and trust can we be certain of a mate's commitment, devotion, and true love. *Transcendental Magic* Mitten Press "A truly remarkable achievement." —Barry Unsworth In the tradition of Seamus Heaney's *Beowulf* and Marie Borroff's *Sir Gawain and the Green Knight*, Sheila Fisher's *The Selected Canterbury Tales* is a vivid, lively, and readable translation of the most famous work

of England's premier medieval poet. Preserving Chaucer's rhyme and meter, Fisher makes these tales accessible to a contemporary ear while inviting readers to the Middle English original on facing pages. Her informative introduction highlights Chaucer's artistic originality in his memorable portrayals of surprisingly modern women and men from

across the spectrum of medieval society. <i>Fb Inception - Your Unfair Dating Advantage 47North</i>	Forfatteren giver en personlig og ironisk skildring af, hvordan han lærte at forføre kvinder	ved at ændre adfærd, og udvise korrekt kropssprog, stil og selvsikkerhed - og hvordan han fandt kærligheden
