This book is designed to meet the requirements of those who are, in any way, connected with labour management and for ensuring compliances of labour-related laws. It will be of great help to those who are in the field of Human Resource Management, Industrial Relations and Personnel Management. Efforts have been made to give the ratio of cases to enable the readers to understand the implication of various provisions keeping in view that the main enactments i.e. Industrial Disputes Act has been enacted as early as in 1947 when there were not many industries and the disputes were a few. Various efforts have been made afterwards, but no effective amendment has been made. However, the judiciary has widened the scope of Act. In addition to above, other important enactments relating to labour laws have also been dealt in such a manner that anyone can easily understand the legal implication. Besides above, the book includes model forms which are required by those who are either practising in labour laws or, in any way, concerned with managing people at work and ensuring compliances. The object of this book is to promote self-learning. Users would find this Book highly useful for its self teaching and application - oriented approach.

It is animated by the central question: “what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?” The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. The valuable experience and skill that he acquired in the course of his large and lucrative practice stood him in good stead in fighting his battles with the South African and British governments for securing political, economic and social justice for his fellow-countrymen. Gandhiji was not a visionary but a practical idealist. As Sir Stafford Cripps has remarked: “He was no simple mystic; combined with his religious outlook was his lawyer-trained mind, quick and apt in reasoning. He was a formidable opponent in argument.”

"e;Only free men can negotiate. Prisoners cannot enter into contracts... I cannot and will not give any undertaking at a time when I and you, the people, are not free. Your freedom and mine cannot be separated."e;-From a letter by Nelson Mandela during his imprisonment, February 10, 1985A revolutionary imprisoned on an island fortress may hold the key to peace in the Middle East. The leader of the outlawed Kurdistan Workers' Party (PKK), Abdullah calan, is considered by many to be the "e;Kurdish Mandela"e;, courageously issuing proposals for peace even from his prison cell. His ideas on democracy, women's liberation, and freedom have even inspired the remarkable Rojava Revolution in northern Syria. As Turkey descended into tyranny and Syria exploded in civil war, a peace delegation of European politicians, academics, and journalists, led by Nelson Mandela's lawyer and Supreme Court judge Essa Moosa, repeatedly attempted to go to meet with calan at his prison on Imrali Island. Your Freedom and Mine tells the story of these momentous delegations. The book opens with an informative historical overview of the Kurdish Question, leading up until the optimistic opening-and eventual bitter failure-of the peace process in Turkey. It includes official documents and reports from the Imrali Delegations in Istanbul and Diyarbakir/Amed, which involved in-depth interviews with Kurdish and Turkish politicians, media, and civil society regarding the degenerating political and human rights situation. The final section is a collection of testimonials from delegation participants. Your Freedom and Mine offers crucial insight into the dramatic history and current reality of the Kurdish struggle for recognition and peace in Turkey. *Handbook of Labour and Industrial Law* Springer Nature

This book, the second title in the Rethinking Community Development series, starts from concern about increasing inequality worldwide and the re-emergence of community development in public policy debates. It argues for the centrality of class analysis and its associated divisions of power to any discussion of the potential benefits of community development. It proposes that, without such an analysis, community development can simply mask the underlying causes of structural inequality. It may even exacerbate divisions between groups competing for dwindling public resources in the context of neoliberal globalisation. Reflecting on their own contexts, a wide range of contributors from across the global north and south explore how an understanding of social class can offer ways forward in the face of increasing social polarisation. The book considers class as a dynamic and contested concept and examines its application in policies and practices past and present. These include local/global and rural/urban alliances, community organising, ecology, gender and education.
